Get the benefits of traditional Telium applications in this new generation of smart terminals Make NFC payments with simplicity, efficiency and security Ensure the use of terminals from network failures or power outages Absolute Security Move/2500 pci-PTS 4.x is certified by the Telium TETRA operating system, which uses the most advanced, future and unlimited cryptography schemes in the size of security keys. All Move/2500 payment options allow you to use NFC, electronic wallets, EMV Chip-PIN, magnetic stripe and contactless technology. Designed for mobility, designed for indoor and outdoor use, this compact terminal offers a long battery life. Move/2500 is the perfect companion for retailers in all sectors. Guaranteed connectivity In one Move/2500 terminal offers full wireless connectivity in standard (3G, GPRS, Dual Sim). If you have network problems, you can have a backup cable connection (Ethernet / Modem). The built-in NFC The Move/2500 allows contactless transactions, providing users with a simple and secure experience, a dedicated reader and a fast flow for transactions. Based on 30 years of Ingenico's experience in designing solutions and with an easy-to-use interface, Telium TETRA includes the best security features to protect transaction privacy and promotes access to Ingenico's unique portfolio of payment applications. Eco-design Ingenico Group adopts an environmentally-active policy of designing its products. From conception to manufacturing, from start-up to recycling, we work to minimize the environmental impact throughout the lifecycle of Ingenico equipment.
