In the time of the Bible, the name often represented the reputation or nature of man. It is customary to choose a name that reflects the characteristics of the person or the aspirations of the parents for the child. Most Hebrew names had well-known, easy-to-understand meanings. Old Testament prophets build on this tradition by giving their children names, symbolizing their prophetic statements. For example, Hosea called his daughter Lo-ruhama, which means no regrets because he said that God would no longer feel sorry for the house of Israel. Today, Christian parents continue to appreciate the ancient custom of choosing a biblical name, important for the life of their child. This collection of biblical girls' names combines actual names from the Bible and names derived from biblical words, including the language, origin and meaning of the name (see also Baby Boy Names).
