Features: Table cast aluminum body coBernzomatic ST200T Micro Bhutan Torch. DANGER This torch is used with a flammable product. Failure to comply with these warnings and instructions may result in an explosion or fire that may cause property damage, serious injury or death. Read and follow the instructions and warnings in this guide and familiarize yourself with the torch before lighting and use. View instructions and warnings from time to time to maintain awareness. Don't try to work before reading the instructions. EXTREMELY FLAMMABLE. CONTENT UNDER PRESSURE. Take precautions not to heat the fuel tank. Contains flammable gas under pressure. Do not expose the torch or fuel to temperatures exceeding 120 degrees Fahrenheit or prolonged sunlight. Never use a torch in vapors, liquids or explosives. Never pierce the fuel tank or expose the fire to the torch. Do not inhale gas, vapors, vapors or spray. If inhaled, remove the victim for fresh air. - Avoid contact with or skin. If you have eye contact, immediately rinse with plenty of water and seek medical attention. For contact with the skin, flush with plenty of water. Don't change the torch in any way. Don't change the factory settings. Serious injury or death may be the result of adjustments to factory settings or changes in factory parts. Always use the spare parts recommended by the manufacturer. Read and understand the instructions on refueling before refueling the torch. Incorrect refueling of the torch can lead to serious injury or death. WARNING - The materials used in the construction of this device may contain brass (which may contain lead and cadmium), and the solder presented here contains lead, chemicals known to the state of California that cause birth defects or other reproductive harm. - In addition to the combustion products produced using this device, contain chemicals known to the State of California that cause cancer, birth defects or other reproductive damage. When used for soldering and similar applications, this product contains or produces chemicals known in the state of California to cause cancer and birth defects or other reproductive harm. Keep the torch out of reach of children and those who have not read the instructions. Do not point the torch at the face, other persons or flammable objects. Never try to use a torch as a lighter - Always wear eye protection and gloves when lighting and using a torch. To avoid the risk of damage to the torch, always protect the torch from impact and never let the torch fall to the floor or hard surfaces. Never use a torch that appears to be damaged. Heating the surface can cause heat to be carried out on adjacent surfaces that can be combustible or under pressure when heated. Always check to make sure that unintended parts or materials are heated. Do not use a leaking, damaged or malfunctioning torch. If the torch is leaking, contact the manufacturer or retailer. Work only in well-ventilated rooms. Avoid fumes from streams, lead paint and all metal heating operations. Be careful to avoid the fumes from the cadmium coating and galvanized metal- remove these coatings in an area that will be heated by feeding or grinding before heating. Light the torch from your face, hands, clothing, or other flammable materials. Extremely hot air runs out of the exhaust ports on the assembly of solders. Always rest the torch on the booth comes, even during short breaks to avoid the risk of damage to work surfaces or other flammable items. Extinguish the torch during longer Never point exhaust ports at the eyes, face, hands or other flammable objects.
