THEO JI CHNG TS Play PUBG on a PC with TGB is the answer you were looking for. TGB is an acronym from Tencent Gaming Buddy, which has a specially designed and optimized Android emulator for THE PUBG Mobile Game Series (including PUBG Mobile International, PUBG Mobile Korea, PUBG Mobile VN and more). With Tencent Gaming Buddy PUBG Mobile Battle Royale Game is now available on your computer. By the way: Chicken dinner is better late than never. Download APK v1.0.5226.123 The developers of the famous game PUBG Mobile have created their own game emulator so that fans can play the game on Windows PC! This emulator is fundamentally different in that Tencent Gaming Buddy was created exclusively for THE game PUBG Mobile. In the app, you can make a more detailed video adjustment to reduce the hang. Perfect for fans of PUBG Mobile, an emulator in which there is nothing superfluous! After downloading the app you can automatically download the game to your computer, all you need is to start the emulator and wait for the full installation! Tencent Gaming's official site is Buddy. Rating: (14 votes, 4.50/5) Description Of the doubt Tencent Games is one of the most famous companies in the mobile gaming industry. However, can you guess the problem for Windows users? That's right, the games are widely mobile only. But that's where Tencent Gaming Buddy comes in. So, rest assured, thanks to this handy invention you will be able to enjoy the likes of Piano King and PUBG Mobile with your Windows machine. Key features include: Android emulator. Available in Chinese and English. Great usability. Allows better gameplay. Specially created for Tencent Games. It's incredibly easy to use too; with many compliments its quick and easy installation process. In addition, it boasts a variety of settings and configurations, which allows you to further personalize your gaming experience. Why can't you just play games on your mobile phone? We hear you crying. Well, as we suspect most of you have found, it's incredibly difficult to play some games (like shooters) on the touch screen. That's why Tencent Gaming Buddy was developed. This can allow you to enjoy some of the best brand games as well as have access to mouse and key controls. Worried it's unfair? Don't be, Tencent Gaming Buddy will only match you against other Windows users implementing the same gaming method. So the deception is closed! Overall, Tencent Gaming Buddy is incredibly popular because it allows you to gain additional access to Tencent Games. These days our mobile phones are like The circle and battery is not too reliable - so relax and enjoy some of your favorite games right out of the comfort of your computer. PUBG Mobile (PUBGM) is designed exclusively from official Playerunknown's Battlegrounds for mobile devices. PUBG Mobile (PUBGM) is a multiplayer multiplayer game developed by Tencent Games with the most intense multiplayer action. This is a player vs. player shooter game in which up to a hundred players fight in battle Royale, a type of large-scale last man standing deathmatch where players fight to stay last alive. Survival is key and the last standing wins. Be the one surviving at the end with a big screen experience. It is suggested to play PUBG Mobile on a PC with GameLoop, as it can bring you the following help: Fast and accurate controller with mouse and keyboard. Like other FPS games, PUBG Mobile requires players to handle flexible and smooth gameplay on their PC. Thus, the exclusive engin - AOW GameLoop engine provide players with improved accurate shooting and aiming skills with less lag and stuck in the game. Resolution 2K, Support 3A Masterpiece Graphics. If you want to participate in Battel Royale in PUBG Mobile, GameLoop can bring you an immersive gaming experience, in addition, players are more likely to get a detailed idea of the design of the map and the specific guns they use. Less equipment requirement, Min. 2GB of RAM. Although Free Fire has a high need for equipment. GameLoop has fixed these problems and reduce the requirement, the player can play such a game FPS on the PC without worrying about power-off and limited space issues. Exclusive third-party payment. In addition to controller and geographic optimization, GameLoop offers an exclusive, unique and third payment solution, ensuring that players can consume directly and more safely on GameLoop. Tencent Gaming Buddy La trenh giả lập được Tencent triển rìng để hỗ trợ cho PUBG Mobile. Nhằm tối ưu ha việc điều khiển wa hiệu nung chơi pubg mobile trenh giả lập rìng n'ý. Mới đầu th' TGB chỉ c' support booking PUBG Mobile, but for now, some игры горячей is also Game Buddy is included in the support list. If a player wants to install just go to the Game Center section, select a game app to install and click Set already playback. However, this list is not enough compared to many gamers. If you want to install the external APK app in Tencent Gaming Buddy, this ultra-light Android I can also help users with installation, you can check the instructions below this article to install the external apk file in Tencent Gaming Buddy. Note: In the new version of Tencent Gaming Buddy called GameLoop, you won't be able to add APK files in addition to previous versions of Tencent Gaming Buddy. How to install the external APK files in Tencent Gaming Buddy Download Tencent Gaming Buddy Open Tencent Gaming Buddy up, click on the main menu icon and select Set. Then change the TGB language to Chinese and then click Save. Next, go to the cover-up menu on the taskbar, click on the TGB icon and click on the exit. Then select the top of the menu on the left, and then tap the plus icon in the top right corner to add the APK file. Choose the path to the folder that contains the downloaded APK file and click Open. Wait a while for the app to complete the installation. Since TGB still has Chinese, if you want to switch to Vietnamese, please select the settings menu again. And select the Vietnamese section again in the main settings, and then click Save and restart TGB. Finally, re-enter Tencent Gaming Buddy and run your app. Since there is no additional APK badge in Tencent Gaming Buddy in Vietnamese, you need to switch to Chinese to install APK. Tuesday, July 23, 2019 11:43 GameLoop (also known as TencentGameAssistant) is an Android emulator designed by Tencent to help you comfortably play some of the best android games: PUBG Mobile, Arena Valor, Cyber Hunter, Clash Royale and more! The emulator is available in several languages, although the menu system is fairly intuitive, so that everyone can install the game and execute it without having to know the emulation or virtualization of things. In fact, once it is installed, the emulator will play the game automatically. Once GameLoop is installed, you just have to click on it to witness the magic of Tencent Gaming Buddy. The game will start and you can check how all the controls are perfectly configured, as if it were a PC game, so you can save yourself from the trouble of having to map them out. You'll get the default mapping system Your controls that set you up with keyboard and mouse control. Everything is set up and ready, so you can just play. GameLoop is an excellent Android virtualization tool specifically created by Tencent for its games, so the compatibility and performance are incredible. One of the best Android virtualization tools on the market. Tencent's PUBG (Tencent Gaming Buddy) emulator is specifically designed for PUBG Mobile. Aside from that, playing PUBG Mobile Game in a PC with a gaming buddy has different advantages, you don't have to think about the ultimate life of a mobile battery, as it offers advanced graphics and more on your computer. Now the TGB Android emulator is not only limited to THE game PUBG, but users can also play other games on the PC. Also, if you want it also records gameplay for streaming.
