If you're still using your mobile phone's default calendar app, you don't know what you're missing. Google Play has hundreds of calendar apps, each with its own unique features and tools designed to allow us to organize our day-to-day excellent, no matter how busy our lives are. There are so many Android calendars that exist that it can be even difficult to choose one over the rest. That's why in this article we want to choose the best ones that exist in Google Play, emphasizing the most interesting features of each one, so that breaking up for one or the other is no longer a headache. Calendars for Android: The best thing you can download is Google Calendar for those who don't want to get complicated. Google Calendar is a selection of millions of users around the world, for its simplicity and ease of use, combined with a clean and intuitive design, and the ability to sync all events related to our Google account. The app has just received a redesign to adapt its interface to Google Material Theme Design Lines. In addition, due to the fact that it is a cross-platform service, you will be able to access events from any device, and with a few simple tricks you can even more compress this useful tool. Google Play Google Calendar Simple Calendar We choose a simple calendar and other apps from the same developer as one of the best open source apps that exist on Google Play. It's a simple calendar app - as its name suggests - with a customizable design and sync with The Google Calendar. Google Play Simple Calendar Google Play Simple Calendar Pro (0.69 euros) Calendar - Calendar and Reminders Next to Google Calendar, Calendar - Calendar and Reminders is one of the best free calendar apps for Android that we can find. Its design is slightly different from other applications in the category, although it only takes a few minutes to get to know the controls. Once you've set up, you'll be able to organize all of our events and reminders, both manually and automatically, to synchronize calendar accounts from other services. Since one of the latest updates, the app has a dark theme detailing what not all apps in its category can boast. Google Play Calendar - Cal Agenda and Reminders: Any.do Calendar At the time it was considered the best designed calendar app for Android on Google Play. Today it continues to stand out in its appearance, but it is also a complete tool with which to organize all our events, reminders and meetings in a simple way. supported by the vast majority of existing calendar servers, with the ability to synchronize calendars in real time. In addition, it allows you to combine both work and personal programs. The only negative aspect of the application is that it hasn't received an update since February 2016. Google Play Cal: Any.do Calendar and Planner Another great alternative to the default calendar that includes your mobile phone Calendar and planner. It's an easy-to-use tool, with automatic synchronization with Google's calendar and the ability to customize events to your liking. It doesn't include too many extra options, but it's definitely a fantastic option for those who just want to have control over their day-to-day lives as quickly and easily as possible. Google Play Calendar - ACalendar Planner - Android Calendar, downloaded by more than 10 million people and with a score of 4.4 points out of 5 stars, aCalendar is one of the most popular and most rated calendar apps in the store. And it's no less because, despite looking like a simple tool with the naked eye, it has dozens of settings and calendar management options. This allows you to change the display of your calendar - day, week, month, year or agenda mode - and its settings will allow you to change almost any section of the interface. In addition, it uses the Android home calendar synchronization system and offers the ability to sync our Google calendar. One calendar Since it is on almost every mobile platform, One Calendar is a good alternative for those who frequently switch devices, or who use iOS and Android simultaneously. It also offers synchronized calendar support on services such as Google, Live, Outlook, iCloud, Exchange, Office365, Facebook, and others. Google Play One Calendar TimeTree - Free Shared Calendar TimeTree is perhaps the most special calendar app of its choice, as it is a calendar based on shared programs where multiple users, led by an administrator, can participate in each calendar. Thus, it becomes one of the most interesting applications for families or working groups. Its features include the ability to create - of course - shared calendars, integrated chat with messages and images, reminders with notifications to all team members, and synchronization with other calendars. Google Play TimeTree - Free General Calendar Today Calendar Before Google Calendar has been completely updated and matches its main competitors, Today's Calendar has been one of the most popular apps in its category, He had almost no opponent. Today, despite the fact that his moment of fame has passed, it remains a fantastic alternative, with excellent design and interesting features, although its last update came more than three years ago. However, it is still as customizable as ever. Google Play Today Calendar (4.59 euros) OneView Calendar Another calendar app from the most original OneView Calendar. It stands out from the rest for completely forgetting classic vision formats day, week, month and year; We have only at our disposal an opinion with a clear and orderly summary of upcoming events, and offers quick and fluid navigation between different days. It's a good idea to watch videos on these lines to see how they work. Google Play OneView Calendar DigiCal Calendar The latest option that we offer - which does not mean it is worse than the previous ones - is DigiCal. It has been selected by publishers of Google Play as one of the best apps in its category, and today it accumulates more than 5 million downloads. It has synchronization for Outlook, Google Calendar and more servers, and is one of the best designed calendar tools that can be found in the store, as well as offering different customization options. Among its most striking details, we find access to more than 560,000 calendars of shows, sporting events and other important events, as well as various display options and widgets for the home screen.
