Japanese automaker that produces cars, SUVs, minibuses, buses, trucks. The company is headquartered in Tokyo. The history of Mitsubishi dates back to 1970, when a large industrial group Mitsubishi Heavy Industries turned around and became an independent company avostroitelnaya Mitsubishi Motors Corporation. The first cars were produced by the engineering post office of the shipping company Mitsubishi Mail Steamship Company, founded in 1873 by Japanese businessman Yataro Iwasaki. The Mitsubishi Model-A was on the line for four years (from 1917 to 1921), after which the company refused to produce passenger cars due to very low demand. Production has changed the production of buses and trucks. Since 1960, Japan has seen rapid economic growth, and demand for cars has increased significantly, and Mitsubishi is beginning to design and build a passenger car. The company's first post-war car was a small car for the mass market Mitsubishi 500, gained great popularity because of its low cost and reliability. In 1961-65, the Mitsubishi 360 was produced consecutively, the first four-seater Minica mini-car, followed by the passenger Colt model 600, Debonair and Colt Model 800. They were more than comfortable family cars. In 1969, the Colt Galant was presented, which incorporated all the most advanced achievements in the field of art and design. In the same year, the Colt F2-C won the JAF Formula Car Grand Prix. Thus, in the 1960s in Japan there were models, which later became the founders of popular families - Colt and Galant. The world learned about the Mitsubishi car brand in the early 1970s, when the company released the Galant and Lancer model and entered the international market with them. Mitsubishi has significantly increased its distribution network, and Mitsubishi cars are increasingly on the roads around the world. Mitsubishi Galant has been available to Mitsubishi Motors since 1969. Nine different generations of this model have been created, with total sales now exceeding five million vehicles. The model started as a compact sedan, but eventually became a mid-size car. Since 1994, cars assembled at the factory Illinois, sold in the U.S. market. Originally the Mitsubishi Galant was one of the modifications of the Colt model, and was a small car of the classic configuration configuration The 1.5-liter engine and dependent spring rear suspension. The first generation Mitsubishi Lancer (A70) was first released in February 1973. In North America, this car is called Dodge Colt, and in Europe - Colt Lancer. The first Lancer had three body types: a two-door sedan, a five-door and a four-door wagon. Engines in different incarnations of different volumes: 1.2 liters, 1.4 liters and 1.6 liters. The Mitsubishi Lancer GSR 1600 has successfully competed in many sporting events, winning the Safari Rally twice and the Southern Cross Rally four times. In 1975, the Lancer range was supplemented with a compartment called the Mitsubishi Lancer Celeste. In 1978, Mitsubishi launched the second generation Mitsubishi Colt, a compact city car mainly in the back of the hatchback. The first generation, introduced in 1962 as a two-door sedan Mitsubishi Colt 600, had a classic layout, but in 1978 changed front-wheel drive, all-wheel drive and later added modifications. Mitsubishi Colt cars with a four-cylinder engine with a volume of 1.5 liters and 81 hp (60 kV). Under the brand Mitsubishi Colt in different years produced sedans, station wagons, fastback, however, the main body is still hatchback. In 1979, the Mitsubishi Colt 1400 GLX won the Car of the Year award in the mid-range car class. In 1979, the first generation was replaced by a new Mitsubishi Lanser, and the next, 1980, Mitsubishi enters the market with a four-wheel-drive SUV model Mitsubishi L 200 4WD. The modern model (2006) is implemented in a number of countries under the name Mitsubishi Triton. Executed in versions with a two-door, two-door and four-door five-seater cabin with four seats (Double Cab). Depending on the configuration, it can be equipped with air conditioning, sound system, automatic or manual transmission, all-wheel drive Easy Select, or Super Select, electronic rear differential lock, ESP stability control. The first went on sale a short three-door version with gasoline (2.6 liters) and diesel (2.3 liters) engines. In June 1984, Pajero was finalized. Diesel engines with turbocharged became an even more powerful model with a longer wheelbase, got disc brakes on all wheels as standard equipment. In January 1983, just a year after the start of production, Pajero entered the world of motorsport. Pajero cars won several prizes at the Paris-Dakar Rally, including the Team Cup. In Russia, this SUV is better known for the modifications of 1991 and 2000 (five-door version). Pajero has been awarded many prizes in many countries around the world. In 1986, Pajero named the SUV of the Year in (UK What a car). Since 1983, Mitsubishi cars have been equipped with electronic electronic system, and in the same year, the release of the universal Spase Wagon was launched. In 1984, Mitsubishi became the official supplier of cars for the Sarajevo Olympics, and in 1987 for the Universiade in zagreb. 