About USA: Rapido is a nextgen product that aims to disrupt the way people travel in-town, brought you a bunch of IITians looking to make life easier for people. With the rapid growth of the urban population, there is an urgent need to address the ever-increasing intra-urban transport. Thus, a faster, more economical and secure way that also reduces traffic and trace, is the need of an hour. Rapido is basically a platform where you can book a bike ride through a mobile app while traveling solo. The difference in the economy of two-wheeled transport and four-wheeled transport can save up to 60% of the cost of travel when you travel solo. Traffic Exceptionally pathetic especially during rush hour, lightning past in two-wheeled transport saves a lot of time. What's more, it also provides an opportunity for people with two-wheeled vehicles (along with a license) to become a rider on the platform and earn extra money in their spare time. . And all this at the touch of a button! Using cutting-edge modern technology to make the life of a city dweller much easier and more convenient is what we set out to do.
