You have dreams of becoming a music legend. You rocked up to Guitar Hero, sang your heart out in a karaoke bar, and strutted your stuff in the shower. But, if you really want to improve your singing skills, you have to get serious. You have the opportunity to enroll in a music school, hire a music instructor or, if you prefer to go on the road on your own, at least bring an Android device. And at least make sure your Android device has an app that will help you polish your musical skills. There's no limit to what people can find on the Google Play Store, and if you're aiming to learn the environment of your passion, you need something easy to carry around. Open your ears, bend your fingers and be prepared for our selection of the best Android apps to explore music. Music Tutor Sight ReadBefore you can embark on your journey to become the next best musician in the world, you will need to learn the basics. It may seem boring, but tutor Sight Music Read here to make sure you won't have a boring moment learning how to read and write music. This quiz game is designed for music students to learn to read and write music. Because packs some games, Music Tutor Sight Read ensures that you are on your toes. Learn to read and write music staves and when the game asks for it, answer the key signature by selecting the key in the keyboard. Some of the game modes include test time, a study option for you to answer questions without time limit and find out in which the user touches the answer panel and Music Tutor Sight Read shows a question corresponding to this answer. Tutor Sight Read music is a must for people who want to build on their musical foundations. Unfortunately, Music Tutor Sight Read doesn't allow you to view your mistakes, so you'll have to try to avoid giving the same erroneous answer. Music Tutor Look Read for Android on AppBrainChord! Guitar chord FinderIt'll take more than just strumming and hoping you sound at least half well. If you have a guitar, you have to learn how to play it. Although the chord! Guitar Chord Finder is primarily a guitar or carved instrumental chord, it generates chord charts in any setting and with any number of strings. Listen to each diagram, sweeping your fingers across the strings. All charts are displayed in color, so it's easier for you to figure it out. With over 400 entries in its database, chord! Guitar Chord Finder allows you to plot around your neck in any setting or reverse search. You can find scales that match the notes you type around your neck and explore the variations the app gives you. If you're left-handed, don't worry because it's a chord! Guitar Finder also supports left-handers/people. Once you've got the chords figured out, you can save them in PDF format and share them via email. Mail. Guitar Chord Finder is available in the Google Play Store for a fee, but it's definitely worth it if you're a serious novice musician. Chord! (Guitar Chord Finder) for Android on AppBrainMy Piano AssistantRound from your repertoire with some piano. It's timeless and it's you get in the mood for some soulful music. With My Piano Assistant on your Android device, you'll have a link to piano chords and scales. Requesting a chord or scale, my piano assistant gives his formula and notes according to the chosen root. It also shows the position of the notes on the piano keyboard and allows you to listen to the chosen chord or scale. If you want to keep one of the tutorials readily available, click on the star so you can access it later. For seasoned pianists, my piano assistant is also helpful to keep your skills sharp and help you in your composition. My Piano Assistant supports different screen sizes and can satisfy how you would like to have an Android device, supporting both portrait and landscape modes. If you're excited to get piano training, My Piano Assistant is available for your Android device for free in Google Play Store.My piano assistant for Android on AppBrainMobile MetronomyIf you need to practice on the go, take a mobile metronome with you. Mobile Metronome is very handy when you practice and when you want to keep up, especially when you play the clarinet or drums. Choose the time of the signature, the number of beats and the click sound. Mobile Metronome is easy to use, reliable and fully functional for Android devices. You have the option of fine-tuning the pace from 10 BPM to 230 BPM, as well as features such as tap tempo, download and save gifts, adjustable signature pace for simple, complex and challenging meters. The volume is also adjustable, packs a visual counter to beat and Italian tempo markings. If you have an incoming call, don't worry. Mobile Metronom automatically shuts down when you get a call. Unfortunately, Mobile Metronome can't go as high as 230 BPM and may not be able to keep up the pace while other audio apps are running. The Mobile Metronome is ad-supported and available for free from the Google Play Store.Mobile Metronome for Android on AppBrainUltimate Guitar TabsView Guitar Tablatures on your Android device using Ultimate Guitar Tabs. But, more than just letting you browse guitar tablatures and bass tablatures, Ultimate Guitar Tabs also allows you to browse drum tablatures and chords. This gives you unlimited access to a large database of Ultimate-Guitar.com. Browse a huge collection of tabs and learn or practice new songs even when you travel. Ultimate Guitar Tabs has SD Card support, which means you can save no It's an app on your SD card, but also save tabs for offline access. The app allows you to find tabs by entering the artist's name or song name, as well as Your favorite tabs are available to view