The Services and License Agreement between Actamad Corporation and United Health Care Corporation (Actamaad) and the United Health Care Corporation (YOK), each of the self-managed projects and has given its written permission (as explained). I am in the business of providing electronic data interchange products and services to the a. A. Accounted health care industry. B. Yohke, for himself and by its affiliates (including the metro companies), Inc.) And other organizations that can obtain The Uhek, and a harito exhibit by health rehabilitation organizations, organized by The Uhek or an affiliate, and who have restricted their consent by this agreement (which is planned by their consent)., the following conditions and regulations are set to the following, some software and content and a desire to access the network. Therefore, it now includes their premises and mutual promises with it: the parties are as follows. 1. Definitions. 1.1 Attachment means a party, an organization directly or non-permanently controlled, directly or non-regulated. 50, the right to vote for directors or other governing authority, the right to vote for all voting power (or other security or rights) of the share. As an effective date or end during the period, the institution will be considered to be adjacent to The Yohk. 1.2 The Meaning of The U.S. is that the computer program, commonly known as the Universe, and which runs the Yohke health care claims for justice and other business functions. The Secret Treatment 1.3 addition means that the changes or additions to applications and documents to improve existing functions, add new functions, or improve performance through changes in system design or coding. 1.4 Functions mean that users work to exchange information within the network. 1.5 Licensed content means network software, software, software or networks that are associated with this agreement. All updates and new versions of such content are also included in the definition of licensed content. 1.6 Network means electronic data interchange (EDI) system and Operation by actamad, which includes network software and network for it, regardless of the name under which it is marketed The term network specifically excludes a telecommunication network software means that the personal computer versions of the Program of The Advanced And Acthe Black Presentation and Network Software means that the personal computer versions of the Program of The Advanced And Acthe Black Presentation and Network Software means that the personal computer versions of the Program of The Advanced And Acthe Black Presentation and Network Software means that the personal computer versions of the Program of The Advanced And Acthe Black Presentation and Network Software means that the personal computer versions of the Program of The Advanced And Acthe Black Presentation and Network Software means that the personal computer versions of the Program of The Advanced And Acthe Black Presentation and Network Software means that the personal computer versions of the Program of The Advanced And Acthe Black Presentation and Network Software means that the personal computer versions of the Program of The Advanced And Acthe Black Presentation and Network Software means that the personal computer versions of the Program of The Advanced And Acthe Black Presentation and Network Software means that the personal computer versions of the Program of The Advanced And Acthe Black Presentation and Network Software means the Program of The Advanced And Acthe Black Presentation and Network Software means the Program of The Advanced And Acthe Black Presentation and Network Software means the Program of The Advanced And Acthe Black Presentation and Network Software means the Program of The Advanced And Acthe Black Presentation and Network Software means the Program of The Advanced And Acthe Black Presentation and Network Software means the Program of The Advanced And Acthe Black Presentation and Network Software means the Program of The Advanced And Acthe Black Presentation and Network Pres welcome their information 1.8 Provider means providing health care services, which is not Ayuk, works by The U.S., or by The U.S., or by The U.S. 1.9 The Account grant is entitled to use non-exclusive, non-transferable material, which is designated on Exhibit B to reproduce and modify those of licensed content, and to access and use network services, the internal use of the Yohk or any Yohk attachment; And (b) third-party buyers from The U.S. Products and/or Services, including administrative services, as well as The Health Care Service provider of The New H.H. Health Planning Services, Inc. (Nihips) and its subsidiaries and/or affiliates of The U.S. and the United States, as per the agreement of the already modified Administrative Services Agreement, September 1, 1994, as From time to time, access to the network will be on the same operational basis that the network offers to other customers of the network, except that the agreement is otherwise provided. 2 2.2 will submit all permitted changes to the Yohk which makes the content licensed for the agreement is otherwise provided. 2 2.2 will submit all permitted changes to the Yohk which makes the content licensed for the agreement is otherwise provided. 2 2.2 will submit all permitted changes to the Yohk which makes the content licensed for the agreement is otherwise provided. 2 2.2 will submit all permitted changes to the Yohk which makes the content licensed for the agreement is otherwise provided. proposed by The Ukamad, the amendment will be approved. The licensed content copies will be re-presented to the Yuk, including copyright notices or provisions displayed on the original copy. All copies of licensed material made by The Ehoke can only be used as permitted under this agreement. At any time within ten days after the written request of the account, The Yohk will inform the number and location of all copies of the licensed material. 2.3 Yohk has the right to install network. The data will install network software on the sites provided or provide the network and connect them to the network when agreed by the parties. yohk The GOVERNMENT will agree to the installation procedures developed by The Uhawk or other mutually viable installation mechanisms (in any agreements between the Uktamand and the U.S. Health Plan, such as The U.K. Health Plan, for such sites. The Ehoq will not be banned by the Actamad under Paragraph 12.1 for paying monthly site fees or transaction fees to any provider connected to the network, unless Yohk has agreed to be responsible for such providers and fees. 2.4 Any development work on licensed material or network that was in progress at the date of this agreement will be provided to The U.K. on completion and will be included within the definition of licensed material, if the C attached to this agreement is set on display. 2.5 Yohk will not act as a clarion for health care claims, required by any New HOK client other than The U.S., such as UBS incorrectly claims over railway retirement claims and medical cross-overs. 2.6 If The U.S. and the United States agree that The U.S. and The Actamad s take into account the terms and conditions of such use and practice. 2.7 Otherthan otherwise this agreement is provided, as the account provides a licensed material to be on-the-go, where the base is. The act is not explicitly limited to any warranty, express or material related to licensed materials, including, but for any particular purpose or use, title, non-infringement, and fitness. 2.8 Otherthan is provided in this agreement, and the Yohuk shall not reproduce, modify, or quote any copy of the licensed material for any purpose? (b) There is no party to this agreement which is distributed to any person or organization that has access to licensed content or networks, republic, share, transfer or lease, or For, to provide. Or (j) try to retrieve the engineer or otherwise get copies of the source code for licensed content. 