Read More: Check in with Fresno Unified School District District we hope that we have provided enough information about the account login process. We hope that you have a nice time logging into your account. Reference:[www.philasd.org](http://www.philasd.org) Not sure where to start? Here are some common questions about who has a G Suite account, how to access them, and where to get more help. Just click on the question to find the answer. What is an educational g suite? G Suite for Education is an online tool pack provided by Google for free to districts of K-12 schools. It offers web-based versions of productivity, learning and collaboration programs, allowing students and teachers to collaborate in learning. What browser should I use to access my G Suite account? You can use any internet browser to access your G Suite account: Safari, Firefox, Chrome, Microsoft Edge. For the best experience, we recommend using Google Chrome. On Chromebooks, the Chrome browser is the only option. Is the district completely switched to G Suite? No, not now. District employees can choose to use Google Gmail and Calendar or Zimbra to receive their [@philasd.org](mailto:@philasd.org) email messages and manage their calendar. But can employees also use other features of G Suite (docs, sheets, slides, classroom) without having to use Gmail.Do google classroom (or drive, docs, sheets, etc.)? No, you don't have to use Gmail to access other G Suite devices. G Suite devices work independently. You can use Zimbra to send and receive emails and continue to use other G Suite devices. We recommend that you use Google Calendar as your primary calendar if you're using Gmail because they work best together. How do I switch from Zimbra to Gmail [philasd.org](mailto:philasd.org) @mail? District staff [philasd.org](mailto:philasd.org) @100 email address will also have a G Suite account. Staff can change the location where new messages are delivered once a day. Sign in to the PhilaSD portalIn the upper-right section of the app menu, click AccountClick on Email Settings. The existing e-mail stays where it was delivered. It keeps both mailboxes, so you can always re-connect to old messages. Does G Suite affect the parent's access to the Parent & Family portal? No, there is no connection between G Suite and Parent & Family Portal. What about data mining? Is there any concern about student privacy? G Suite complies with federal data protection laws such as CIPA and FERPA. Furthermore, the district has signed an agreement with Google to further ensure student privacy. A g suite ads and continue to block them. To learn more about the district's commitment to protecting student privacy, visit [can I change my G Suite account's preferred language?](http://can I change my G Suite account's preferred language?) Open the Account. You may need to log in. Click Data and Personalization. Scroll down to general settings in the web panel. Click Language. Select Edit. Select the language you want from the drop-down list, and then click Select. After you change the language settings, close and reopen the browser. For more information, visit: the District employee - what is my G Suite username and password? All school district employees will automatically receive G Suite for their Education account. The username will be the e-mail address [philasd.org](mailto:philasd.org) District [@philasd.org](mailto:@philasd.org), and the password will be the same as the PhilaSD Portal password. I'm a district employee - how do I change my G Suite password? All passwords are synchronized from the PhilaSD portal. So when you try to change your password from your G Suite account, you'll be redirected to the PhilaSD portal. The new password then applies to all systems. I'm a district employee - how do I reset my G Suite password? All passwords are synchronized from the PhilaSD portal. So to reset your G Suite password, and click Forgot your password? Answer your security questions and reset your password. If you don't remember your questions or still need help, contact IT HelpDesk at (215) 400-5555, or email [helpdesk@philasd.org](mailto:helpdesk@philasd.org).Do all students have G Suite accounts? Any student who attends a district-managed public school or program will automatically receive a G Suite account. Charter students are not eligible for a G Suite account. What are my students' G Suite usernames and passwords? Students' usernames will be their area student ID number ([philasd.org](mailto:philasd.org)) and their passwords will match those of the PhilaSD Portal. What happens to a student's account after they withdrew or qualified? Students' G Suite accounts are retained for 2 years after withdrawal or graduation. Students can use Google Takeout to archive their account information. To create an archive, students need to go to Google G Suite through any web browser, and web addresses are in the form of [service.google.com](http://service.google.com), such as [classroom.google.com](http://classroom.google.com) or [drive.google.com](http://drive.google.com). Or just browse your browser and click on the appropriate [google.com](http://google.com) link to login. All Google G Suite apps use these icons to navigate and access settings:Waffle icon (or 9 Dot)Click this icon in most Google Apps apps and open a menu for other Google Apps in your account. Stack icon (or this icon in most Google Apps to open menus for other features of the current app. Gear icon (or Cog)Click this icon in most Googles to reveal settings and other options for the App. Can we use other Google Apps with our District G Suite account? Only approved Google Apps and services can be used with your G Suite account. For a complete list of supported Google Apps apps, see the website's Google Apps page. Can we use third-party apps from the Chrome Web Store or google play store? Third-party apps in the Chrome Web Store and Google Play Store are not owned, created, or supported by Google - We can't guarantee that they will work, and if they don't, we won't be able to support them. But before you use any third-party apps, please visit [apps must go through the approval process. Can I use ChromeCast or Multi-Cast?](http://apps must go through the approval process. Can I use ChromeCast or Multi-Cast?) Many schools and offices have inquired about adding certain tools to the School District network for streaming or broadcasting media. Many of these devices use technology known as Multicast to broadcast media to many other computers at the same time. Multicasting is great for personal home networks, but it's easy to oversize enterprise networks, especially where WiFi is heavily used. In addition, anyone can easily take control of these devices without using passwords because they are designed for an unsecured network. As a result, in order to provide reliable and secure Internet access to all users, multicasting is not supported on the district's wireless or wired networks. The following products are not supported and cannot be used on the School District network: Apple TVGoogle ChromeCastGoogle Expeditions \*\*Roku Media PlayerAmazon FireTVSmartTVGoogle HomeAlexaNetflix \*\* The Office of Information Technology is currently working on a way to support the Googles product on the district network. Please see additional information before purchasing Google Expeditions hardware. Where can I find professional development in G Suite? The Technology Integration Specialist (TIS) is working with you to provide PD to staff at the school. Staff can also choose to attend PD sessions that the Office of Educational Technology provides in progress throughout the year. Check out the Resources page for Slides from previous PD Sessions. Seat.
