If you're a fan of this classic MMORPG and you're looking for a Maplestory Reboot Level guide or tutorial, then you've come to the right place. I've put together this well-structured Maplestory Reboot alignment guide which, if you follow, you should easily level at the right time. Without further ado, let's get to him. The Maplestory Reboot Level is now definitely much easier, especially if you're on a reboot. Of course, I'll start at level 10 of the year as the first ten will require you to go through the starting lines of the quest (lessons). Then you will go through your first work achievements. It will be much easier if you have Hyper Teleport Rock, so you can use some cash and get one. The reason why the restart server is much easier is because Nexon has removed most of the board to win elements of the game, making it less easy to level up. However, the monsters on the restart server have a higher XP, resulting in a loss of 5% damage at the level. Now I get straight to the Maplestory Reboot Alignment Guide giving you a general overview of the best training places. Maplestory Reboot Level GuideFA's The Takeaway Maplestory Reboot Level Guide 1-10 Tutorials/Start-up Line quest Level 10-25: Temple of Golem (Mixed Flaming Golems) Level 25-30: Eye Curse (Elnia) Level 30-40: Purple Slim Clame Level 40-50: Seashell Level 3 0-50: Wild Terminal Level 50-60: Wild Boars Level 55-65: Skeledogs Level 60-75: Drakes Level 65-80: Celions Level 75-85: White Fangs Level 85-100: Sahel 2 or Dwarf Level 90-80 100: Laboratory Area C-2 STAR FORCE: Level 95-105: Blood Harpy Level 100-110: Dark Centaur Level 110-130: Double Ghost Pirates Level 130-140: Cerebs and Bain Level 135-145: Dark Centverns Level 145-145 165: Kerning Tower Floor 2 Map 4 Level 160-170: Kerning Tower Floor 5 Map 4 Level 170-200: Omega Sector UFO H03 Level 100-108: Rush/Dark Rashi Level 108-125: Robo Level 125-140 : Lunar Rabbits Level 130-150: Goblin House Level 145-165: Kerning Tower Floor 5 Map 1 Level 150-165: Stone Colossus (Godmomoan and Bloody Mantis) Level 160-190: Showa City Armory Level 160-170: Road to Oblivion 4 Level 165-180: Knight District 2 Level 170-185: Omega Sector UFO 202 Level 175-190: Knight's Camera 5 Level 180-190: Swollen Stumps (Desert Hills) Level 185-200: Forgotten Excavation Site 2.3, Level 200-210: Scrapyard Hill 5 Level 200-220 (210-220 Reboot): Black Heaven Deck Level 200-220 (210-220 Reboot): Level is the top of the world tree ARCANE RIVER: Level 200-205: Mad Erda or Garden Erd Level 200-200-205207: Burning Erda or Soul Erda Level 200-210: Tranquil: Tranquil Level 200-210: Followers of Armagh Level 200-210: Soul Erda Level 210-220: Beatty Bobble Forest Level 210-225: Slurpy Forest Depths Level 210-225 : Torrent 3 Level 215-225 Whales: Mountain Level 220-230: Chicken Depths Level 210-225 : Torrent 3 Level 215-225 Whales: Mountain Level 220-230: Chicken Depths Level 210-225 : Torrent 3 Level 215-225 Whales: Mountain Level 220-230: Chicken Festival 2222 Level 220-230: Revelations 3 Level 220-230: Busy Dance Floor 1 Level 222-230: Clock Tower Level 225-240: Frost and Thunder Cloud Spiri Level 225-255: Arkana Cave Level 230-255: Shadow Hall Level 2330-255 : That day in Trueffet Level 235-260: Mirror Touched Sea Level 235-260: Temple of Light Level 245-265: Boundaries of Thought 2 Level 245-265: Wave void Level 250-270: Maze of Suffering Level 255-275: Limina Questing (level 30-30-level 200): Level 30-40: Ellinef Fairy Academy Level 35-50: Golden Beach Level 50-60: Rienia Strait Level 60-70: Mushroom Castle Level 75-90: Afterlands Level 95-110: Ellin Forest Level 100-11015: Athena Grandume Level 115 -125: Lion King's Castle Level 120-125: Fantasy World Level Theme 130-140: Golden Temple - Level 130-140: Crimsonhart Castle (Required to Face Gollux) Level 145-155: Kerning Tower Level 150-165 : Stone Colossus Level 165-180 : Omega Sector (required to face Caoong / Omni-Cln) Level 175-190: Rave's Case Journal Level 185-200: Fox Valley Bossing/Dailies You Can Fight The Bosses Here, to get a good experience, that is, as soon as you can reach this level 50-60: Easy zacum (WARNING: SHARES DAILY ENTRY LIMIT WITH NORMAL WORLD) - Level 100 : Normal zacum (Find and use run in front of the queue) - Level 105 : Monster Park REBORN (Daily Entry Limit 2 PER WORLD. The game allows the player to purchase tickets with premium