You can download the old version of VidMate APK in this article! Features - Download the APK VidMate Link Old version as Khaka mentioned earlier, VidMate is a very popular app for downloading videos. Not only in Indonesia, but in some other countries, gangs! This, of course, is not so for no reason. Considering VidMate offers a variety of excellent and useful features. The app also has a simple and simple user interface (UI), which is very easy to use, even for lay people. For those of you who are still interested in this app, check out the following full review. Features VidMate APK Old Photo Source: Vidmate Just like TubeMate APK or app Other videos, the old VidMate also offers a variety of great features, although certainly not as full as the latest version, The Gang. Well, before jaka kasih download the Link VidMate APK old version, check out the reviews on vidmate APK interesting features below. 1. Download videos with different resolutions Watch videos will certainly be more fun if the quality is good, right? Well, in this old version of VidMate you can choose from a variety of videos, gang resolutions. From the lowest quality 144p to HD resolution, you just have to choose according to your needs. But, if the internet connection is fast, Jaka recommend you download moderate quality just so that the process is fast. 2. Download from various platforms, as Khaka mentioned earlier, this old VidMate APK allows its users to download media files from different gang platforms. With YouTube, Facebook, Twitter, you can all make it happen with just one click! The way to use it is also very simple and easy. Guaranteed that you won't be confused when using this app! 3. Download music? That's it! In addition to downloading Twitter, YouTube and other videos, the old VidMate can also be used to download song files. This feature itself is not really different from VidMate 2018 or other recent versions that are widely available on the Internet today. So you don't have to worry about how to download your favorite songs online. 4. Download speed relatively quickly Lazy download video because the download is so fast? Well, usut has this old VidMate APK usut in addition to offering video download features, but also has relatively fast download speeds. But of course it also depends on the internet connection you use, yes! To prove it, you'll just try it yourself with this old VidMate app, Gang. How to download Youtube Videos through VidMate VidMate can be used to download YouTube videos. So if there is a Youtube video of your favorite, it can be collected offline. Download it is also easy. This is because the latest version of VidMate APK from 9apps has many drawbacks, one of which is the number of ads that interfere with the desire to download songs, videos and MP3s through the app. VidMate itself is a live streaming app that can be used to download different types of video content as well as music. All content contained in the vidmate app also comes from social networks such as Facebook, Youtube, DailyMotion, Line to Twitter. Even this app can also be used to download popular movies and animated movies with high quality (HD) for free. Interestingly, the vidmate app now has many loyal users from all over the world. In addition, according to the information I receive, this app has also been downloaded more than 50 million times hp Android and iPhone users. Therefore, this app is often called one of the best downloader applications, which is free and can be easily used by all users. So for those of you who have an Android phone, it's appropriate if you install VidMate as a social media download app. Especially for now the VidMate app continues to release the latest versions, which are definitely compatible to install on the latest versions of Android, such as OREO and PIE. Even so, you should know that not all versions of the VidMate app always offer the features that users are looking for. For example, the latest version of VidMate 2020 is considered less optimal because there are many disturbing ads. This of course frustrates many users so much that they prefer to use the vidmate old version of 9apps compared to using the latest options. Well, for those of you who are looking for an old VidMate app without advertising. Then you don't have to worry, because on this occasion I'm going to link to downloading the old VidMate app in 2014, 2015, 2016, 2017 and 2018 for free.