2.9 Yohk acknowledges that licensed materials may include embedded run-time modules of products licensed by the Actamad, Inc., and, according to it, as a third party of interest in this agreement, this agreement is directly linked to the agreement. In addition, Yohke agrees that an accredited independent accounting firm will have the right to directly manage Sybase, during normal business hours, to verify copies (a) of licensed content used by The agreement is followed by the agreement of the Yohk. Representatives Audit firms will protect the privacy of The Privacy information of The U.S. and comply with the appropriate security rules and regulations of The Yohk during the yuk's cover. 2.10 The Accounted agrees that the account does not own and cannot distribute or publish any data that is transferred to or beyond the network, to such an extent, starting with the data. Above, the data transferred to the network for the purpose of such data will be collectors will set targets for the number and size of the providers. This number will be assessed for any amount of business for the account, and will not be guaranteed. The YOHC will not reduce this information at any time, and will respond to additional requests for information within 30 days of the request. The parties will agree to any other information or data that may be given to the account under this agreement. 3.2 The account, which will appoint a representative dedicated to a Yohk account, which will be the decision-making ability for the account. This person will attend planning meetings with Yohk, keep updating on national trends in EDI, and consult With Yohke about the software and network strategy of the account. The actamad will provide a representative to WEDI and ANSI to represent The Yohk at the request of the U.S. The Yohk will also nominate a representative to work with The Actamad and to connect The Activities of The Ehog with The Actamad, which will be the decision-making ability for The Uhawk. This person will attend planning meetings with The Actamad, to update the technical progress with respect to the account, and to connect the activities of TheUk with the Actamad. J.R. Hughes will be the initial representative for the Actamad, to update the technical progress with respect to the account, and to connect the account, and the account the accou changing its nominee. 4 3.3 D exhibition report for this agreement explains that the account will submit the e-mail for its input and will present a comprehensive disaster recovery plan and documents within 90 days after the date of the agreement. The plan will be annually planned and time constraints will be annually planned and time constraints will be agreed upon, which will be expected to be fully restored. The account will accept comments from The U.K. and will make reasonable business efforts to include such comments in the context of the network. The actamad will use its best efforts to set up a hot site under the disaster recovery plan. A year after the date of this agreement at a Yohke data center. The Account makes substantial changes to its plan. The Accounted Will participate in the annual examination of the Yohk Disaster Recory Plan, with it up to 40 hours which is the purpose of the request from the account, the yuk will pay the agreed price. 3.5 Actamad will set up a user group, will provide advice on preferences and direction to coordinate on system steps, which will include representation from The U.S., providers and feedback about the network. The Account customer satisfaction survey will provide you copies of the e-mail and other similar information regarding the network usage on these sites for which Yohk is paying monthly site fees or any transaction fees. 3.6 Yohk is available to develop new sites for the use of the network by its sales and provider relations staff working with the unit, to the extent that employees work with The EDI services of York to develop new sites such as effective dates According to paragraph 12.2, Yohk will have the power to perform the account. In situations where The U.S. has not decided on such actions to be taken, The U.S. will continue to use health plan providers to install and implement networks for new and existing York-sponsored sites. The York will also continue to use the health plan to train the representatives of the Providerlink and provide the necessary technical support under Exhibit F and Section 8. According to the 3.7-account showcase program by The York, the network will provide a reasonable number of referral squestions and visits to customers and potential customers. permitted on the Yohk premiseunder under paragraph 3.7. 4. Account responsibilities, network product line. 4.1 Actamad, during the period of this agreement, will continue to maintain licensed content and networks, or other products, at least as the same functionality provided by the licensed content and the network, on an effective date 4.2 The Actamad will update licensed content and networks with other changes required in state or federal law and appropriate Ansi X12N standards, including parties to meet market expectations for EDI. The parties will agree on any additional criteria that will be needed to maintain the agreement. If the changes made by this paragraph apply to enough users of the account, the account, the account will make such changes as part of the network release or paragraph 8.2, which is licensed. Subject to Section 4.3, both parties will continue to work with practice management system vendors to develop interfaces between practice management programs and networks to be able to market networks to provide. Establishing relationships with The U.S. and working with process management systems vendors will help the unit in its efforts. 4.4 will work on The Request of The Yohk. 4.5 The Account will be responsible for noting to all providers, practice management vendors and other organizations that are signed into network agreements, inc. The Yohk shall have the right to review and approve the notice before the account to send any provider or other signature. 4.6 The Agreement is in according to the right to review and approve the notice before the account to send any provider or other signature. Agreement, for the benefit of the Yuk, including network software, a source code, objection code and technical documents will be listed as a license under the Escrow Agreement and uses the account of licensed materials and all operational computer software and documents that the network will be classified as a system under the Escrow Agreement, as effective as the date of the agreement, for non-exclusive use of the Accounted Yohek, to provide to The U.K., all operational computer software and documents of the account 6 5. Network related responsibilities of the U.K. 5.1 The Yohk will produce or receive transaction data in standard form and in such a form the protocol is set which is used as an effective date, or otherwise agreed by both parties. In case that such shape changes, the unit will provide the unit with standard production and test messages for the use of the e-mail, 5.2 Yoaque, its own costs, including all the necessary hardware, terminal devices, will provide consistent and appropriate for its communication with the network. The YAC will create the appropriate operating environment as Described in i Agreement. The operating environment of The Yohk will be verified with the testing methodology established by the Actamad Actamad will not have access to himself or any other yuk-owned system, and there will be no right to modify the computer code except that they have been agreed by the writing parties. No part of the account will be found, except that they have to be agreed upon by the writing parties. The network will provide claims and information to the universe, and is fully responsible for the operation of the Universe. 6.2 Yohk produces new releases four to five times a year. and other Yohk-hosted computer systems (including the host computer system, including the system hosting operations by third-party sources from The YOHC will give a notice of such changes and information about them, and if any modifications to the network or licensed content are required, the parties will agree on the scope of the plan. 6.3 If, at any time, the Uktamad agrees with The U.S. that any other proprietary Yohk software or system is required to access, the parties will only negotiate a limited license that permits such access to the uktamad for the benefit of the Yohk. 6.4 The Actamadagrees that The only and exclusive owner of The Yohk will be the owner and that in all changes, this code is owned by the Yohk or any other computer system. The Actamad agrees to assign and transfer the rights of the yok, including any copyright, patent, trademark, trade secrets and other intellectual property rights. The actamad will cooperate with The Uhg and will process the necessary documents by The Yok to claim or protect his property rights in such code. 7. New functionality development. 