VivaVideo - Free Video Editor File Information Last updated: August 19, 2020 Developer: zuVideo Inc. Version: 8.3.8 (6803081) Requirement: Android 4.0.3 and up to file size: 77.1 MB Downloaded: August 19, 2020 9:00 GMT-07 MD5: c37258b8e64c9380354f5649ab0c2d SHA1: 5a91c4 5295c8d73c78a184e0ce47f10aa5aa464b Available on Google Play: Set from Google Play VivaVideo - Free Video Editor App Review Well, VivaVideo for Android is loaded with a lot of options in terms of editing features. Thanks to this wide range of options, users can not only edit but also customize their videos as well. Key video editing features, such as pruning, splitting, and duplication, can be found in the app. Accelerating the timeline with this app is also possible. Graphics-wise, the app comes with settings adjusting where users can customize the hue and saturation of the video. The best part about this is the rotation feature, which is rare in most video editing apps. Usually, when you record a video, the sound will be recorded at the same time. Some videos require audio touch to make it more appealing. In this case, users can add music or other types of audio to it. There are a few Make your video look attractive. Adding stickers are one of those ways. Stickers are not only able to decorate your video, but also useful for censoring unnecessary graphics. If you want to add add just add text to the video. An excellent feature of this app is video recording with countless settings. This means you can record and edit videos from that app. This app saves the consumption of RAM for applications with these individual goals. Pros: It's easy to use. The app comes with a recording feature. It retains the consumption of RAM. Cons: The watermark can only be removed by buying the How to use the app As mentioned earlier, the app has two important goals. In addition to the editing capability, the app can also be used to record videos. Click on the record icon to record any moments of your life. Before you click the record, it's a good idea to change your settings to suit your preferences. The most complete feature of the video editing app is the editing feature. Fortunately, the interface comes with a systematic layout. Click on the editing icon to select the video you want to change. To cut out part of the video, you can choose the pruning feature. Once the unnecessary part of the video has been removed, you can start decorating it by changing the theme or simply adding text and stickers. If you want to add audio or music, you must have a file on your device in advance. ChangeLog performance optimization. Optimization. vivavideo pro apk seiko
