Richard left his job at Microsoft, persuading his friend and colleague Whit Alexander to join him in creating Cranium. This is a persistent game in which a team of 2 or more players aims to reach the center of the skull board by completing different skills based on activities. Cranium is a popular infusion game for four or more players that many families choose for their family fun night. Since the events cover talent, every player may be able to show what they are good at - whether it's spelling, sculpture, bewilderment, acting, or humming. The objective goal of the game is to be the first to move around the entire board and into Crane Central. Then, to win, you have to successfully complete one final up. Materials you will need a pawn or a place marker for each team. You will also need a game board, die, timer and clay skull. In addition, you will need four card boxes. They are labeled as Creative Cat, Word Worm, Star Performer, and Data Head. Finally, you'll need paper and pen or pencil for each team. Setting the rules for the board has the ability to adjust the board for longer or shorter game time. For a quick game fold the board, so that only four sections show. For a game lasting about one hour, fold the board into a rectangle, allowing eight sections to be shown. For the full length of the game, lasting about an hour and a half, display the board in the form of T, allowing all twelve sections to be in play. Play to start playing place one marker for each team on the board. A team with a player whose next birthday is the first. On your turn, you start your turn by completing the action. The color of the space is the same as the four card boxes. On your first turn, and every time you are in the purple space you will be able to choose from any of the four card boxes. The team on the right will draw the map from the corresponding box and read it to you. They will also set a timer for you when you are ready. You have to complete the action before time runs out. If you successfully complete the activity you will get to roll to die and move that many spaces. Your turn is over. If you haven't successfully completed the action, your turn is over. You'll stay on the same and try again at the next turn. Note: If you play either The Crane Rules mid-length or full length version of the game you you stop in all the purple spaces. All Play Cards When an all-game card is drawn by all the teams bundled. The first team to shout the correct answer before the timer runs out, gets to roll the dice and move. Once the winning team moved, play resume where it left off. Fast Track When you play the full length of the Cranium Rules version, you have the option to take a quick path. For the full version of the length of the game you have to stop at each purple square. If you are able to successfully complete the activity in this square on the first turn on the square, you can move to the inner fast track. If you fail for the first time, you should stay on the outer track and take the scenic route. Win To win you have to enter Cranium Central. Once you have entered Cranium Central other teams will get to choose the card box activity you have to complete. In order to win you have to successfully complete your final activity. If you fail, you can try again on the next turn and every subsequent twist until you are successful. The winner was the first team, successfully assuring the final work at Cranium Central.