7.1 When the account creates new functionality for the network that normally offers 7 to its customers, which does not include a restoration release that will allow the account to be passed to its customers. 8.1 offers, [*] 7.2 When The Yohg specifically requests the development work from the Ekatemad, for their own use of the Yohk, the parties request work if the actamaad For other users, this particular task will be allowed to be used, and The Yohk pays the account for such work [*] that [*] and [*] 7.3 when the account performs the development work on the network at another customer's request, [*] to [*] in [*] for [*] 7.4 If at any time, Yohk chooses to enter into a contract for a leading services team from The Act to develop new functionality and promote network, licensed content, or other changes to The Yuk In which the systems are not covered under restoration, the account will provide a team dedicated to mutually acceptable conditions and conditions. 8. Responsibilities for restoration and support of the account. 8.1 Restoration number, the second is the level number, and the third number (if more than 1) is the construction number. For example, release 2.1.2 version 2.1.1 is a restore release for the account will provide new restoration, including, to no extent, the New York Times, 8.2 Price Will pay the account for the services of the account under paragraph 12.1 under this agreement does not include enhancement of existing functions, or system performance The additions include new versions of the account which are represented by three numbers, the first number of which is the number of the number, the second number, the second number, and the third number, and the third number is 1. For example, version of the network software available for The Yohk on payment according to paragraph 7.1, 8.3 Will provide free network care and support services to The Actamad, which is at least at the level of the Yohk, which will exceed the free network restoration and support [*] secret treatment requested that 8 Other customers for the Network. The actamad will also provide support and rehabilitation services to The Yohk, who are attached to the agreement. The Account ad network software will notify the yuk of any technical errors, and will use appropriate efforts to provide all support and rehabilitation services directly to providers that subscribe to the network and the network, as needed. There will be no responsibility to provide any support, training or care services to The Yohk, except for other Exhibit F attached to this agreement. To allow Yahoo to implement the new release of the network and licensed content will be maintained, at all times. Care services described in this agreement will be provided in Section 12 at any cost to the following fees to be excluded. 8.4 The Yohk inquiry and appeal will be handled by the unit within the frame of the specific time on The Exhibit F or by mutual consent, and with extreme customer attention in the mind. 8.5 Account ad to be maintained The standards of the network that will be linked to this agreement. 9. Discrimination. 9.1 The Yohks agree to use network to the recognized transactions and intends to provide the network to The Yohk. The Yohk will pay the contract for all such transactions according to paragraph 12.1. For 9.2 [*] of this agreement (otherwise permitted under this agreement), The Yohk also agreed that it will not create interfaces for any third party, or to provide any third party with access to any other host computer under The Control of The Network, which is competing with the network, which is competing with the network. For the duration of this agreement 9.3 [*] will not provided to the same functionality as the [*] network by third-party providers, however, that the services like the Yohk Network will not be provided to the store However, before automatic or optional renewal of any such agreement, however, The Yok Actamad will give 15 business days in which to bid on such agreements, [*] This agreement has been requested according to Paragraph 9.7. Yohq will actively promote any products like the network from other vendors in the markets, where the services of the account are available. In this paragraph, such as the responsibility of the agreement to carry out specific promotional activities. 9.4 The Yohk agrees, for the terms of this agreement, will not allow any of its subsidiaries directly or indirectly. (B) to take a share of more than 5% of any business, firm, corporation, joint project, or any other entity engaged in any business, the principal line of business which does not have a competitive business and less than 50% of its revenue which is derived from the competitive part of such a business as soon as possible, and such sales will not be used in such a manner as the clauses of section 9 or so will violate the business. Not after a month after such acquisition, Yohk will be able to collect such competitive business notes and set up a pure purchase price (overall, a sale proposal) in which Yohk will be willing to acquire such a competitive business. On such a second basis as the account they have the right to buy such competitive business for such conditions or as The Yohk and Ektamad will not reach an agreement that The Actamad will acquire such a competitive business, each of which will appoint an incoba, in which two enterprises will be able to acquire one mutually acceptable. As soon as the three such appres will determine the fair value of the account will be 60 days after the notification to determine whether to obtain the commetatoebososis at a price. If the account does not choose to acquire competitive business at an estimated cost, The Yuk will be free to sell such a competitive business to another entity within six months, which determines the terms and conditions of the enterprise, which is comparable to the terms and conditions offered on the previous account. I'm quite much more instrumental to other organizations like this. 9.5 Restrictions in this section will be applied only to activities related to the following third parties, unless each of the following is not covered. The supplier is not primarily intended as a connection to the table for secret treatment, and their ampliurlink and laborlink products and their future versions. However, agree with The Uhek that the amplourlink, laborlink and other such measures will not have to be used primarily as the top connection of the provider's table . (d) Electronic mail (except for e-mail from the provider's desktop and above) . Data is used by the Interchange, Telecommunications Network, or EDI Yok Shopping Department or other internal departments that are not attached to the provider's desktop. Or (h) the total recall plans of The York, the Adjodapro products, or Q-Star products, or Q-Star products, and all future versions of them. 9.7 In case this Section 9 requires The U.K. to offer new development work for any business opportunities or account, the account will inform the costs of the account and the conditions for such business or work. If the account, then the Ukhak shall have the right to make an agreement with a third party for such business or work or to do such business or work, and this section will be a part of is required to do business with the customer or supplier, different EDI systems are used in connection with this customer or suppliers to use the event to request customers or confidential treatment with 11 suppliers [*], Yohak or Yohak attachments [*]. 9.8 For the initial five-year period of this agreement, The Actamad agrees that it will not sell or distribute the network in South Africa, except before The Yohk, with written approval. 9.9 This section 9 allows that The Yohk and the Provided Yohk do not promote such vendors to work with such vendors. 10. Performance quality. 