He was known for his official history, agreed to come, and then started calling his house here. He began living in a house called the Rika Fundraising Association, an organization owned by Rika. Here they were able to meet all members of RFA and guests were invited to a third party who is an RFA member. It hosts the first party in the chat room and members have been added to the overview of the history of the game to download this popular messaging app. Therefore, he must also decide, discovering the truth behind RFA, which gives the characters a different story about each of the 7 pathsgame Otherwise, players can guide the history of the game and meet the situation. Depending on their answer, there are many different directions that the ground can distribute to the end player of the story. Whether the app distinguishes mysterious lines of messages through pagers that track stories by messaging players. The game story lasts 11 days on all tracks. The first day is the next 3 days with a general story and after 5 days people start along the way. Players can choose their own route. At the end of the fourth day, the game system negotiates the first 4 days of counting, automatically identifying the best player character or player character. It should be noted that the player's interest is not part of the need for someone to do the bad part or get rid of the bad end. Players work in real time on their phones to make reality better. Players who respond positively give them some characters with increased sympathy. With each correct answer for each character, the player will be at the center of different colors based on each character and its foundation, and how it will fit into that character. The player has characters and private messages that I can get you a lot of attention. Hearts I play hour glass game is a very important point for a few players who used to change the game chat earned when the player opened the screen, many advantages want to be part of the DLC ... In addition to playing in-game characters for interaction, T players are invited to create works. Guests agree with me on the player suggestions in the chat room, just put it, it will automatically use email. The player's job is to email the visitor 3 times to reply to the visitor if they are wrong. Inviting the game, inviting the player, that will be a good goal and affect the end of more than 15 people, it usually stops. Thông tin MOD?Đông hồ stumbled upon and downloaded an giới called Bâm gì không động hàn và cho hoát and mysterious messenger. When you open it the app is connected to a mysterious group chat with an attractive man. You are asked to join their secret party planning association in calling and the story begins... For girls, do you like game genres like Othome games or dating simulation games? Want to know the fun, cool, handsome hot boys you'll find only in the anime genre? This game is that mysterious messenger that you will not miss when interacting directly with the characters of the game and gives you an interesting experience. A Korean gaming company developed by Cheritz specializes in the development of Otome games for women. First released on the Android operating system on June 18, 2016, Mystic Messenger hit the app store, received a lot of praise and was well received by many players around the world. In this game, players can chat with each other to interact directly with male characters in the game and give the player a real feel when texting in real life. In addition, the game will give many different endings to increase the drama of the game, which will have many different paths depending on the player's choice. So what are you waiting for without downloading the main character right away so you can discover fascinating stories in the game? The story player will play the role of an ordinary female character. Suddenly, one day she downloaded a messaging app and texted when something happened inside the app that had been hacked by an unknown character. This person wanted to find the owner of the phone she found at the station and would try to convince her not to like it. When she agrees to find the phone, she will come to the apartment and receive a address here where the official story begins. She begins to live in this apartment under the possession of Rika, the founder of an organization called RFA (Rika's Fundraising Association). Here she is I was able to meet all the members of RFA and the RFA member was tasked with inviting guests to organize the expected third party. She is popular for organizing parties and observing the story of the game, which is added to a chat room made up of members of a previously downloaded messaging app. Through this, she will have to choose one of the 7 paths of a given character, each path will have a separate storyline, as well as find the truth behind rfa playing like any other Otome game, the player will be guided by the storyline of the game and make a choice for their line for the given situation. Depending on their answer, the plot is split in many different directions that can lead the player to the end of this story. The difference in Mystic Messenger is that the player will follow the story through the message lines displayed in the messaging application. The plot of the game lasts 11 days on each path. The first day is related to the prologue, the next three days will be a normal storyline, and the next five days will start in everyone's path. Players can't choose a route on their own. At the end of the fourth day, the player's first four days of interacting with the best character are automatically calculated to decide the player's character. The thing to note here is that players shouldn't interact with everyone, they should focus on one person or end up with a bad ending. The game works based on real-time available on your phone to increase the player's reality. Players can increase empathy by providing favorable feedback for specific characters. With each correct answer for each character, the player will receive hearts of different colors for each character, and the player can guess which path to enter. Therefore, the player can personally text and message I pay a lot of attention to. Hearts I earn can be used to exchange time glasses, very important items in the game that offer many benefits to players, such as when players play chat screens they missed, keep playing unlocked chat screens, buy routes, buy DLC parts, ... In addition to interacting with the characters in the game, players also have the task of inviting guests to the party. The cast in the chat room agrees to recommend and invite guests to the player, and an email from the guest is automatically sent to her. The player's job now is to reply to the visitor's email exactly three times, and they won't come an further if they go wrong. If a player invites

more than 15 people, it affects the end of the game, it will be a good ending and if it is not enough, it will be a normal ending. Graphic design style of graphic games When the graphics of the game is no doubt Very beautiful level. The interface of the game is built in a modern and luxurious way. The model of the character is very advanced, the personality catches all the players when it is considered their ideal model. What do you think about this game, very attractive? When text messages interact with the characters in the game as they do in real life, they again give the player a real experience. So, why not download Mystic Messenger to your computer so you can enjoy the experience fast. Experience.
