Unblocked minecraft on school chromebook

As schools around the world prepare for Back to School and switch to remote, hybrid, and personal learning models, educators use Minecraft: Education Edition to keep students connected. As part of our mission to support teachers, students and families in this unique transition, minecraft: Education Edition is now available for Chromebooks. Since Minecraft: Education Edition became available to schools in 2016, educators around the world are asking when the platform will expand to Chromebooks. We are pleased to welcome chromebook instructors to minecraft and our global education community in collaboration with the Google Education team. This edition of Minecraft: Education Edition includes new features for users on all device types, including Chromebooks, Windows, Macs, and iPads, to support remote and hybrid learning for Back to School. We've launched eleven new STEM lessons with a special Minecraft world developed with the American Beekeeping Association's Kids and Bees program to introduce students to bees and pollination, showcasing some of the fun features that are part of the update. These include new mobs such as bees and foxes, beehives and honey blocks, and an improved lesson library labeled for learning activities that seek lessons easier.
