The Minimised Chatbot Download Bot New Post Home - LaserJet - HP LaserJet Pro MFP M426fdw Guide (User Guide and Installation) HP LaserJet Pro MFP M426fdw was developed by Hewlett Packard primarily for users who regularly print large documents but also want to scan, copy and fax. With printing speeds of up to 38 pages per minute on A4 paper and even 63 pages on A5 paper, HP depends on many devices with similar properties, and allows you to print two-way documents. Print tasks management directly on MFP - just swipe and tap the touchscreen 7.6 cm HP LaserJet Pro MFP M426fdw can be integrated into the existing network via cable or WLAN and thus can work with multiple workstations. Printing from a smartphone or tablet is also possible in this way. The print resolution is only 1200 x 1200 dpi, but that's enough for text printing. Higher resolution does not make a profit here. Unfortunately, the scan resolution is also not higher, so high-quality photo scanning is not possible. Scan digital files directly to email, USB, network folders, and the cloud with pre-installed business applications. Build the fastest multi-page documents with the fastest two-way printing feature in your device class. Printouts are immediately available to you - without waiting time. THE HP LaserJet Pro MFP M426fdw is ready to use at any time and prints faster than competition. With security features such as LDAP authentication, HP JetAdvantage, or additional PIN security, you control access to printed jobs and ensure secure printing. Print from a variety of smartphones and tablets - usually without configurations or apps. Use wireless direct printing in the office for mobile devices - without access to the network. Give your employees the ability to type from their NFC-enabled mobile device at the touch of a finger - no network is required. Access, print and use resources with ease with Ethernet and wireless networks.