10.1 The agreement must achieve performance quality and measurement stake and the time period applicable for measuring compliance with performance standards (performance quality). The party will be measured, the support desk and customer support and network performance will be assessed. The purpose of these performance of the ProviderLink network is met immediately before the effective date. In addition, the development of the account will provide to the yuk, from time to time, clearly in the plan of the account to increase the performance of the network beyond the universe. At any time, when The Yok uses different host computers to connect to the network, the network, from time to time, clearly in the plan of the account to increase the performance of the network, from time to time, clearly in the plan of the account to increase the performance of the network, from time to time, clearly in the plan of the account to increase the performance of the network, from time to time, clearly in the plan of the account to increase the performance of the network beyond the minimum level. the parties will agree to the quality of performance for its connection to the network and on different host computers, which will not be counted at any time when the computer hosting the Yohk is down and/or down on the Yohk computers. 10.4 Fails to meet any performance standards on display in any month, failure to perform the performance of the account will begin to be assessed immediately after reporting or failing to meet the performance standards after being discovered. After that, the actwill work to correct such failure to perform continuous and infirmity until it is correct. The actwill continue to be counted for the purposes of Paragraph 10.5 while the act ad is working to address this problem while failings to meet performance standards in the Act, in any [*] period, the agreement shall be deemed in violation of the contents of the agreement, which allows The U.K. to terminate the agreement under Paragraph 14.2 of the Agreement. In this case, The Yohk will also have the right, in his authority, to request the secret treatment 12 to terminate Section 9 of this agreement and to maintain the remainder of the contract in full force and effect, in paragraph 14.2 of this agreement specifically for treatment and 11. Representation and warranty. 11.1 Agrees with the parties that the owner of the account represents the network and the account that it has the right to obtain a license for licensed content and give The Yuk access to the network. All rights in the patent, copyright, trademark and trademark will be applicable as a license or a license in the surrounding. No title or ownership of licensed material is transferred to The Yohk. Yohke agrees that this licensed content has no rights, except for the limited right to use licensed content that the third parties are liable to pay in the award and the accepted certificate awards, it is harmful to all claims, as a result of the claims and the losses and responsibilities that result from the network. The United States Patent or United States Patent dysnosa will not be responsible under this paragraph if such claims, losses and liabilities result Any violation of the North or network of the Yohk, or the collection of licensed materials with other materials provided by the Account. 11.3 If the right to use licensed content or networks is in any way restricted or if the authority believes that licensed content or networks are subject to such action If the probability is, then, in the option and expense, either: (a) licensed Modify content and networks to free them from such limitations, but respects all material and performance equal to licensed content and networks before such modifications (c) Replace licensed content and networks with content that is free of claims, but respects all material activity and performance equally licensed content and networks lf you have a problem with your child's school, you can get a free copy of the statement. 11.4 As set out in this Agreement, the act shall be performed by the authority of any warranties, express or hardware related to the services, including, but for any particular purpose or use. 12. Prices, patents and audits. 12.1 For [*] After the date of this agreement, The Yohk will pay the account (a) [*] per user site id number set by the Account don The Yok; (b) [*] The user site identification number is established by the account for which The Yok has agreed to be responsible. The provider sends a different page that will not pay for any transactions. The account will not charge The Yohk for any unclean transactions which is not able to access the host computer of The Yuk. These payments cover all license fees, subscription fees, and all fees for licensed content and care services or applications and receive paragraph 12.1 from the account outside the specific services, b Including, without any limit, data, installation, implementation or network addition, a special sales attempt from the account which will otherwise not be provided, or the network and the computer hosting the network and the network. All services by the account for which this agreement does not set a price (including, to some extent, to try to sell a particular of the YUK to the account which the account will not do anything for the installation and processing of the network on sites where Yohk has chosen to install and implement it. In parties will resolve the dispute under Section 15. 12.4 When the account exhibit offers these plus transactions on H, the secret treatment will decide 14 yuk, in its sole submission, whether it will agree to receive such transactions and/or send it. Upon receiving any new transaction and/or deciding to send, Yohk will pay a mutually valued price for such transactions and for such transactions from any other user site identification number, where The Yohk (in its sole voice) is charged 12.5 The account will be monthly for site and transaction fees to The Yohk and any provider where Yohk has asked the bill directly from The Actamad, in a mutually acceptable form. When a provider has a bill for the site and transaction fees, the account will not directly bill the provider for the same charges. Any additional fees for other services purchased by Invoice Yohk will be included. The Yohk agree s/he will pay all the costs and fees of the account within 30 days after receipt of each invis, and will be allowed by law to pay a long payment charge equal to the per month (**) and 30 days later on all amounts remaining. 12.6 The account by its external auditors and government regulators. The right of the Yohk to audit the employees or external audits, not more than once a year, for the accounts related to the Yohk to audit the employees or external audits, not more than once a year, for the accounts related to the Yohk to audit the employees or external audits, not more than once a year, for the accounts related to the Yohk to audit the employees or external audits, not more than once a year, for the accounts related to the Yohk to audit the employees or external audits, not more than once a year, for the accounts related to the Yohk to audit the employees or external audits, not more than once a year, for the accounts related to the Yohk to audit the employees or external audits, not more than once a year, for the accounts related to the Yohk to audit the employees or external audits, not more than once a year, for the accounts related to the Yohk to audit the employees or external audits, not more than once a year, for the accounts related to the Yohk to audit the employees or external audits, not more than once a year, for the accounts related to the Yohk to audit the employees or external audits, not more than once a year, for the accounts related to the Yohk to audit the employees or external audits, not more than once a year, for the accounts and the Yohk to audit the employees or external audits.

proprietary computer systems, marketing and product development projects, financial and staff information, and other business information and staff information, and other business information and staff information, and other business information and staff informat
includes, to no extent, the licensed content and the source code for its proprietary software are used in connection with the network. The information about the members of the YOHK, providers or health plans.
