The quest for a good cup of espresso can come at any point without warning, so Instructables user urant decided that the best solution would be to build a tiny, pocket espresso machine for less than \$30. When planning the process, urant decided early on the assembly would be limited to the parts available in any hardware store, so you'll be able to get everything you need without venturing too far. The main part of it uses copper parts of plumbing, iron solder and syringe. This is an in-depth little project, but by the end of it you will be able to carry an espresso machine wherever you go. Everything you need, including drawings, instructions and photos available at Instructables. Pocket-sized espresso machine with integrated alcoholic slab Instructables For coffee lovers, espresso can be the ultimate drink. Brewed, forcing hot water under pressure through a small amount of compacted and finely ground beans, espresso coffee is pure and is the basis for many other popular beverages such as cappuccino and Americanos. And while any coffee shop worth its salt will offer a decent cup of espresso for a few dollars, it's hard to top the convenience of brewing your own espresso at home. However, with a dizzying number of options for size, configuration and cost, finding the right espresso maker for your home can feel like a daunting activity. In order to make your decision a little easier, we have identified several quality espresso manufacturers that we have had personal experience with, or who have received high marks from reviewers on Amazon. From premium to economical, here are seven espresso makers that will allow you to become your own barista. 1. SAECO HD8753/87 Philips Intellia Cappuccino Full Automatic Espresso Machine Source: Amazon When it comes to upper-range espresso makers, it's hard to top Philips Intellia Cappuccino's fully automatic espresso machine. With a one-touch digital display, Saeco Intellia is ideal for coffee lovers who want an easy-to-use machine and aren't afraid to pay a little more for convenience. As the name suggests, this espresso maker does more than just a standard espresso. The integrated milk jug and frother allows it to make several different varieties of coffee drinks, including cafe cream, cappuccino, and latte macchiato. Do you love professional quality coffee drinks, but hate doing the maintenance and dirty cleaning that many other machines require? Philips Intellia Cappuccino Fully Automatic Espresso Machine regularly runs an auto-clean and descaling cycle that extends the life of the machine. The machine also has several easily removable parts that can be rinsed under the crane wash in the dishwasher. Other notable features of this model include a ceramic grinder that is capable of Like pre-ground and whole coffee beans, a fast-heated boiler that ensures you never have to wait around to get your next cup of Joe, and a memo feature that lets you keep your personal coffee strength and temperature settings. As noted by several reviewers on Amazon, one of the few drawbacks of Philips Intellia Cappuccino's fully automatic espresso machine is that a plastic shaker in a bean bunker sometimes interfere with the flow of beans. This can lead to incompatible coffee strengths, since not enough beans get into the grinder. Fortunately, this minor problem can be solved by simply removing the plastic shaker from the bin that ensures the grinder gets stable bean delivery. You can buy Philips Intellia Cappuccino's Fully Automatic Espresso Machine here. 2. La Pavoni EPC-8 Europiccola 8-Cup Lever Style Espresso Machine Source: Amazon With more than 100 years of business experience in the espresso manufacturer, Italy-based La Pavoni Company is one of the best manufacturers of classic handmade espresso machines. With its beautiful all-steel, chrome industrial design aesthetic, La Pavoni EPC-8 Europiccola 8-Cup Lever Style Espresso Machine is as much a work of art as it is an espresso maker. This machine is capable of making one or two cups of espresso at a time and includes a traditional steamed stick for churning milk for a cappuccino. Unlike automatic machines that take a lot of guesswork from brewing the perfect cup of espresso, hand espresso machines like this one require a certain level of knowledge to work. For this reason, La Pavoni EPC-8 Europiccola 8-Cup Lever Style Espresso Machine is recommended only for experienced baristas or for coffee lovers who are willing to spend some time learning how to use it. That being said, there are many coffee lovers who believe that hand machines such as this produce the most delicious espresso. La Pavoni EPC-8 Europiccola 8-Cup Lever Style Espresso Machine comes with a training