Facebook Color Changer Facebook Color Changer is an app that allows you to change Facebook theme. Especially for people who are tired of the banal Facebook theme, we created Facebook Color Changer. Facebook Theme Coloring is too boring for bright and creative people. Interesting to know that the background color also affects our mood. Of course, it will be more pleasant to open Facebook and see how the color theme picked up by you. Facebook Color Changer has more than 50 themes, but we don't stop there and create more. Also, you can always create your own Facebook theme to your taste, pick up color combinations that are pleasant for your eyes. In creating a theme is also possible to change header color, header color, theme color, button color. There's dark Facebook, and it's not a terrifying theme. It's just a theme for people who carry their health. If you want to protect your eyes using dark mode, you need to change your background color against it! Dark Facebook gives you 5 built-in dark themes off and a possibility of creating own one. How to use the color changer? Firstly, click the Text color, Background Color or Link Color button. A box will appear around the button indicating that it is active. After that, you will find a color on the color wheel to change the color to what you like. Now if you want to change the colors of the site, just click the Change Colors button. You can also change the color by the context menu with the right mouse button. Note that all changes in the pop-up toolbar are automatically saved in memory. The main advantages of Facebook Color theme: 60 Facebook Themes, Change Header & Background Color, change each text color, Change border & button colors, simple and clear interface to apply your themes, share your Facebook Themes with other users, create your own themes and synchronize them to each computer. Join millions of people who use it and you won't regret it. That theme change helps you convert your Facebook page. Tell your friends about Facebook Color Changer!
