FIFA 14 is a high quality football simulator for Android. After a successful twelfth edition was two years, and during this long period of time, EA has released a huge amount of innovations and improvements that will appeal to fans of mobile football. The gameplay, by and large, has not undergone huge changes. The user is given the opportunity to create the team of his dreams and bring it to the top of his football career. There is also a single player mode where the player can fight against any team, which, incidentally, is about 600. In general, there is quite a lot of content here (16,000 players, 33 leagues), this game requires a disk space device. FIFA 14 is managed in two ways. First, it's a classic virtual joystick that you can customize by changing the location of certain features. The second method is implemented with gestures. At first it may seem too heavy, but practice a little, and play becomes much easier and more exciting. The graphics are also improved, and the level of effects and detail visuals closer to the computer analogues of five years ago that mobile games are very good. In addition, players will enjoy soundtracks that complement the atmosphere and give a realistic. FIFA 14 is sure to appeal to fans of football simulators. Modern HD graphics, simple management with customizable and elegant career mode do not give competitors a chance, leaving them far behind. Page 2 fifa Soccer is a new part of ea Sports' Android football simulator. The game is completely different from previous versions on mobile devices. Developers completely reworked the gameplay, which can be a surprise even for experienced fans. The gameplay consists of two parts. In the first you need to learn new methods and practice them in training. The second mode is a consistent attack on the opponents' gates. Unfortunately, there are no complete coincidences. But there are many tasks for which bonuses are given. The main feature of the second mode is that the matches are held with the teams of real opponents. In the spirit of the RPG, the first player makes his move, attacking the opponent's goal and trying to score the most goals. After a while, the opponents change places. After several consecutive attacks, the final result of the match is coming. Management is carried out as a standard. You can control both with a swipe, and with the help of virtual keys. The graphics keeps a high level, animated movements and the environment are performed at altitude. The soundtrack is also done perfectly and helps to feel the high degree of football matches. FIFA Soccer is an unusual football simulator that differs from its analogues in genre. He may not like some fans of the previous parts, but he has many advantages that will allow Gather an impressive army of fans.
