Display Navigation Global USA (en) Downloads Contact us Z6_0IDCHAS0LGQ010ARONFT9C2GU2 - Bizhub C224e brings you powerful features conventional printer/copying can't equal - 22 ppm output in both colors and BWH, additional one-aisle double scanning, modular trim options and an extended control panel that's as simple as operating a tablet PC. The current bizhub C250i. 22 ppm Output in Color and B'W Extra Double Scan at 160 opm 3,650 sheet Maximum Paper Capacity Improved Multitab Interface Print/Copy Output up to 22 ppm in both colors and B'W speed your work Extra double pen scan up to 160 originals per minute Improved INFO-palette design with multi-touch interface for fast, fast, The intuitive work of the Big 9 color display allows swipe, drag and drop, click, switch and finger pinch Transparent menu, Customizable icons, improved soft 3650-sheet soft keyboards of maximum paper capacity in a wide range of sizes and scales, including the print support tab of downloadable applications to improve performance low cost work with energy efficiency optimization and on-screen eco-indicator to monitor paper, toner and energy-loading applications from our Konica Minolta Marketplace to improve performance. A 50-a-list Staple Finisher with an 80-page solution booklet and a kick kit of Space Saving options 50-a-list Inner Staple Finisher for automatic convenience finish in a less-square-area Paper Feed Unit with 2,500-sheet capacity in various sizes and weights of Super G3 Fax option for high-volume fax and i-Options acceptance for file conversion format in PDF and Office Open XML formats Increased PDF security, OCR font support and more External 10-Key Pad for a quick alpha annuity data entry authentication units for HID Proximity Card and HID iClass Card Magnetic Stripe Maps Reader Extra Content Home qgt; Printers - Konica Minolta Bizhub C224e Guide / User Guide Konica Minolta Bizhub C224e Konica This document contains instructions and explanations for everything from setting up your device for the first time to users who still don't understand the basic function of the camera. User guide: zenith, Brugervejledning, Use Guide, Patent Guide, Gebruikershandleiding, Brookerhundbock, Uvehador Guide, Anvendarhandb, 用户指南 PDF - stands for portable document format. PDF is a file format designed to consistently present documents across multiple devices and platforms. It was developed by Adobe 1992 and has since become one of the most widely used formats for conservation and exchange The PDF file can store a wide range of data, including formatted text, vector graphics, and raster images. It also contains a mock page layout of the page determines the location of each item on the page, as well as the size and shape of the pages in the document. This information is stored in a standard format, so the document looks the same, no matter which device or program is used to open it. For example, if you save a PDF on your Mac, it will also appear in Windows, Android, and iOS. The PDF format also supports metadata such as document title, author, theme and keywords. It can store built-in fonts, so you don't need to have the appropriate fonts installed to view the document correctly. PDF documents can also be encrypted, so only authorized users can open them. File size is a measure of the space a file occupies on a media, such as on a computer's hard drive. File sizes can be measured by bytes (B), kilobytes (KB), megabytes (MB), gigabytes (GB), terabytes (TB) and beyond. Original available for ADFLoading the original into the ADFReverse Automatic Document Feeder DF-624ItemSpecificationsOriginal types1-SidedThin paper (9-5/16 lb to 13-1/16 lb (35 g/m2 to 49 g/m2))Plain paper (13-5/16 lb to 34-1/16 lb (50 g/m2 to 128 g/m2))2-SidedPlain paper (13-5/16 lb to 34-1/16 lb (50 g/m2 to 128 g/m2))Mixed originalPlain paper (13-5/16 lb to 34-1/16 lb (50 g/m2 to 128 g/m2))Original Size1-Sided/2-Sided Originals: 11 17 to 5-1/2 8-1/2 , A3 to A6 Original loading capacity1-Sided/2-Sided Originals: Max. 100 sheets (21-1/4 lb (80 g/m2))Dual Scan Document Feeder DF-701ItemSpecificationsOriginal types1-SidedThin paper (9-5/16 lb to 13-1/1 Plain paper (13-5/16 lb to 43-3/8 lb (50 g/m2 to 163 g/m2) 2-SidedPlain paper (1 Mixed originalPlain (13-5/16 lb to 34-1/16 lb (50 g/m2))Mixed originalPlain paperlain (13-5/16 lb to 34-1/16 lb (50 g/m) Original size1-Sided/2-Sided Originals: 11 17 to 5-1/2 8-1/2 , A3 to A6 Original capacity1-Sided/2-Sided Originals: Max. 100 sheets 21-1/4 pounds (80 g/m2) Don't download the following originals in ADF. This can cause the original paper to be hushed, or damage the originals. Wrinkled, folded, curled, or torn originalsSupline translucent or transparent originals, such as OHP transparency or diazo photosensitive paperCoated originals such as carbon-supported paperOriginal, that are less than the main weight of 9-5/16 pounds (35 g/m2) or more, than 34-1/16 pounds (128 g/m2) (Reverse automatic document Feeder DF-624) Original, which is less than the base weight of 9-5/16 pounds (35 g/m2) or more than 43-3/8 pounds (1 63 g/m2) (Double scan document Feeder DF-701) Originals that are related, for example, staples or paper clipsOriginals that are bound in booklet formOriginals with pages linked together with glueOriginals with pages that have been cutouts removed or cut-out sheetsLabelset print masters if there are Lots of original sheets that can't be downloaded to the ADF at the same time, you can download them in multiple batches and handle them as a single job. For The For refer to Here.For the original with pages of different sizes, you can collectively upload them to ADF, and scan the data when the size is found for each page. For more information, contact Here.The ADF channels the original sheets one by one in order to top, and automatically downloads them. It also downloads the two-way original automatically. ADF is useful when downloading a large number of the original. Expand the side guide.Put the first page of the original at the top, and load the original into the original Tray with the desired face up side. Download the original so that its top side is placed at the back. When downloading in a different orientation, be sure to specify the download direction of the originals. For more information on the direction of downloading the originals, check with Here.Do not download more than 100 sheets at a time to the original tray, and do not load the sheets to the point where the top of the stack is above the mark. This can lead to original jam, damage to the originals and/or ADF failure. However, if the original contains more than 100 pages, it can be scanned separately. Slide the side guide to match the loaded original. v4.00.00 Konica Minolta Bizhub C224e/C284e/C364e This guide is in PDF format and has detailed diagrams, photos and complete procedures for diagnosis and repair copied by Konica Minolta Bizhub. You can print, enlarge or read any chart, picture or page from this maintenance guide and guide to the list of details. Each chapter of this manual is fully detailed and contains all the modeling codes, problem codes, maintenance procedures, reset procedures, Konica Minolta Bizhub C224e/C284e/C364e photocopy diagnostics.
