Just change into any hidden object - a chair, a box, a cup or even a toilet. Supported Android (4.1 and UP) Supported Android version:- Jelly Bean (4.1-4.3.1) - KitKat (4.4-4.4.4) - Lollipop (5.0-5.0.2) - Marshmallow (6.0 - 6.0.1) - Nougat (7.0 - 7.1.1) - Oreo (8.0-8.1) When you were a kid, did you play hide-hide-and-peek games with friends near home? For me, evenings of hiding with friends are unforgettable memories. Have you ever imagined shooting games that can fit with hide-and-peek gameplay? Then let me introduce you to hide the online MOD APK game. Content table: NameHide OnlinePackage.com.hitrock.hideonlineThis is a unique product of the cunning game. If you're tired of traditional shooting games on the market, why don't you try hiding online? Hide and search gameCan say it's a hide-and-peek game... the scariest I've ever known. In Hide Online, you and seven other players paired up in a match are divided equally into two teams. Do you think the team goes underground and the team has a role to find? You guessed it. Not only did Hunter's team find with their own hands, but Team Hunter also used weapons to destroy all the people on the other team. Have you seen cartoons, Beauty and Monsters? In this film, the prince's servants in the castle are cursed. Everything turned into enclosed objects such as candles, pianos, watches, warm cups,... So it's hide on the internet. A team that goes underground has the ability to turn into any object in the game while retaining the ability to move, however you can't attack. You can turn into anything you want like a box, closet, chair or even a toilet. Then there's the intense chase. Within three minutes, if Team Hunter hasn't destroyed all your team members yet, you're a winner and vice versa, They're killing your whole team. You lose. I advise you not to transform and sit still throughout the game. Because sometimes the objects you convert show expressive icons. As a result, the Hunter identifies you and you will be quickly destroyed easily. So you have to do it constantly moving, constantly transforming into many different objects. The enemy will be hard to find you. Surely this fight will be very funny and funny. Hide Online's weapons system is also relatively new, but not diverse and a little less (for me). In addition, the game currently has only one card. This makes many players bored quickly, although the gameplay of the game is fun. Hopefully hitrock games will update more maps and new weapons to make the escape more interesting. What about the schedule? Through the above images, you can see that the graphics of Hide Online are not too demanding, but are still relatively beautiful and edgy. Not great, but doesn't mean bad. Developed on the basis of a 3D platform, the details of the game are carefully cared for, which certainly makes you feel satisfied. Bright colors, maximum inspiration for players. Sound is also an impressive plus. The virtual game key is designed in the same way as other action games, left move and right to perform some operations such as shooting, throwing grenades,... You'll quickly get to know the control system easily.