1988 - New model Colt and Lancer win the race in Germany. The Galant VR-4 was voted The Japanese Car of the Year in 1987-88. The 1980s were the decade of Mitsubishi's global expansion into global markets. In addition, various assembly plants outside Japan have been established in this decade, including a joint venture with Chrysler Corporation in Bloomington, USA. Mitsubishi Diamante (Sigma) car from the line in 1989. Produces a type of body sedan and wagon, and since the release of the car is positioned as belonging to business class. Manufactured for markets in different countries, including domestic markets. The Mitsubishi Eclipse is a four-seater (2 and 2) sports car with a coupe and convertible. Available since 1989, and only in the LHD version. Named after an 18th century English horse, winning 26 races. In the United States, the same was sold under the names Eagle Talon and Plymouth Laser. The car is powered by a Mitsubishi 6G75 (3.8 litre) engine, allowing the car to accelerate to 100 km/h in 6.2 seconds. and reach speeds of 200 km/h (electronically limited). The GT Mitsubishi 3000GT sports car was produced from 1990 to 2000. In Japan's domestic market, it was known as the Mitsubishi GTO. For North America, the car was going to Chrysler Corporation called Dodge Stealth. This Mitsubishi car company has used its most advanced technologies, such as all-wheel drive, active aerodynamics with automatic front and rear spoilers and electronic control suspension (ECS). The car was powered by a 164 kW (223 hp) DOHC 24V 6 engine at 6,000 rpm. The Mitsubishi 3000GT comes in two body styles - a two-door coupe and a convertible. In 1991, it began production of the second generation Mitsubishi Pajero II, it first appeared in the Super Select 4WD transmission, which made it possible to switch to all-wheel drive on dry coating with the presence of a center differential. Two engines - petrol (3.0 liters) and diesel (2.5 liters) were installed. The five-door version has a third row of seats, and the body with a soft roof got the drive. In the second generation there was equipment with adjustable shock absorbers of the interior of the car, as well as a hydraulic system changes clearance. The Mitsubishi Pajero II was produced until 1999, and in 2000 these cars replaced the third generation of the very popular SUV. In 1998, the production version went to rally-raids (with moldings) and the road version pajero - Pajero Evolution engine with a capacity of 3.5 hp MIVEC (variable valve time), power - 288 hp. In March 1995, it Mitsubishi Lancer VIII (eighth generation). From the available body was only a sedan, coupe, and even offered in some markets. The standard equipment was the driver's airbag, passenger airbag and offered for a fee. In Europe, the eighth Lancer is forced to compete with the slightly larger Mitsubishi Carisma sedan (a joint model of Mitsubishi and for sale), which was established at the plant in the Netherlands in the same year. European buyers were offered two petrol engines with a volume of 1.3 and 1.6 liters. In the same 1995, a representative of the Lancer sports options series, Mitsubishi Lancer Evolution III, was released. All these improvements have allowed Evolution III to achieve great success at the World Rally Championship. In 1996, Tommy Myakinen became the WRC champion at the wheel of Evolution III, while Mitsubishi secured second place in the constructors' championship. In August 1996, the eighth-generation Gallant was launched, characterised by predatory, sporty design. The appearance and direction of the contours of the body parts have earned the models the nickname Shark. He offered in a sedan and a station wagon. In Japan, the station wagon was sold under the brand name Mitsubishi Legnum. The revamped Mitsubishi Galant VIII again won in Japan 1996-1997, the title of car of the year. The VR-4 version is powered by a 2.5-liter V6 engine with two turbochargers developing 280 hp. Since 1998, Galante has been equipped with engines with direct injection of GDI gasoline. The sports Mitsubishi Lancer was re-modernized in 1999. The revamped Mitsubishi Lancer Evolution VI changed the body size of fog lights, the cooling system (there was a large oil cooler) and the piston of the engine group, as well as other vehicle mechanisms. As a result, engine power increased to 330 hp (246 kW), allowing Finnish rally driver Tommy Myakinen to win four WRC racing championships from Mitsubishi. The sixth-generation Mitsubishi Colt offers a 1.1-, 1.3- and 1.5-liter gasoline engine in various markets. These engines are manufactured at the MDC Power plant (Germany), owned by DaimlerChrysler Corporation. In addition, some countries have commercially available versions of the diesel engine. The most common version of the modern Mitsubishi Colt on the European market is a car with a 1.3-liter 95-horsepower 16-valve gasoline engine. The transmission is a 5-speed or robotic 6-speed (designed by Getrag). The all-wheel-drive modification exists on the Japanese market. Also in the new century began production of the mid-size crossover Mitsubishi Outlander, which in 2005 Modern look. Outlander Outlander means a journey to distant uncharted lands in search of adventure. The second-generation Mitsubishi Outlander platform, based on the new GS, had several engines not only from Mitsubishi, but also from Volkswagen and PSA Peugeot Citroen. Citroen C-Crosser and Peugeot 4007 cars are rebезднrovannymi versions of the Mitsubishi Outlander (brand replacement). Of the iconic Mitsubishi cars created in the new century, it is worth noting the Mitsubishi Grandis minivan, made in 6- and 7-seat versions. On December 28, 2007, Mitsubishi Motors signed an agreement on the terms of industrial assembly of cars in Russia. In 2010, production began at the plant, which was built near Kaluga in collaboration with Mitsubishi Motors and the French PSA Peugeot Citroen. By the fall of 2010, the company had produced models such as the Citroen C4, the Mitsubishi Outlander crossover and its equivalent, the Citroen C-Crosser. In the early years of the new millennium (2002) the production of the current sixth-generation Mitsubishi Colt hatchback began, which is taking place in the Netherlands and Japan. The Mitsubishi Colt V1 belongs to the B-segment of the European classification and has a large five-seater cabin height. The standard hatchback trunk is 220 litres (VDA standard) when the rear seat space is extended to 315 litres and with a full, removed second row of luggage compartment seats up to 645 litres. Liters.