Proprietary information does not include information that was already owned by a party to obtain from another party, or which one party is independently prepared for information received from another party under this agreement. 13.2 Ownership
information and all the physical packages received by any party (the party) are confidential during the period of this agreement and after its termination, the recipient party will hold all proprietary information of the party
in confidence, and will not use its proprietary information or any physical information (other than the permission of this agreement), or its role as a secret information, using appropriate security measures that will not be less than the
same security measures that are used by the party acquired to protect its proprietary information. And any specific security measures required by this agreement. The party received will not remove any proprietary signs relating to the disclosure party's rights, or to disclose any concrete source of any licensed material without prior written
consent of the Disclosure Party, unclear or undisclosed. The party, which will be 30 days after the end of the deal, will provide all proprietary information and all their physical belongings and then remain in control or control of the party that it receives. 13.4 If the party received is
ordered to disclose ownership information through a court, administrative agency or jurisdiction, or is served with it or otherwise a movement or similar request is made, such an order is issued. (a) If the pre-issued order calls for immediate disclosure, the party received will move immediately or otherwise set this paragraph 13.4 The party
will request such an order to allow the disclosure party and (b) the party received (or will not oppose less than one) disclosure party to include or agree a motion or similar request (or not opposed) by the
Disclosure Party for a movement 13.5 The Party will immediately notify the party of any attempt to disclose any portion of the information owned without permission from the Disclosure Party. or (b) to copy, collect, set up the reves or otherwise to reversion any
portion of the ownership information (except as well). 13.6 Each party agrees to disclose or use information of the ownership information shall be terminated under the definition of trade secrets as any
proprietary information that occurs under the Uniform Trade Secrets Act, as adopted in the state of Georgia and as amended from time to time. All other information used in this agreement shall be terminated five years after the termination or termination of the agreement. 14. Term
and dismissal. 14.1 The contract is issued as the date of the start up and after five years, until then it is provided as. The parties will agree to any renewal of this agreement, but section 9 clauses will not be part of any renewal. When this agreement is terminated, the rights and networks of the Yohk to use licensed content will
be terminated. 14.2 If a party violates any content of this agreement, the Non-Brichang Party may terminate the agreement by giving 60 days written notice of termination of the break-up party. If the violation is able to be treated and the other party is able to treat such violations and to act in such a way within 60 consecutive days, the
dismissal will not be effective. The account in the event tries to terminate the agreement according to Paragraph 14.2, which will reduce the duration of the amount of the treatment. 14.3 If The Yohk or any other planned project is not managed or managed, the agreement
will expire as such as such as such an organised plan as the date of the agreement. The Yohk will inform the account that such information is known to The Ehog or will be an organized plan immediately. 17 14.4 When this agreement is terminated, the parties will cooperate in the systematic and appropriate removal of The York from
the network. The parties will jointly develop a migration plan, which will allow the use of network services for a mutually acceptable time after the removal or termination of the yuk, which will not be less than three months. The migration plan will provide a reasonable level of support for the migration from the network to the Yohk. Each
party will raise its own costs in promoting migration planning. During such additional time, The Yohk will continue to pay all fees due to section 12 of this agreement. In case the agreement is terminated by the Actamad as per paragraph 14.2, the account will not be allowed to pay due to the failure of the Ehoq, to serve for The U.K. or to
access the network during the transfer period unless the uktamad is able to pay the amount. The yuk will not be restricted to paying any site or transaction fees that are to be raised after the effective date of termination with providers connected to the network. 15. Resolve the conflict. 15.1 The event may involve a conflict between The
Actamaand and The Yohk or the agreement, or the party may request that the agreement of the party may request 
respected. The specific format for such debates will be left on the nominees have concluded in good faith that there is no possibility of a friendly resolution from any party on the other hand. This
panel will meet as an attempt to resolve the dispute. Senior executives will depend on the number and type of issues, but the dispute will involve their senior executives will be provided by an external facility nominated by both parties. 15.3 Formal action cannot be initiated
to resolve a dispute (a) before (a) the possibility of a friendly resolution is not revealed through the ongoing negotiations of the matter as quoted in Panel 15.2; Or (b) 30 days after the first notice of the conflict was sent under paragraph 15.1 or paragraph 15.2. However, nothing in this section will prevent the party from seeking temporary
or early injury relief where a party determines in good faith that such assistance is necessary to limit its damage or injury under this agreement. The conflict in the 15.4 event is not resolved as described in paragraphs 15.1 and 15.2, and if a party wishes to follow the dispute, the party may submit 18 mediators in accordance with the laws
of the American Mediation Association. In any case, the mediator cannot start more than one year after sending a written notice of the conflict. The parties will request a list from the American Mediation Association of five potential arbatators, each with at least five years of experience in computer networking or some aspect of health care.
Each of the parties will select one of these arbatators and parties or one of the ones they have selected, who will jointly select the third mediator from the proposed list. Any mediation action will be conducted under this agreement, which will be held in Hennepin County, Minnesota, Atlanta, Georgia, or a mutually acceptable location. The
arbators will have no option to award any damages or exemplary damages, or to vary or ignore the terms of this agreement, and will be prohibited by law control. 16. Limitations on losses and risk specified. 16.1 To make the claim as a liability (*) in an event, either the party's responsibility shall be based on the claim or claims of any
person or the right or rights claimed by the other party) Respect for any and all claims arising from or related to the subject matter of the agreement, damage or otherwise. 16.2 Neither party) by accident, as a result, special, or any king
(including, but not limited to lost profits, business or other economic losses) 16.3 In spite of any contrary to this agreement, the Account ad will not be liable for any breach of the services purchased by the U.S. 17. producer (developer) and Fort Knox Escrow Services, Inc. The producer can scro-in more than one product under this agreement. In addition, multiple licensed (finally users) can be registered as the beneficiary of this agreement. Although not every license agreement is signed, Fort Knox informs them of the service. Master Escrow
Agreement this Master Escrow Agreement (Contract) is made as this 20th day of February, 1995, between And Actamad Corporation (producer Fort Knox). Initial statement. Producer Fort Knox contains a sealed package that includes magnetic tape, disk, disk pack, or other types of media, machine
read able form, and written documents prepared in this regard, and computer software products (systems) The producer's wishes are to hold the content of Fort Knox collection, and at some events, the supply of the collection material (or copy) (or a copy) to these individuals or organizations as a license to display C-Horto, according to
