Review Toyota Veloz 2020 Now, Toyota did take down Veloz as its own option, although it still has a built-in name avanza on this car. Its official name is now Toyota New Veloz. On its official website, Toyota has given its own space to the Toyota New Veloz. Thus, the Toyota New Veloz already has various internal and external characteristics with the Toyota New Avanza. If you look at the body at first sight, the look of the Toyota Avanza Veloz really looks different than the exterior of the Toyota New Avanza. This can be seen in the front fascia of the sector, which has a grill with different shapes that look sporty and more luxurious. Another difference in the Toyota New Veloz is also located in the heart of the kitchen runway. Although it still has the same cylinder filling capacity as the latest generation Avanza engines, in terms of performance and pull, this Toyota Veloz is more gahar than the latest Avanza. It is also not separated from the use of a five-speed transmission, which is aimed at channeling its power. In addition, Toyota's new veloz has a greater maximum power compared to the Toyota New Avanza, which is 96.6 PS PS turnover of 6000 rpm. On the other hand, Toyota's low MPV (Multi Purpose Vehicle) car has also been equipped with a variety of advanced and powerful features, one of which is an electrical power control feature that can provide ease for the driver when driving this car. In addition, this Toyota Avanza Veloz has been equipped with a wide range of safety and comfort features that can make the journey of the driver and passenger safer and more enjoyable. The size of the Toyota Veloz 2020 in terms of size owned by the Toyota Avanza Veloz, is not much different in size from the latest Toyota Avanza. This Toyota MPV is about the same size as its siblings, which is 4,200 mm long, 1,650 mm wide, 1,695 mm in height, and the lowest distance to the ground reaches 200 mm and weighs about 1085 kg. Toyota Avanza Veloz has a very comfortable body size and fits as a family car because of its size. To support the body size of the Toyota Avanza Veloz, Toyota relied on a reliable and capable suspension. The front, using a Mac Pherson Strut-type suspension in combination with a coil suspension behind the coil at the rear improves the comfort and stability of the car. To ensure safety on this Toyota Avanza Veloz, it already uses an anti-Lock braking system (ABS) braking system that makes the brake discs and drum models on the front and back of the car better. In addition to providing ease of driving this Toyota Veloz, Toyota has built an electrical power function supported by the use of large wheels, i.e. 15 inches. Toyota Veloz 2020 Engine Specifications This latest Toyota Veloz has a heart pacemaker kitchen room that is rated reliable. In this sector, Toyota still equips Avanza twin cars with 16-valve 4-cylinder DOHC engines available in two types, namely 1.3L and 1.5L. In addition, it is also equipped with the same Dual Variable Valve Timing technology with Intelligent (Dual VVT-i) technology as the newest Avanza engine. However, the engine immersed in Veloz is more brutal because the maximum power emitted by the latest Avanza Veloz can reach 96.5 Ps at 6000 rpm, more than an avanza. In addition, the torque is also higher, reaching 12.3 nm at 4200 rpm. Toyota has also loaded EFI or injection technology into this Toyota New Veloz engine to increase fuel efficiency of this car. Overall, it is a Toyota Veloz, despite having very high power but still an efficient fuel consumption. This Toyota car is also suitable for Carmudian who want a family MPV car with engine performance owned by a sports car. The exterior of the Toyota Veloz 2020 As you know, Toyota has really separated the Toyota New Veloz from its twin, the Toyota Avanza. It is also clearly visible on the outside of the Toyota New Veloz. If the exterior design on the latest generation of Avanza looks more attractive with an elegant feel, then Toyota New Veloz has a more aggressive body design with a sports aura, which is also very noticeable. On the front of the fascia, the Toyota Avanza Veloz has a more distinctive face with a new headlight projector design. On the other hand, the twin car Avanza also has a new design that looks stylish and can make its users more confident. The face of the Toyota New Veloz really looks more masculine thanks to the fastened dark color of grill combined with chrome accents on the top of the grill. Not only that at the lower end, Toyota equipped this Toyota New Veloz with two fog lights or a round fog lamp. While on the side of the car, this Veloz uses almost the same design concept as the latest generation Of Avanza, just no body casting. At