One of the things we've heard from people who come here to buy Runescape Mobile Gold is how they hate having to charge their teleportable seeds! Well with Attuned Crystal Teleport Seed, you can not only teleport to more places, you never have to worry about charging again! Get Crystal Teleport seeds The first thing you need to do is get regular crystalline teleportation seeds. You do this by driving to the elven village of Liethia. This is where you kill the Elf Warriors. Just keep killing them until one of them drops you crystalline teleportation speed. If you use range or magic, you get to do it very quickly. Teleport for Prifddinas Once you get the crystal teleport seed from one of the fallen elf warriors, you can head back to Prifddinas. Here now you can go about creating your own customized crystalline seed teleport. Now in order to do this, you need 4000 Harmonic Dust! Yes, it will take ages to get, but it's worth doing. It's worth noting that you have to be level 85 kuznuz in order to do this as well, but you get a ton of Xernet's XP when you make your crystal-tuned teleportation seed. It's well worth doing as you no longer have to keep an horde of crystal seed teleportation, you just need it! We think it's well worth doing, even if it can take a long time to get all the harmonic dust you need. Let us know if you have a tuned clean teleport seed and be sure to check out our special offers that make us the best place to buy RS mobile gold online! Online!