offline. Create a custom playlist of your tabs and view the chord charts while reading the chords. If you want to view popular tabs for you guitar, drums or bass, Ultimate Guitar Tabs lets you browse the Top 100 tabs for each type of tab. Some devices may have compatibility issues with Ultimate Guitar Tabs, as some users report, and may cause the power to close. Aside from this small snag, however, the Ultimate Guitar Tabs are certainly handy. Ultimate Guitar Tabs for Android on AppBrainxPianoWho says you should be in front of the piano to practice? Keep these skills sharp with xPiano for your Android device. This simple piano app has a 4-octave piano keyboard as well as 12 instruments. You can even customize the width of the keyboard. The app offers multi-touch capability for devices running on Android 2.1 and above. Play one or both sample songs that xPiano comes with, and if you feel confident, xPiano also comes with a recording and play option. You may not be cranking out any Mozart with xPiano, but it's definitely fun, and if you have motivation, xPiano can serve as your stepping stone to learning the actual piano. You don't need to be an experienced pianist to enjoy this app: Some users reported learning songs like Twinkle, Twinkle, Little Star just by sound. xPiano is available for free for your Android device. If you want 5 octaves, 128 instruments, more features and more songs, you can purchase xPiano-xPiano for Android on AppBrainDrum KitIf you're not a big fan of guitars or piano, then Drum Kit might be for you. This multi-touch app promises to provide the best experience for finger drums. From top to bottom, you can play with the drum kit with your fingertips. Since Drum Kit packs multi-touch support, clicking on instruments can actually simulate playing with a real drum kit. Drum Kit packs features such as movable drums and percussion, cool animations, drum editor, and composer, so you can create basic rhythms that allow you to play finesse beats while the rhythm automatically plays. With the animation included, you won't have a hard time determining which part of the drum you're clicking on because the drum briefly increases. Users may find the ads to be intrusive and obstructive, as some have reported that whenever they try to play bongos, they end up redirecting themselves to the Google Play Store. The drum kit is available in the Google Play Store for free, download it today and reveal your inner drummer. Android Drum Kit on AppBrainRobotic Guitarist FreeDon't guitar within reach of the hand? No problem. If you have a robotic guitarist for free on your Android device, you can enjoy playing around with your favorite string instrument. This is convenient for both guitarists and students. Robotic guitarist Free is emulator guitar, but it does not require you to put your fingers in a position to get the sound you want. Choose a chord and hit the strings. Strum or enjoy any other methods thanks to two modes of choice. If you learn to play guitar seriously, Robotic Guitarist Free also packs a chord guide, so you can simulate where to put your fingers. If you have a guitar with you but would like to help in setting up your instrument, contact the Robotic Guitarist for free. Choose from acoustic and electric guitars, piano, choir or flutes and map them out on the guitar. Fun to experiment with a robotic guitarist for free, available, you guessed it, for free from the Google Play Store.Robotic Guitarist is free for Android on AppBrainChordbot LiteIf you're looking for something a little tricky, Chordbot Lite lets you create and play advanced chords easily on your Android device. Whether you're experimenting with songwriting or you need an accompaniment to a guitar solo, Chordbot Lite is a must. Perhaps you are a songwriter in need of musical help. Chordbot Lite will definitely make your shower singing sessions more interesting, and who knows, maybe you'll finally get this song fully fleshed out and ready to be shared with your fans. Chordbot Lite comes with 60 chord types in all keys with inversions, slash chords, transpositions, and more. Some users have had problems with Chordbot Lite buttons because they are too small and the device lacks several key features such as larger chords and octaves. Chordbot Lite is free to download, but unfortunately some features have been disabled. If you want to save or export your creations, you will need to purchase Chordbot Pro.Chordbot Lite for Android on AppBrainMusical Piano ProDon't be deceived by his name. Musical Piano Pro is more than just a piano app: It also got drum kit, metronome, pipes, autoharp, and more. You even have access to games to help you practice piano as well as piano and multi touch drum. Flex the fingers of these pianists by playing the piano in practice mode and playing together. Musical Piano Pro comes with more than 20 songs, a two-octave stacked piano and 128 General MIDI instruments. Acapella singers can love the musical Piano Pro as it can give you backup pitching. Users may find a slight lag between clicking and sound being produced, as well as lacking a wider variety of songs to play. Also, the Musical Piano Pro is definitely handy for those who need to make some music. Described as a Swiss army knife for musicians, musical Piano Pro is a must for a musician, aspiring or experienced, on the go. You can buy Piano Pro priced from Google Play Store.Musical Piano PRO for Android on AppBrainWhat are you waiting for? Download one, or all of these music apps for your Android device and get jammed. If we didn't turn on music app, share it with us in the comments and help your fellow aspiring musicians. Musicians.