the stern, this Toyota exit car has been fastened by smoothing panels that are also similar to the latest avanza. For the lamp part, the Toyota New Veloz still carries the same design concept as the Toyota New Avanza lamp. The difference is observed only in the reflector section, built into the rear of the car, which is neatly located on the lower end of the car body. In addition, the design of the car is also sweetened with spoiler accents, as well as stop lamps or brake lights Although it has a more stylish and sporty design, the design of the Toyota Veloz is still inferior to the Mitsubishi Xpander, which is one of its competitors. Because, The Mitsubishi Xpander has a more modern exterior design and already uses LED and DRL lights. However, this deficit is not a problem as long as Toyota's flagship car remains easy to drive and has more silent cab space compared to its competitors. The interior of the Toyota Veloz 2020 On the inside, the interior sector of this car becomes an interesting topic of discussion. In the steering room, Toyota has designed the cabin with a modern and elegant design concept. For this Toyota New Veloz, it has a dashboard theme with dark accents. This is in line with Toyota's design style, which carries the theme of the all-new black-tone dashboard design panel. The dashboard design at the latest Veloz also features a luxurious and stylish aura, as well as being sporty, looking at the overall car dashboard. This section of the Toyota Veloz dashboard has also been built into the Advanced Audio System, which features a 6.1-inch touchscreen or touchscreen and features CDs, DVDs, AM/FM, USB, AUX, Bluetooth and iPod slots. The steering room also has an ergonomic view of the circumference steering wheel, which has been wrapped in high-quality leather. In its own passenger cabin, the interior of the bike is not much different from the last Avanza. On the other hand, the passenger space of this car is still large in size and is equipped with upholor with a level of comfort that can be arranged in this way by the user. On each door of the Toyota New Veloz, it has also been equipped with a Power Window Panel Design that can provide convenience for passengers of this car when looking to adjust the position of the car window glass. Overall, the latest Toyota Avanza Veloz has an interior design similar to the latest generation Toyota Avanza, but there is little difference in the steering room. Features Toyota Veloz 2020 In the latest segment, Carmoudi will discuss more details about the parts functions that Toyota New Veloz has. Overall, the features built into Toyota's flagship car are still the same as that of its twin, the Toyota Avanza, including its safety and safety. For entertainment or comfort, Toyota has equipped the latest Toyota Avanza Veloz with a new audio entertainment feature that can provide entertainment for drivers and passengers while traveling on long-distance trips. In addition, the second row of the Toyota Veloz seat already features One Touch Tumble, such as features built into the latest Toyota Avanza. This feature is useful for the hardened Sit. Seats in the third row can also be folded if they hold a large number of goods. Meanwhile, for rear passenger access you can see the second seat row very easily thanks to the built-in one-touch drop feature on the side. On the other hand, the Toyota New Veloz relies on The Cabin zuitness technology, which can enhance the silence in the interior of the car, as well as ensure passengers are not distracted by the noise outside the car. In addition, there is also a jamming feature in the interior of the car that makes the Carmudian feel very comfortable because he does not hear the noise around it. To ensure the safety of the latest generation Toyota Avanza Veloz is equipped with a 3-point seat belt for passengers sitting on the seat of the second row. In addition, Toyota has also installed seat belts with Pretensioner and Force Limiter features that can protect the driver and passengers of the car from fatal injuries in the event of an accident or a violent collision. Not only that, there is also the SRS airbag feature as a mandatory safety feature in every car to ensure the safety of passengers and drivers who are in that car. On the other hand, this Toyota Avanza Veloz has been pressed to the front of the passenger seatbelt warning feature, which will give you a notification if the driver is not yet wearing a seat belt. The car has also been equipped with iOPIX fittings that are useful for installing children's seats easily. With this function, the child seat can be fitted firmly and safely. This has been proven in the safety tests that toyota conducted. Toyota.