the terms Therefore, after that, for mutual promises, and for other good and valuable considerations, which are accepted in this way, the parties agreed to the following: 1. Delivery by the producer will be fully responsible for the delivery of the material collected as soon as the nax is not as soon as the body. Fort Knox will
agreement, as long as a copy of the material for the collection of this license will bear the cost of the creation. (b) Producers will submit any modifications to Fort Knox, the latest information, new releases or documents that are the latest version of the material submitted by the body (additional deposit) The delivery is offered soon after the
nax, which has been modified, updated, new releases and documents are generally made available to the licensed producer, but in any license Thirty (30) days after the first delivery, when the previous deposit held in his custody, which was the subject of
the most recent previous deposit. As provided in Section 10 below, Fort Knox shall have no responsibility to verify the accuracy or completion is copied or modified, updated, or 3. Deposit reported. With the delivery of the deposit materials for fort-
nosed or any additional collection, as the case may be, the producer may collect all items of Fort Knox and each license a written statement specifically collected and it can be described that the deposit material or any additional deposit is identified, (5) In the days of receipt of deposit materials or any additional deposit by Fort Knox, Fort
Knox will send such receipt notification via certified or registered mail for license. 4. Fort Knox for delivery license by Fort Knox to affect its delivery to a license or license or license at a specific address or address, as well as a check of the payment
for Fort Knox in a sum of $100. Or (b) Fort Knox receives from any license: (i) have failed to respect a content to support the applicable system between or with or this producer has closed its business of supporting the normally applicable
system (producer-de-falt (ii) to Fort Knox to have satisfactory evidence that the license has The producer is notified, at least ten (10) days before the notice of Fort Knox, written by the producer as pre-default. (iii) a written demand that the material collected be issued and delivered to the license. (iv) a written affidavit of the license that
the materials provided for the license shall be used as permitted only under the terms of the License Agreement; (v) Specific instructions from the license for this delivery . . . and (vi) the check of the cospall is payable to Fort Knox in a sum of $500 ($500.00). (g) If paragraph 4.1 (a) is satisfied, Fort Knox will provide the content collected
according to applicable instructions, after receiving the notification in five (5) business days, and after specific checks in paragraph 4.1 (a). (d) If paragraph 4.1 (b) in Fort Knox will be sent within five (5) business days after receipt, a photostat copy of all such
documents. The producer (response period) will have 30 (30) days from then to notify the Fort Knox of his recall and apply for a license to release the material submitted to him (objection notice) For the issue of license privileges to be presented in the mediation as per the following clauses: 2 (i) If the producer will send a objection notice
to Fort Knox during the objection period, present the matter By and by mediation, the three panels (3) are selected by the American Mediation Association of the American Mediators Association. The abacters will enforce The Law of Georgia.
At least one (1) mediator will be familiar with the computer software industry. All parties involved in the arbitration decision will be banned and finalised, and the decision on their decision on their decision will be banned and finalised, and the decision on their decision on their decision will be banned and finalised, and the decision on their decision will be banned and finalised, and the decision on their decision will be banned and finalised, and the decision on their decision will be banned and finalised, and the decision on their decision on the decision on the decision of the decision
paid by the non-existent party. (ii) The producer may notify Fort Knox at any time before the start of the mediation operation, which the producer, Fort Knox will be provided with a proper deposit. Paragraph 4.1 (b) (v) for license according to specific instructions
(e) If, at the end of the objection period, fort knox did not receive an objection notice from the producer, then Fort Knox will provide the material collected for the license in accordwithwith to the specific instructions in Paragraph 4.1 (b) (v). 4.2 Delivery Producer by Fort Knox. Fort Knox will release and provide the content of the submission
to the producer at the end of the agreement according to paragraph 7 (a) the agreement. 5. Compensation. The producer and any party should claim the status of the recipient under this agreement, against Fort Knox and all its directors, officers, agents, employees and stockholders (Fort Knox Indmantis) absolutely and always, against
the obligation and all claims. Fees, charges, and any other expenses including the appropriate lawyers' fees and expenses, which may be facts in connection with this agreement or fort-nax or any Fort Knox indinuation, except for Fort Knox or any Fort Knox. 6. Conflicts and Interplayer. (a) In the case of fort-nax, producer and/or any
license relating to the delivery of material collected from any other matter arising from this agreement, Fort Knox may submit this matter to any court of jurisdiction in any enterprise or similar action. All expenses incurred by Fort Knox in this regard, including the fees and expenses of the appropriate lawyers, will be borne by the party for
obtaining a copy of the collected material. (b) Fort Knox shall be ordered by any court of jurisdiction, without any responsibility for any party's purpose due to such act. 3 7. Time and renewal. (a) The initial term of this agreement shall be two (2) years, the date begins on the first term. This agreement will be automatically
extended to one year (additional term) at the end of the initial term and at the end of each additional term, or before 90 (90) the initial term or the event of the termination of this agreement, the producer will pay all fees, Fort Knox and Fort Knox will immediately inform all licensed recipients that
the agreement has expired and Fort Knox will immediately take all copies of the materials collected in its possession. 8. Fees. Producer will pay Fort Knox services under it (a) Payment. Fort Knox will issue an in-house notice after the process of this agreement (initial invice) at the
beginning of the week, and any additional services for the performance of the service. The invis is due to be paid on receipt. All fees and charges are special, and the producer is responsible for the payment, like all sales, usage and taxes. Fort Knox will not have any liability under this agreement unless the initial invice is fully paid by the
producer. (b) Non-payment. In case of non-payment of any fees or charges by Fort Knox, Fort Knox will give no notice of any fees and non-payment of the due due to the in-house and in such a 30 (30)
day period, either due to any fee on fort-nox license (a) or due to non-payment of the payment. Pay notice and, in such an event, the license (S) will pay the payment of the free-for-all fee, as the case may be, this agreement will continue in full force and effect until the end of the viable
period. Failure to pay the free fee under this paragraph 8 (b) will result in the termination of this agreement by both the producer acknowledge and acknowledge that the content collected will remain owned by the producer at all times. 10. Be bankrupt. The
producers and licenses acknowledge that this agreement is a contract in which section 365 (n) of the license agreement is provided in Title 11, The United States Code of Conduct. The producer acknowledges that if a case under this bankruptcy or a trustee rejects the producer's license agreement or rejects the contract, the license can
be selected to maintain his rights under the license agreement and as a part of the agreement. Upon written application of the license agreement and the license agreement and the license agreement, including the right to obtain material collected from
Fort Knox in accordwith with Section 3. 4 11. Miscellaneous. Treatment. But in addition to the actual fraud, the total negligence or deliberatenegligence, Fort Knox will not be responsible for the specific, indirect, accidental or consequential damages.
