With Amazing Spider-Man 2 on its way to cinemas this May, it was only a matter of time before we got the details of the mandatory mobile movie game. Today Gameloft officially announced Amazing Spider-Man 2 along with a new trailer that brings us a few seconds worth of gameplay footage and soon a banner at the end of the video. Like the original game, it is an open world adventure with tons of missions and enough high-end graphics for a mobile device. While Gameloft has yet to release too many details about it, we expect it will essentially have the same common mechanics as the original, albeit with some gameplay improvements, supped up to graphics and a new storyline. When will the game land? It is expected to arrive on Android in April. Prices have yet to be disclosed, but it's worth noting that the first game set users back \$7 when it first started, so we wouldn't be too surprised if it's also priced well above the typical \$0.99-\$3 range. People have always kept the charm of dangers lurking in the shadows. Whether it's ghosts or curses or murderers, people are drawn to them like moths to the flames. Perhaps it is the promise of quick and effective killing or a life of silence and danger. Despite this, the ninja has been an object of fascination for centuries. These secret agents and master killers have been the focus of many forms of media, from books, anime, and games. At some point in our lives, we probably all dreamed of becoming a ninja. While becoming one can be a huge challenge for everyday John or Jane, the games let's take on the role of these hidden warriors. We've put together some of the best ninja games for Android devices, so you can live or relive your dream of stealth, craftsmanship and secrecy using your Android phone. Fruit Ninja Free What list of ninja games would it be if we didn't kick it off with Fruit Ninja Free? Although ninjas are primarily known for their quick killings and espionage, they are also quite famous for being nimble with a blade. Fruit Ninja Free puts you in the role of a ninja and pits you against fruit. You read it right, fruit. Fruits of all sizes, shapes and colors will be launched into the air, and your goal is to slice them. Hone your skills and chop two, three, four or even five fruits in one swing. But don't judge! Watch out for bombs that can be launched along with your fruit targets. Slicing through a bomb means an instant game for you, but don't be too careful, either. If you refuse to pump the blade while the fruit and bombs are in the air, you can just drop your fruit. Three missed fetuses equal the game is over, so exercise caution and care. While Fruit Ninja can be played by swiping your fingertip across the screen, you can enjoy the game more if you use a stylus. Fruit Ninja Free for Android on AppBrainNinja Slash Fireball If you're tired of fruit and you want to try something more dangerous, you can play Ninja Slash Fireball. Instead of slicing through the fruit, you need to cut the board small enough to put out fireballs. Use the tip of your finger to cut the board less and less, but be careful not to separate the fireballs. Keep whittling away on the board until you reach the specified target percentage and move on to the next level. Just when you think you've got the hang of things, new fireballs are introduced as you progress. Improve your cutting experience with buffs, but keep in mind that not all of them will help you. Some buffs also violate the previous status of ball movement. Enjoy 50 entertaining levels that will really test your skills as a ninja. To enjoy this app to the fullest, try playing it on big screens of devices such as tablets. Master of precision and planning by downloading Ninja slash fireball on your Android device today. Ninja Slash FireBall for Android on AppBrainYoo ninja! The free part of what makes ninjas so deadly is their ability to run on rooftops and jump from place to place. You're probably exhausted from slicing your way through the fruit and carefully cutting off the boards to put out fireballs, so it's time to get some exercise with Yoo Ninja! Free. Though the game describes itself as simple, Yoo Ninja is a fast and addictive Android game. Challenge gravity and jump up and down different barriers. Don't spare a second to slow down because these hot darts on your heels will spell instant death if they hit you. Visit 4 different worlds and enjoy 34 different levels of Story Mode, all while you work for your life. If you want to enjoy the fun even more, play endless mode. Users reported that while Yoo Ninja! Short, curve complexity is suitable enough that you will find it difficult to put this game down. If yoo ninja! Free is not enough for you, you can also download Yoo Ninja! Plus for more non-stop runs. Ninja! Free for Android on AppBrainNinja chicken you read it right. Ninja Chicken is a game that puts you in feathered chicken shoes suffering from dementia. Because of the accident, this bird now thinks it's a ninja, but not just a ninja. This chick thinks it's the best of them all. You can laugh along with your friends, but don't let its feathery exterior fool you. In an effort to prove himself as a ninja to his chicken friends, this bird goes on a dangerous quest. This warrior bird has the knack to jump over obstacles and run like the wind. Ninja Control It's easy. As it runs through the screen, help it jump over objects by pressing up a button on the right side of the screen. Watch out for low objects! Hit down the button on the left side duck under them. Run the chicken into the air to collect the acorns and pick up items to help you slice through obstacles. Ninja Chicken for Android at AppBrainNinJump We are not quite done learning different ninja skills. Now that you're sliced and diced and you're working for your life, it's time to get up! The goal of NinJump is for you to climb as high as you can, avoiding obstacles like killer squirrels and angry birds. Dissatisfied wildlife is not the only thing you are against. Watch out for the enemy ninjas by throwing the syurikens and detonating bombs. All you need is one faucet to go from one wall to another, pounding obstacles through the air as you do. Want to go even higher? Shoot down three enemies of the same kind to trigger mega-jump bonuses. Plough your enemies with shields, but keep your eyes open to ledges and enemy ninjas because they can send you straight to your doom. How high can you climb? Test your ninja climbing skills with NinJump today. Download it for your Android device from google Play Store.NinJump to Android to AppBrainMoon Chaser Another part of the ninja myth as these deadly secret operatives seem to fly. Either by fighting the hook and cable, the fantasy of flying dodgy, or some supernatural powers, the ninjas have been strut themselves on their target, make them kill back in the night, and take off into the sky. Moon Chaser puts you in the place of the Flying Ninja. True to the name of this mysterious warrior, he defies gravity. Its gift of flight may be due to a lunar eclipse, but it seems to last only until the moon is completely eclipsed. Race through the ups and downs of hills, slopes and slopes, and collect as many coins as possible before the moon is completely eclipsed. Flying ninja has no problem staying in the air, but he will need your help to get his feet on the ground. Increase gravity by touching the screen and collect items. Laugh again, removing your finger from the screen. Fly through the big sections, but be sure to go back down to collect the coins. Moon Chaser for Android on AppBrainNinja Rush HD Can you run, jump, swing, and shoot all at the same time? These previous apps may have given you a taste of what to be a ninja like, but you didn't have to combine all your skills together. In Ninja Rush HD, you will need to escape until you reach the end of the ninja world. This side scrolling game will have you running across the screen and jumping over the platforms. Keep in mind these gaps, because falling can mean instant death. Watch out for very big gaps! You can double jump to cover space, but if it's beyond your capabilities and you see the ceiling, throw a ninja rope and swing through the abyss. That's not all there is in the game, though. There are enemies patrolling the platforms. Click the shuriken button and tear them down before you even to them. Them. Ninja Rush HD for your Android device today and practice all your ninja skills.
