Want more? Advanced embedding details, examples and help! Watchmen is a superhero comic book created by writer Alan Moore, artist Dave Gibbons and colorist John Higgins. The series was published by THE American company DC Comics in 1986 and 1987 as a limited series of 12 issues.⁵ It has been re-released several times and translated into various languages, including Spanish, in addition to winning prestigious awards such as Hugo. Watchmen originated from an offer from Moore's Story to DC featuring superhero characters the company acquired from Charlton Comics. As Moore's proposed story left many characters useless for future stories, editor-in-chief Dick Giordano persuaded the writer to create original characters instead. Full WATCHMEN: Screenshots : Comic: Watchmen (download mega) Download the Mega Watchmen, download the latest mega comics. Name: Watchman Scenario: Alan Moore Figure: Dave Gibbons Year: 1986 Volume: 12/12 Editorial: Marvel Formats: DC Vertigo Server: MEGA Language: Spanish SINOPSIS Watchmen takes place in an alternate world where the mere presence of American superheroes changed history: America won the Vietnam War, Nixon remains president and the Cold War is in full swing. It begins with a murder mystery before unfolding in a conspiracy that changes the planet: When a retired hero is killed, his former teammates must investigate. The plot they discover will be intertwined by their secret traumas and crooked bionics, ultimately asking where the fine line between heroes and villains is drawn? Popularly cited as the point where comics came of age, Watchman's challenging take on superheroes was universally known for its psychological depth and realism. It's slow and inevitable to become your own franchise, spawning movie, video games and comics before Watchmen's prequel. In 1985, the Watchmen dealt with the retirement days of a group of heroes who were forced into exile after new laws in North America. Watchmen are developing into an alternate reality that accurately reflects the modern world of the 1980s. The main difference is the presence of superheroes. The point of divergence takes place in 1938 and shows how its existence dramatically influenced or altered the outcome of the Vietnam War and the presidency of Richard Nixon.¹⁷ According to the realism of the series, although disguised vigilantes of the watchmen are commonly referred to as superheroes, the only character with superhuman powers is Dr. Manhattan¹⁷, whose existence gave the United States a strategic advantage over the Soviet Union, which led to increased tensions between the two countries. Over time, superheroes become unpopular between the police and the public, resulting in laws to be enacted in 1977 that prohibit them. While many of the characters are retired, Dr. Manhattan and the comedian work as government-approved agents, and Rorschach continues to work outside the Law watchmen also has a very good film adaptation, with Zack Snyder, the director of films like 300, Sucker Punch and Man of Steel. Without further roll I leave comics, one by one: hope this post was useful to you, and do not stop reading this great series watchmen comic download pdf español
