MSI Gaming is a companion software that lets you control different aspects of a graphics card or MSI laptop. These aspects include clock speed and processor frequency. The app also has other useful and interesting features. The MSI Gaming App gives you complete control over the performance of your graphics card.OC removes the limit of your GPU to give you the full gaming experience of many software titles. This includes achieving 4k resolutions to schedule higher frames. Take note that graphics cards and PC fans will work at their best with this setup. Game mode: This is the mean setting of your GPU that allow decent performance without taxing your computer too much. The game mode is great when you want to slightly reduce the power consumption of your setup to maintain power, but still, want enough juice to play games on decent products. Silent mode: As the name suggests, these are the lowest possible settings that reduce the load on your computer and turn off the CPU fan up a notch. Silent mode is great when you just want to browse the network or do some light activities in order to retain power. Other GPU settings and featuresThe game app will help you reduce eye strain with its eye Rest settings. This allows you to remove the amount of blue light on the monitor, which is harsh for the view. You can also find other display settings in Eye Rest, such as the game mode that provides the best contrast to help you see the environment better. It also has a mode of movement that uses dynamic gamma adjustment for better viewing. The MSI Gaming app features Dragon Eye, a mini window where you can watch Youtube videos or game streams from Twitch. In addition, the app allows you to customize the LED display of your GPU. This includes color, styles and more. Where can you run this program? The MSI Gaming app is compatible with Android 4.0.3 or better. Also available is the Apple version, which can work on devices with iOS 9.1 OS or later. Is there a better alternative? MSI Afterburner is a good alternative to the game app when it comes to changing the output of your graphics card. The afterburner gives you more options on how to customize your GPU, such as basic voltage, basic clock, and memory clock.The MSI Gaming app provides a handy experience when it comes to managing your graphics card. In addition to GPU performance, you can also install a display and turn on the mini window to watch video while playing. What may bother you with the app is to demand a password when you want to connect to the GPU. The app is unable to save the password. Should you download it? Yes, the app is free and gives you a bare bone basic to control the MSI graphics card. Total download: 0 in Android World Pokemon comes to our reality with Pokemon GO for Android. I was one of the avid fans of the adventures of Ash and Pikachu. I even called my pet a pet as a pet Pikachu, and I wish it could generate some electric sparks, too. If you enjoyed watching Pokemon, why not make yourself a monster trainer with the Monster Galaxy app? Although it doesn't have cute and cuddly Pokemon like Pikachu or Jigglypuff, the app follows the same concept of catching monsters and putting them into battle. Your main task is to catch the monsters they call Momas, and test their skills in battles. Travel and explore a world packed with 14 islands on the zodiac and collecting monsters. There are about 125 monsters for you to collect. As you catch and collect momas, you also have to train your monsters as you make your way to defeat King Otho.Can you collect all 125 monsters and defeat King Otho? Saddle, recharge your arms, and wear cowboy attire as you travel to the Wild West with Six-Guns.Six-Guns for Android on AppBrainThird Blade Want to play monster cutting, adrenaline pumping RPG game on your mobile phone? Try playing the Third Blade app on your Android device. You control the hero in this game and in each level, you have to defeat a lot of monsters. You also have to defeat the tough bosses along the way. The game allows you to choose 3 different types of weapons. The double gun allows the use of two weapons in both hands. You can quickly attack monsters and have a higher chance of damaging them, but double ownership does not cause much damage. Double owns is also good to create your combo counter. Combo gives you extra attack points and added critical bets. The sword alone is the safest weapon to use. This allows you to do average damage and normal attack speed. The sword alone is a heavier weapon. The use of these weapons does more damage, but sacrifices the speed of attack. This weapon is perfect for large and slow moving monsters. You can also buy new weapons and learn new skills that match the weapons you use. You have to mix and match the appropriate weapons and skills suitable for the monsters you encounter. What are you waiting for? Keep the adrenaline pumping with the third blade app on your Android device. Third Blade for Android on AppBrainStar Legends (3D MMO) Who doesn't love the Star Wars saga?
