CONS: It notifies updates, but does not start the update, which makes applications not working properly and the phone slower. Notification of updates pops up as all secondUSER REVIEWS/REVIEWS: Ally Chase – I don't even rate 1 star. This app is terrible. It cannot be deleted or deactivated. I have been getting constant pop-ups saying: Google play services keep stopping. It's every few seconds that pops up, it's been happening for four days. So it's almost impossible to get anything on my phone. I wish it was stop.steven parks - the latest update 17th something keeps that settings app several times out. I had to hard reset the phone 3 times in just 2 days. until I just found a solution to remove and then reinstall the previous version. I am using a LG stylo 3 android 7.0. please fix. it's very hard for me to do anything if I don't even have access to the settings.