points at the box office. Player limited to twenty tickets per month) Level 130 : Normal Level Hill 140: Gollux (Mobs give a decent experience after a murder, as well as an easy mode having very poor health) Level 160 : Normal Horntail - Level 160: Chaos Horntail (Share daily entry limit with normal Horntail) , Decent funding is required, Newcomers will not be able to face this boss) - Level 180 : Madman Ranmaru (Decent funding required, Beginners won't be able to face this boss) Level 180 : Pink beans (may take moderate funding to kill, but will consume a lot of time) - Level 70-200: World P's Frequently asked questions now that you have an easy guide to follow, let's take a look at some of the frequently asked questions about Maplestory. These are some of the frequently asked questions about the Maplestory Is Maplestory a reboot? Yes, Maplestory has a reboot server where Nexon removed most of the payment to win items in the game. It certainly makes alignment easier, but it takes a long time as well. Basically, you'll have to grind hard farms for Mesos instead of paying for things like the server's rules. Players in non-reboots, however, are awarded more in-store outlets with items such as additional inventory slots, exp coupons, pet food and even more. Is the Maplestory reboot better than not Well, it depends some people prefer the reboot version, others prefer normal servers. In conventional servers, you have to pay to pay instead of wasting hours of farming for Mesos. Some will argue that it is much easier farming for Mesos especially if you have pets. So if you have money to spend, you can go to normal servers that take less time to progress. If you don't have extra cash and have time on your hands to farm for Mesos, then you should probably go for a server reboot. Why is the Maplestory reboot popular? I think it's pretty much straight forward, it's not expensive. Players can farm for Mesos, which people will find much more convenient than shaving to actually pay for it. The only thing you need is time because it requires a lot of grinding. Is it worth playing a MapleStory reboot? Of course, the game is still worth playing, especially if you still love this classic. As I said before, it doesn't require you to spend as much time as you put in time and effort to farm for Mesos. Is Maplestory 2 better than Maplestory? Well, the game is definitely different from the original. Developers have changed it from a side scrolling game with pixel graphics and embraced the modern block-like look that is more popular among sandbox games today. The game involves less grinding than the original and focuses more on story quests that are a must for your player to align. Why did MapleStory 2 die? Unfortunately, the game servers for this sequel to the original classic were closed for good on May 27, 2020. The reason for the stoppage is that the game did not live up to its expectations, and this was bad news for die-hard fans of this game. However, the original game is still online, which is good. Is Maplestory still popular in Korea? As of 2018, Maplestory was the 4th most played in Korea, so yes, it's still popular. We must of course pass it on to the developers to keep the game alive for so long. Of course, they should constantly update the game by adding patches and events. What is the best class in MapleStory? There are basically five roles in Maplestory : Warrior, Magician, Thief, Archer, and Pirate.The best classes in each role are: Blaster for Warrior role, Kinesis for Class Mag, Nightwalker for thief role, Pathfinder for archer role and Angelic Buster for the role of pirate. Is it worth playing Maplestory M? Whether you still enjoy playing the game or doing it purely out of nostalgia, Maplestory is definitely worth playing. This is a game that can keep you busy and emotionally invested for hours at least. Ultimately, whether the game is worth it is entirely up to you. That being said there are quite a few people who are still playing to date, and his community never seems to die. Takeaway Well, people who have been Summary of The Maplestory Reboot Level Guide. You can also check out this Maplestory Skills guide or this Maplestory quping guide for more information. Happy grinding gamers. Homes at Home The MapleRoyals' help and a guide to the guide, launched by Joon, is October 6, 2019.
