Full Screen Caller ID - BIG! PRO 15.1.10 ApkBIG! Full Caller ID for Android gives you the ability to install full-screen caller images for incoming and outgoing calls instead of the default caller ID screen with small pictures. We believe that if you have a St. George hd screen in your phone, you should use it to the fullest. That's why we created BIG! Full Screen Caller ID - to make your Android phone look beautiful. A full-screen image of the caller ID will give your phone a fresh look, something it should have had the moment you turned it on for the first time. Download the app and go through a short customization guide where you automatically connect your contacts to their Facebook and/or Google accounts to upload your photos from the subscriber's screen automatically. Once installed, you'll need to enter your friends' profiles and let them show up with a full-screen caller ID when they call you. FEATURES: - full-screen caller for incoming calls, Full caller screen for outgoing calls, full-screen photos when receiving SMS messages- a beautiful list of contacts with 3 display modes - connect to Facebook, Google, Dropbox and download full-screen photos automatically (and view FB albums) - download additional themes from Google Play, By rearranging the buttons on the caller ID screen, switch between the themes of the caller's screen, select click or slider behavior buttons included on the Full Screen Cover Caller ID 30.445 Christophe Nies Communications Score for 3 Contains Ads Offers in app purchase This app is compatible with all your devices. Installed download APK Full Screen Caller ID- screenshot sketch Full Screen Caller ID - screenshot sketch Full Screen Caller ID - screenshot Full Screen Caller ID - screenshot thumbnailThis is the original Android Full Screen Caller ID with more than 5 million downloads and 50,000 paid installations! Thank you all for your amazing support!! Full Screen Caller ID is a replacement for the caller screen for your Android device. Using this program, you can set up a way in which your phone notifies you of incoming and outgoing calls, sms, emails and missed calls.- Basic features - Full-screen notification of incoming calls - Full-screen notification for outgoing calls - Full-screen notification for incoming SMS - All buttons and texts are tuned - Use photos from the sd card, internal camera or facebook - Setting up the design of the caller: choose the colors, the size of the notifications - Text to speech: the full screen id Aloud incoming calls, sms and mail - Facebook integration: choose photos from Facebook or link your contacts with Facebook friends to update all profiling profiling With one click - Advanced features - Android integration: share photos from any Android app to install photos for your contacts - Support theme - Answer on buttons : no more slider to go to pick up the phone - Answer by sliding the screen. - Landscape support: high-resolution images can be installed for both portrait and landscape mode. - Back up and restore all settings and images. - Video caller Id (beta) - Block annoying contacts - How to use YouTube videos to learn how to use the software. Full Caller Id will work instantly after installation, but you should assign HD photos to your contacts to avoid the full screen blurry photos. HD photos should be assigned from the Full Screen Caller ID menu, not from the stock Android contact app. - No support for a double call - no support for response when the Bluetooth headset is connected on ICS devices - there is no dialpad inside the FSCI (double tap to close and use stock dialpad) - Contact me - Contact me if you have a feature request or error report. When reporting an error, please describe the problem accurately and write a link to the device and the android version. I'm working alone on this project, so I won't be able to answer every mail. However I read all the emails and will correct the reported errors.
