Download summer saga save data tamat [save data] latest version bagi anda yang ingin download sommersaga save data tamat new update v0.14.1 apk ,langsung saja download melalui link dibawah ini : download save data tamat summer saga versi 0.14.1 terbaru work.. Summertime Saga is an adult game created by: DarkCookie (Art, History, Design & Dialogue), NhKPaNdA (Lead Code), Hurfy (Code & Posing), Catbug (Dialogue & Posing), AoiichiNiiSan (Music & SFX), FL22 (Server page & Website) and sam9 (Stream, Discord & Awesomo pappa). Set in a small suburban town, a young man finished up High school and soon enlist in College is struck by his father's death. Mysterious circumstances surrounding his death are just the beginning of his troubles as he learns that his family is indebted to a group of shady criminals. Adding to the list of problems, our young hero needs to save enough money before his College semester begins and find a date for prom night! Summertime Saga is completely supported by generous donations at Patreon. Please give us some of your loose change if you have any to come!