Licensed people plan to take advantage of third party Rights and obligations established beyond that are subject to. (b) Natural Up-To-The Update version. In addition, parties recognize only as the result of passing time, the accumulated materials are sensitive to quality loss (natural up-and-down). It is further recognized that Fort Knox will
not be responsible for any individual or any natural appeal. For the purpose of reducing the risk of natural exposure, the producer will provide Fort Knox a new copy of the material that collects at least once every three years. (g) Allowed and allowed. Fort Knox may be confident and will be completely protected from any notice or other
document processing and has been considered by Fort Knox in good faith and has been presented by the appropriate person or person. Fort Knox is an independent contractor, and is not either a producer or an employee or
agent of any license. Nevertheless, this agreement will not limit any treatment by which, in law or in equity, any claim regarding the confidentiality of trade secrets (including material) or any copyright or other intellectual property infringement. License is a party to this agreement. (e) Modifications. This
agreement shall not be amended or amended except for any other agreement, except that they do not change the agreement. This agreement, including all exhibitions, is a statement of all previous discussions,
understandings and agreements between the parties on the issues present, and at the same time the entire agreement between the parties is fulfilled in consideration. All exhibitions are attached to the harito stake that is part of the agreement and included. (g) the co-workers; Law governing. This agreement can be hung between two (2)
counterparts, each of which will be considered a real one and the same agreement will be formed with the laws of the state of Georgia. (h) Privacy. Fort Knox will hold and release the content of the collection only in accordance with the terms and conditions, and
the confidentiality of the collected materials will be maintained. 5 (i) Notice. All notices, requests, demands or other communications are required or made or permitted under or under The agreement will be written and provided by the hand or commercial night delivery service which provides for proof of receipt, or will be sent by the
confirmed mail, requested a refund receipt, ticket pre-paid, and address to the following: (i) 3539-A Church Street clarkstown, Georgia by 30021-1717: Contract Administrator Copy: Michael A. Paini Vice President if personally or commercial night delivery If provided by the service, the date on which notice, request, instruction or document
is delivered shall be the date on which the delivery can be made, the date on which the instructions or document is received. Any party can be provided in writing to other parties. (j) Survival. Paragraph 5, 6, 8, 9 and 10 will revive any end of this agreement. (k) No discounts.
There is no failure in the harito part of any party, and there will be no delay in using any right, power or any other exercise by any party. Any express exemption or inversion by any party to any violation or determination of any condition or condition
of this agreement shall constitute any successful violation or a waiver of any other terms or conditions in any other terms or conditions. Attempted calls, the Bank of The Actwill offer a successful connection and service at this time. This
The Hadmus Modem will be based on data created by the Rek Network Controller and will be measured weekly with monthly reporting. * Or the better of the transactions will be successful. Of the transactions offered to the account, they will be served successfully. The measurement will be weekly with monthly reporting. The success of
the transaction will be defined by transactions that are not generated by a system, a non-user-generated error. They can be classified as:-Transactions that return the correct data that return a meaningful message, but not a mistake (after conducting a qualifying investigation by name not found.) - An error returns based on the information
received (i.e. the form of an unknown request.) 1 transaction failures in secret treatment are described as transactions that the service required to complete the transaction is not available. Transaction failures will be recorded and measured according
to the criteria described above. The availability measurement is measurement is measurement is measurements:- The specified hours are total availability time. The following definitions are used to calculate availability measurements:- The specified hours are total
days in the month during 24 hours. - Planning hours is down to the planned and published hours that cost any system restoration or other planning. The hours are experienced during the month. - The actual hours available are the unplanned hours. -The availability
is set by the actual hours divided by the available hours and by 100 by the resulting distribution. The connectivity percentage is determined by the system to distribute the complete successful call and the result ingest by 100. The YOHC will consider these performance standards if the availability of the network
mentioned above is achieved [*] time, or better. The Yohk will consider this service level to be a material violation of the contract, less than the success of the performance within a continuous [*]. Exhibit D will be determined by The Yohk upon
reviewing the reports provided to the Yok/Aktamad Contact. In secret treatment 2 requested that the accountant cannot perform according to the standard of emergency conditions. The emergency conditions. The emergency procedure described in this document will inform The Yohk. Performance sms are due to no later yohke than the 10th working day after the
end of the month. The Laborlank system will continue to support the processing between the Allanas Laborlank system, at the level of performance required for the AAA, usually at 8:00 a.m., every Monday, which allows a year to
be released by 52 days on Monday afternoon (AC) as the files for the mailbox will be provided. Data integrity will maintain high quality of integrity in relation to the transmission and processing of transactions, performance and services reported. Information received from the account will be correct, and without any mistake, unless
otherwise stated in The SLA. All updates from the universe or other Yok host system will be applied immediately and correctly. Users of The Aktamad Pvodarlank Help Desk, Yohek Health Plans and Business Units, 612-945-8500 or 1-800 If you agree to call 446-8279 for all problem resolution, the health plan cannot address the
concerns, or the health plan representative is not available. The Aktamad Plordlink Help Desk will be open from 7:00 am to 5:00 pm, Monday to Friday. Voice mail is available after an hour's call. Left messages on the voice mail is available after an hour's call.
documents using the Actamad-Provdarlink Help Desk Computerized Problem Management Tool, the following information will be recorded on the help desk: Site ID (PCI) The site name caller name phone number health plan priority level date call problem code call recipient problem definition call identification problem information to the
Updated ProviderLink Help Desk to adjust any applications You will try to do so unless your collection does not include significant time and effort in logging information. The data of the Oklahoma Help Desk will be reported to The U.S. on a regular basis but will not be merged into any individual health plan call tracking data. Priority level
rating definition will be assigned to one of the three priority levels to all calls. The following definitions will be used to assign a call priority to the call by representatives of the Actamad Providerlink Help Desk: Intensity 1-A key system or component is down or oker The friendly service is stopped due to the actions of a customer or a 2-a-
single-user down, a component-facing service, or schedule delivery. It is not a significant impact on business, but it can prevent some users from working but is experiencing difficulties or is not specifically available to the application delivery. Each priority level will be
defined and the classification of call types at the preferred level will be determined through negotiations between The Aqtamad and The Ohawk. Definitions can be re-assessed and subject ed to change. The procedure for rating calls at the preferred level to the uktamad provider link will be reviewed periodically with The Ehoq. The Yohk
will be responsible for discussing any requests about explaining additional situations and classifying specific call situations. In event 14 the Accounted Pvodarlink Help Desk is down to the computerized online problem management tool, call information will be recorded manually and then will be entered into the system when it becomes
available. Measurement objectives are set for the maximum time required for the user to discuss the current status and action plan and for each priority level to the percentage of the yuk and call skins which will meet these goals. The measurement will begin when the problem is received by the Connected Upward Help Desk and is
recorded in the computerized online problem management device. The measurement will end when the call is closed (i.e. the current status and process plan is notintothe to the user and the appropriate health plan has acknowledged the problem) by the Accountad Plorderlink Help Desk representative. The Responsibility of The U.S.