video to get started and is available for purchase here. 3. Breville BES870XL Barista Express Espresso Machine Source: Amazon As with programmed and hand-controlled brewing options, the Breville BES870XL Barista Express Espresso Machine will delight both beginners and experienced baristas who want to experiment with different settings. The integrated conical grinding machine ensures that every shot of the espresso is made from only the freshest bases, while the front sensor allows users to know when the machine has reached the optimum espresso extraction pressure. Features include a 360-degree rotary action steam stick and a unique built-in fake that makes a certain every coffee washer Packed. This attractive machine also has a convenient feature that we haven't seen on any other machines: a hidden compartment under the drip tray, where extra extra. And cleaning accessories can be saved. And speaking of cleaning, the Breville BES870XL also has a warning light that alerts users when the machine needs to be disinfected. Here you can buy a Breville BES870XL Barista Express Espresso. 4. Nespresso Inissia Espresso Maker Source: Amazon If you are an espresso drinker who doesn't want to deal with the clutter and hassle of grinding and taming your own coffee, then Nespresso Inissia Espresso Maker can be the perfect machine for you. With its own coffee capsule system, Nespresso Inissia can have the easiest operation of any espresso machine currently on the market. Simply fill a removable 24-ounce water tank, insert the Nespresso capsule, press the start button, and within minutes you'll have a perfectly cooked espresso cup. Once you remove the cup, lift the lever of the machine and the used coffee capsule will be thrown into the container. While espresso traditionalists can turn their noses up at the Nespresso Inissia Espresso Maker's prepackaged coffee capsule system, this machine has received high marks from Amazon reviewers who praise the consistency and quality of the espresso it produces. Of course, the downside of this convenience is that you can only use specially made coffee capsules designed for this machine. However, for cost and convenience, Nespresso Inissia Espresso Maker can't beat. Nespresso Inissia Espresso Maker is available in several colors and can be purchased here. 5. De'Longhi EC155 15 BAR Espresso Pump and Cappuccino Maker Source: Amazon De'Longhi EC155 is a great espresso maker for beginners who want a relatively inexpensive machine that still manages to pack in features like a rotary frother jet to make a cappuccino. Capable of making up to two espresso shots at a time, the De'Longhi EC155 has a unique dual filter holder function that can handle regular ground coffee as well as pods, making it ideal for people who may not always have time to go through the traditional grinding and taming ritual. It also has a removable water tank and a drip tray, making it easy to clean. As far as the cons go, although the De'Longhi EC155 features metallic accents, it still has a lot of plastic components that probably wear out much earlier than the more expensive models with an all-steel design. Overall, the De'Longhi EC155 offers great value to espresso lovers on a budget. De'Longhi EC155 15 BAR espresso pump and cappuccino maker can be purchased here. 6. KRUPS XP1000 Steam Espresso Machine with frothing nozzle for cappuccino Source: Amazon If you're looking for an affordable electric espresso maker that doesn't require its own coffee pods, THE KRUPS XP1000 Steam Espresso Machine one of the best options. This no-frills espresso maker has four cups of carafe and a simple handle that easily switches from brewing to steam. This inexpensive, compact machine is perfect for college students or those who want to save space and money. And what it lacks in style, it more than amounts to value. You can find the KRUPS XP1000 Steam Espresso Machine here. 7. Bialetti Moka Express Stovetop Espresso Maker Source: Amazon Who Needs an Electric Espresso Maker When You Can Use an Oven? Bialetti Moka Express Stovetop Espresso Maker is the best option for coffee lovers who want to enjoy espresso but don't want to clutter their kitchen counter with yet another electric appliance. Made in Italy by the venerable company Bialetti, this espresso-making technology is stripped down to its barest elements. Affordable and easy to operate, perhaps the only drawback of this device is that it requires an oven and some little patience. You can get yours here. Follow Nathaniel on Twitter @ArnoldEtan\_WSCS craving more coffee? Check out: Amazon/Bed Bath - Aside from if you're reading this, you've probably decided it's time to move up to a world highly caffeinated.
