HAVE FUN: - Пилот 3 в. . см. больше Страница 2 - Новая функция REFUELABLE IN FLIGHT может быть разблокирована в режиме БЕСПЛАТНО-FLIGHT для большинства самолетов (кроме пассажирских) , Добавлен фиксированный зонд дозаправки для E-42, и выдвижной для XV-40 (доступен, когда функции REFUELABLE IN FLIGHT разблокированы и включены для этих самолетов). FLY MILITARY AIRCRAFT AND PASSENGER AIRLINERS: Turboprop Flight Simulator - это новая 3D-игра-симулятор самолета с самолетами from the tactical carrier Airbus A400M Atlas, regional airliners ATR 42 / ATR 72 and the VTOL XV-40 concept aircraft. HAVE FUN: Pilot three versions of the military aircraft: tactical cargo, coast guard, and specs. The pilot of two regional airliners, as well as airborne early warning military variant. The pilot of the Tilt-Wing VTOL aircraft (both in aircraft mode and vertically, helicopter mode). Learn to fly with training missions (learning the basics of flight, steering wheel, take-off and landing). - Complete a variety of missions. - Explore the interior of the aircraft in the first person (in most levels and in the free flight). Interaction with various objects (doors, cargo ramp, gates, main lanterns). Drive ground vehicles. Load, unload, and airdrop deliveries and ships with cargo planes. Take off and land on makeshift runways (and airports, of course). - Explore without restrictions in free flight mode or create flight routes on the map. Fly in different settings of the time of day. OTHER DETAILS: NEW and FREE airplane simulator game updated in 2020! THERE IS NO MANDATORY ADVERTISING! Only optional, rewarded ones in between flights. Excellent 3D graphics (with detailed cabins for all aircraft). Realistic physics for flight simulation. Full control of the pilot (including steering wheel, flaps, spoilers, reversing thrusts, automatic brakes and chassis). Several control options (including a mixed tilt sensor and a stick/yo). Several cameras (including cockpit cameras with captain and position pilot). Close to the realistic sounds of the engines (turbines and propellers noises recorded from real planes). Partial and complete destruction of the aircraft (pruning the tips of the wings, the complete separation of the wings, the separation of the tail and the main breakdown of the fuselage). Several islands with a lot of airports. The choice of measuring units for air speed, altitude and distance (metric, aviation standard and imperial). Page 3FLY MILITARY AIRCRAFT AND PASSENGER AIRLINERS: Turboprop Flight Simulator is a new 3D aircraft simulator featuring aircraft derived from the tactical carrier Airbus A400M Atlas, regional airliners ATR 42 / ATR 72, as well as the concept aircraft VTOL XV-40.
