M2 AEBT | 15 Start a headphone pair with a BluetoothOn device this time of the procedure, the headphones must be on the dis dance no more than 20 cm from the smartphone.1 Turn on the power of the headphones (see page 17). Press the power button and hold until you hear a pairing voice message. At the same time, the LED display will flash blue and red. Turn on Bluetooth visibility on your smartphone.3. Start searching for Bluetooth devices from your smartphone. All active Bluetooth devices located near the smartphone will be displayed. Select the momentum of the M2 AEBT from the list of Bluetooth devices you've found to connect Bluetooth to your headphones. If you need to enter the default PIN 0000.If you succeed, you will hear connected voice commands,123420 cmMenuBluetooth onBluetooth or©MenuAd DeviceMOMENTUM M2 AEBTKeyword: 0000' power MOMENTUM M2 AEBT connected to the MOMENTUM pair connected MOMENTUML4s1s the mating mode will be disconnected, and the headphones will return to unconnected conditions. Turn off the power of headphones and repeat pairing procedures. Don't miss the new MOMENTUM Wireless - intelligent headphones with an intuitive control interface. The combination of automatic on/off features and smart pause ensures you won't miss a beat. Specify your active sound cancellation terms and transparent hearing will allow you to determine your terms into the sound world. The algorithm that cancels the active noise offers three modes of switching for different conditions, and with transparent hearing functions, you can enjoy music while controlling the acoustic environment around it. Immersing yourself in music Thanks to the head layers and premium earbuds of natural skin, these headphones provide the highest comfort when immersed in music, and the most durable component of the design makes them a reliable companion for those who are always on the way.