Health Plan officials is to inform the Oklahoma Help Desk when an open call has been resolved through health planning resources, but the account has not been notined by the user. The percentage of total calls to the
volume of calls locked within the time frame objectives. While selling, installing and training The Poverlink, The U.S. will ensure that users are made to conform to technical standards that are established in the current version of Schedule B of the Plordlink License Agreement. The Yohk Prowodarlink will continue to follow the approved
installation procedures and will provide a reasonable level of user understanding of The Prowodarlink through appropriate training. Representatives of the Provodarlink Health Plan will be trained by the Uktamad is partially
dependent on the sale of the drug and the full training of users. The capacity planning is responsible for providing the account with as much information as possible to help the account with as much information as possible to help the account with as much information as possible to help the account with as much information as possible to help the account with as much information as possible to help the account with as much information as possible to help the account with as much information as possible to help the account with as much information as possible to help the account with as much information as possible to help the account with as much information as possible to help the account with as much information as possible to help the account with as much information as possible to help the account with as much information as possible to help the account with as much information as possible to help the account with as much information as possible to help the account with a support of the account with a suppo
sands and The events that affect the volume of the uktamad will be best reported in the capacity of the yuk. Important support requirements will be notted with 90 days lead time whenever possible. Technical Care/Development Scheduleing Goals (ProviderLink Development Applications) Process will require an established process for all
Providerlink user applications for the improvement of the implementation issues or the development of new functionality. All applications are recorded including a detailed explanation of the implementation issues or the development of new functionality. All applications are recorded including a detailed explanation of the implementation issues or the development of new functionality. All applications are recorded including a detailed explanation of their needs in a computerized error control system software product. All regular open applications are reviewed by the Usual-based Uktamd-Poverlink
Development Team, however, The Yohk will be responsible for setting up development priorities. During the migration, the Uktamad Will help marketing the products of the Product and will participate in the priority of the
Yohk applications if needed. After the transfer period, the account will consider this aid to long-term bubble service. The regular network restoration on Thursday evening, as available. Major software and hardware releases will be
scheduled to go into production on the weekend. The actamad will communicate these changes on a regular, weekly basis in New Hok. Emergency Recovery Actis is described as a technical problem or forgotten correction in the current functionality of the Providerlink Presentation Software or Network. Technical problem is the
Providerlink feature or user-in-the-randers. The GOVERNMENT will be responsible for ongoing monitoring and quality control of the network and application. Yahoo hoak is expected to document and correct the incorporeal functionality before being recognized by The Ohawk or its users to activate a well-defined problem identification
mechanism. However, when it is not proven 16, The Yohk will be in collaboration with a unital staff, with a powder fully available, as it is designated as emergency, and it is presented to the staff of the marketing staff of the United Provdarlink products. The Yohk/Ecatamad is responsible for the initial investigation of the problem through the
contact powder and for supporting the account with documents. The service level performance for emergency reform will be in ten business days. These releases are not subject to Thursday's release schedule. The emergency
technical problem will be under the control of the Correction Unit Development Team. Not responsible for correcting the account is located outside the provider's presentation software or network, i.e. a specific user configuration, hardware problems, or technical problems located within the software of another vendor. The
```

application will include restoration maintenance and presentation software worm corrections documented in the repair process. A software bug is described as the current functionality that is unable to perform as a design. Where applicable, it is the responsibility of The U.S. to help develop the consumer's needs in the research of the ukta-mad/progressive-link and to make product changes on all stock holders within the United Nations Health Care and Provdarlink end users. The primary responsibility of the registration, installation and training of the Users of The Professional Link on any care release features is to the YOHC. All enhancements to the advanced release of the Accountance Providerlink software or network will be provided to the health planning or affiliates as described as addition to functionality that does not currently exist in the pro-wodralink system, or is currently not supported. In addition, these releases include maintenance and

procedures of the Yohk to handle the transaction of the Ehoq under this agreement. The Yohk will give the notice stake before two weeks of any such audit, and will remain by appropriate audit security and privacy procedures. The yuk will bear the cost of such audits, provided that the audit has been determined in this case. Starting in July 1996 or after any month after which the amount of t

corrections of presentation or other software bugs not included in the normal request restoration releases. An additional release may also include modifications to any or all of the existing Prowodarlink features of the provider directory, including the claim offering, ability, reference, referral status, status of claims, provider email/fax, and the directory. 17 specific additions to The Yohk, and produced exclusively for The Uhawk by the Oklahoma/Yok-Sur-Sahar team, will be released as per the schedule agreed. The specific information and additions paid for the decicated team agreement. It is The responsibility of The U.S. to thoroughly research the consumer in the Development of The United Nations Health Care and ProviderLink end-users to help determine the product's growth on all stock holders within the consumer. The primary responsibility of the Users of the Propositions for the development of the increase in functionality will be notreported to the account through the powder process. Technical Needs Communication Actamad Will contact the ProfessionalLink Managers of The Health Plan of The U.S. regularly, 90-day release date, any expected changes to the requirements of standard hardware, as described in the current version of Schedule B of the Prowdarlink License Agreement, that will affect users of the new Yok software release Planning for planning for the year 2000, and successfully implemented, all applications and network changes And services to adjust the migration to 2000. The act will perform this work as part of the care agreement with The Ehoq on internal software and will be done at an additional cost. If the Yok data formats change as a result of adding support for the year 2000, The Yok will prefer this particular change to the account and submit a change request for completion by the Yok-e-Serhar team. 18 ALLINA Service Level Agreement (SLA) will perform the service level described in the 1996 agreement negotiated by the Department of Yohke EDI Services through the period of the 1996 calenda
