Having a simple game that you can play at any time anywhere on Android devices can be quite handy. You can spend your 15 minutes of free time enjoying every bit of this wonderful Android game. Find out all about Geometry Dash with our comprehensive review. StoryThe game consists of simple but addictive jump and flight mechanics. All you have to do is tapping your finger on the screen to guide your character through various obstacles. Managing is pretty simple and easy to get used to, however, it will take a lot longer for you to master it. The combined gameplay of Flappy Bird and Mario allows you to relax and reward the watch. There are reasons why this quickly became one of the most popular titles on Google Play. Here are a few features that you're sure to find interesting: The game has the combined gameplay of Flappy Bird and Mario, but that's not all. You can also enjoy the rhythmic soundtracks that follow your every action in the game. It's not just about the game, it's like you're dancing with your character. The longer you spend your time playing the game, the harder you will find it to be. If we think of the early levels as a few simple waltzes, the upcoming levels will feel like you're dancing in a hip hop beat, which is pretty hard. But at the same time, it's also quite fun to be able to experience such unique and exciting gameplay. So you are guaranteed to have many good times with the game. As the level of progress, you will notice sudden changes in their installations, obstacles are arranged differently. And you will also face various obstacles that block your path. This requires a more aggressive approach to gameplay as well as different soundtracks to match the changes. For those who like to create things, you will find plenty of fun time going through the level of the geometry dash editor. You can build your own level with certain changes and new features yourself. And to help you with this, the developer also provides hundreds of different customizable options to make your new level as fun as possible. Also, once you have created your level, you can share it online for others to download so they can also enjoy the same experience as you. That being said, you can also download content that other people uploaded to make the game more fun. To make the game more refreshing, you can customize your characters with different changes. You can change your costumes to make them look like certain characters. Or equip them with different gears and completely change the way they work. In fact, you can even change your in-game characters from one cube to a cube that rides on a rocket. How great would it be? You can also Color of your character to match the theme level. Or add icons to make them more The master must practice his skills nonstop to be recognized as one. And you know it. To help players get used to the mechanics of the game and get better at it, Geometry Dash allows gamers to join a practice mode that shows all available levels of the main game. So you can practice doing hard tricks to help you get through real easier. To earn yourself some amazing rewards including in-game boosts or tweaks, you have to complete certain achievements. There are always needs to be achievements as well as challenges available for you to try. Finish them and you can get yourself a new trip. The good thing about Geometry Dash is that it doesn't have any in-app purchases. This means that you can earn every collectible item from spending enough time playing the game. By doing this, the game becomes relatively fair as dedicated gamers tend to earn the best rewards. To compete with friends who are also playing the game, you can log into your social network account to see your friend's progress. You can also test your position in the global ranking system to see how you compete with players from all over the world. Although it doesn't come with any purchases in the app, the game is still paid. This means that you will have to pay some money to be able to download it to your devices. Knowing this, we have created a mod version that allows users to get unlimited access to all available features. And at the same time, you get the game for free. All you have to do is go to our website and download the geometry dash to APK. Install it on Android devices and you'll be able to play the game. The game has simple art styles that mostly consist of colorful rectangular shapes. Even your novice character looks like a cube with eyes and mouth. This makes the game friendly and accessible to players of all ages. In addition, simple graphics also makes the game easier, allowing older devices to run it without any problems. As mentioned above, the game uses appropriate soundtracks to make the levels more interesting. In Geometry Dash, you'll have access to hundreds of different soundtracks with each one different from the other. With simple but interesting gameplay, Geometry Dash provides an immersive experience for those looking for fast entertainment on their Android devices. If you're one of those arcade fans, you'd definitely like a geometry dash. Put your reflexes on the challenge. Download geometry Dash APK to experience one of the most sophisticated and exciting touch games platforms currently available on your mobile phone. You will have to click on the screen to jump and fly through geometric obstacles. In the Dash APK - Full version - you can complete complex levels and create your own and then send them to your friends for their try. How hard it is Are you doing this? Dash APK geometry doesn't have any in-app purchases, so once the game is yours, it's yours forever and you'll have the full version. Crazy platform geometry games platform games are used to go to for gamers around the world. There was a time when they were the only digital games that people knew. The return of platform games in recent years has fueled more than just nostalgia - they really are tons of fun to play. Geometry Dash APK for Android is a prime example of platform games at its best - a game fun, addictive, challenging and simple enough for players of all ages. The added ability to unlock achievements, make your own level to challenge your friends, and customize your characters only makes the game even more enjoyable! On top of that, the gameplay is diverse and super-fun. You can jump over obstacles and then when you go through the ring, you will turn into a plane and you have to fly through all sorts of dangers - sometimes while upside down! Tips for playing Geometry Dash Geometry Dash APK is not an easy game. In fact, it's damn hard! You should pay attention to the following tips and tricks to make sure you are playing to the best of your ability. Sometimes you will have three or four platforms to jump one by one. Don't worry, you can just keep your finger on the screen to jump up all these platforms without the risk of missing them. It's worth noting if you see spikes coming up, you should stop holding the screen! Ignore uncomfortable coins like any platform game you want to try to collect coins as you go. This is like any platform game, there will be a few coins that are just out of the way. Don't worry trying to risk your level of collecting these coins. Try the practice mode This mode does not affect your level of progress and you can give up the markets to start with if you die. This is a very useful way to get to know how levels work. We certainly recommend using it if you are stuck on a certain type of obstacle. Use boosters There's no better way to gain an edge in the game than boosters. Some will allow you to jump higher, while others may slow down time a bit. All this is very convenient and will help you get a solid score... Not dying. Take breaks... We said it... You will probably burn your brain soon if you don't take frequent breaks. This game can get a little frustrating at times and taking regular breaks will allow you to avoid throwing your good new phone through the window and knocking out your neighbor in the process. Also, drink plenty of water to keep your focus on the upper levels. Geometry Dash Mod APK - Menu, Unlimited, All Unlocked... Play Dash mod APK with unlimited everything!
