Dragon City v10.3.1 Hack Mod Menu One Hit No Root For Android Dragon City Unlimited Gems Food Soon Mod features: Mod Menu One Hit For MOD MENU and GAME work properly you should read what is written below carefully, if you are too lazy to do so, then this mod is not for you. When you unpack the mail file you downloaded you will have 2 APK files inside, named Dragon City (first installation) and Dragon City (second installation)... First, you will have to install (first installation) APK file and then run the game, it will ask you to draw over the applications, or appear on top of the resolution, you will have to provide it, and then it will ask you for permission to deposit, give that too. At this point, if the game is loaded with a penalty, then you can stop right here and enjoy the game, BUT if the game continues to ask for permission to deposit, then install (Second Set) and then continue the game. I would really appreciate it if you commented below and let me know if it only requires you to install (first installation) or you had to install (second installation) in order to play the game. For me it worked on a second setup on the Samsung s9 plus Android 9.0 Turn on the mod when it's your turn and then turn it back when it's an enemy turn. Otherwise the enemy will also make one blow. Works great on quests, not sure online battles, but don't use it on online battles since you can get banned. #dragoncityhack #dragoncitymodmenu #dragoncityunlimitedgems #dragoncitymodapk ----- Bifo Download Watch Download tutorial here Baixar tutorial aqu' 觀看視頻結尾的下载教程 Free subscription and download download: - Maud Apk ----- Note Im not responsible if you get banned or something and I do not encourage to use this!
