You're browsing old versions of Netflix. Here you will find APK files of all versions of Netflix available on our website, published so far. Latest version: FOLLOW USA The latest version of the Netflix app for Android is not compatible with every Android device running Android 5.0 (Lollipop). If you downloaded the Netflix app from the Play Store and saw a message telling you to install a more compatible version, you can download a compatible version of the Netflix app here. This version of the Netflix app requires an Android version between 4.4 (Kit Kat) and 7.1.2 (Nouga). First, you need to set up your Android phone or tablet so you can install the app directly from us: If you haven't already, remove the Netflix app. Once you haven't stalled the app, go to Settings. Click Settings. Click security. Check the field next to unknown sources: Allow apps to be installed from sources other than the Play Store. Click OK to confirm this change. Note: You can go back to your original settings after you install the Netflix app. Then, on your Android phone or tablet: Click here to download the Netflix app. The blank screen will open and then close to indicate that the download has started. When the download is complete, swipe down from the top of the screen to open the notification bar. Click on the downloaded Netflix file and select Set. The installation is complete when the notification bar at the top of the screen displays a successfully installed Netflix. Find and run the Netflix app. If you're asked, enter Netflix email and password using the on-screen keyboard. Now you're ready to watch Netflix on your Android phone or tablet.
