We share only original APK files. You can download and install the latest version of Mini World: Block Art APK on our direct download link. This page features apk Mini World: Block Art 0.48.2. It's a free app that appears in the Adventure Apps category. Use the download button at the top to download this APK. The app sets: 5,000,000. Minecraft is without a doubt one of the most successful video games of the past 10 years, with legions of followers who seek to build, survive and craft in an endless universe with almost any device including Android smartphones and tablets, iPhones, iPads and PCs. That's why it makes sense for clones to come out that try to replicate the gameplay that took the name Mojang to the top. Build and destroy your own world without any restrictions. And one of the last to do so, and in a more than acceptable way, is the mini-world: Block art, an APK game that is also available for Windows, which is presented as a three-dimensional sandbox game in which we can unleash all our creativity, building as we please, exploring the endless world and experiencing the possible dangers that lurk. The main features of the mini-world sandbox adventure game are similar to Minecraft, in which you can explore and build whatever you want. There are three modes of play available: classic, survival and creation. More than 1000 items and hundreds of different blocks to build and craft anything from houses to castles. Create your own tools and weapons such as axes, swords, shovels, machine guns, bows... Survive the animals and monsters that inhabit this new world. Dozens of mini-games in the app, from puzzles to strategic games and FPS. Save your coolest creations in your gallery and visit those of your friends. Play only in your own world or in multiplayer mode with other users.
