There are two options for connecting in Camlytics smart camera software for Windows PC to log in and view D3D IP cameras. It's an automatic opening (you'll see your camera in our software) and manual opening (without a webcam website). If you can't find a D3d CCTV camera in the left section or it doesn't work with the Camlytics software app, click the Guide button in the Discovery section to set up a D3d camera with a direct RTSP or http stream URL. D3D compatible software You can connect D3d to Camlytics to add the following video analytics capabilities to your camera: people counter customer oncoming car and counting vehicles calculate the occupancy rate of the retail store traffic counter detection - alert tailgating security Protocol Route Port 8810 http:// tmpfs/auto.jpg 80 8862 http:// tmpfs/auto.jpg 80 D6022Y http:// snapshot.cgi?user=USERNAME-pwd'80 D8801 http:// tmpfs/auto.jpg 80 D8810 http:// snap.jpg? If the FFmpeg option is available, we recommend you try that first as it will often be faster and include audio support. You can also try the VLC plugin if the FFmpeg option doesn't work. The settings for D3d cameras are built right into our free surveillance software - click Add, then an IP camera with a master to automatically customize the D3D camera. Don't forget to also try to connect through the ONF as D3d cameras can support ONF connections as well. Start typing in the Make box to find the camera. If your camera isn't listed, click The Get the Last List in settings or when to add a master camera. If you need to change the URL, add or edit the D3d camera, and you can change the type of connection and URL in the video source dialog (the button at the top of the first tab).
