Axis Proven Video Management System Optimized for Network Video Products Fast System Setting and Intuitive Operation Effective Research and High Definition Identification in up to 4K Ultra HD Extensive AXIS Camera Station Support Organization is a video management software specifically designed for small and medium-sized installations. Retail stores, hotels, schools and the manufacturing industry are just some of the companies that have full control and protection of their premises and can quickly take care of incidents. All in order to make the enterprises work more smoothly. Axis Camera Station meets our other online video products and features to offer you a complete, flexible, secure and reliable system. Axis Camera Station is powerful and easy to use with an intuitive interface, so that everyone can manage the system, handle incidents and quickly export high-definition evidence. With AXIS camera station you can do more than control you camera. It's easy to add features such as network speakers to communicate with personnel and deter intruders, network video door stations for audiovisual identification and remote input control, video analyzers to improve operator efficiency and radar to monitor intruders. The Axis camera station is being upgraded with new features all the time to better protect your premises and make your life easier. Privacy protection tools are the main functions of software to manage the video. Sometimes you may need to disguise objects and innocent bystanders in the video to comply with the rules. Using video editorial in AXIS AXIS Station you can easily clear the video when exported. With AXIS Live Privacy Shield, you can monitor live activities without collecting any personal data. The Axis Mobile viewing app allows users to keep up with events from the surveillance site even from other places. It offers easy access to multiple systems and other features, such as a live view with selected streaming profiles, a visualization of a timeline of recorded events, and real-time viewing and playback. AXIS network video recorders are pre-loaded with all the necessary software, including licenses, and pre-installed to minimize installation time. In the completed cameras from a wide portfolio of Axis products and monitors, they form a plug-in and gaming solution for mid-installations up to 64 channels. Tv. axis camera station 5 user manual
