What are Levequests? Leve quests are repeatable quests that you can do to get different rewards. To start Levequest, you must first have Leve Allowance to spend. To start Levequest, review the entry in the quest log and click the Initiate button at the bottom. I know what levequests are, I need Levemet's seats!, OK... Ok.. Scroll down to this. Where is the crafting/levez collection!? Do we have that too Grand Company locations? Click here for Unlocking Levequests: All Levels 1 and 5 Levequests are automatically unlocked after unlocking the Levequest system. Leve quests open every 5 levels from level 1-45 and every 2 levels from the age of 50. Starting from the 10th level, each batch of Levequests must be unlocked by talking to the respective Levemete. They give you a trial Levequest (doesn't reduce the surcharge) to prove that you are ready for the task. Unlocking new Levemetes are an excellent indicator of where you should be aligning. Leve quests open every 5 levels from level 1-45. You can also take any Levequest in the region you opened through Levemetes in the Adventurers Guild (where your room is inn)Some types of Levequests allow you to scale their difficulties. You can choose the difficulty of up to 1 to 4 euros, usually adjusting the monster level. Naturally, by increasing complexity, the rewards also increase! How often can I get lion allowance? You receive 3 Leve allowances every 12 hours. What are the different types of Levequests? Battlecraft Leves The most common type of levequest, they give EXP for combat (War Apprentice or Apprentice Magic Classes). Their complexity can be increased and can be performed in a batch. Doing this in groups makes even the No.4 difficulty of Levequest extremely easy, and great for farming a quick EXP. Tradecraft Leves These levequests provide EXP for crafting (Apprentice Hands) classes. They usually include the representation of one to three points in the NCPC. Sending a high quality item triple the exp received. Some Tradecraft Leves will actually refund your surcharge if you submit all the elements of headquarters! You can't scale their difficulties, and can only be performed solo. Fieldcraft Leves receives EXP for ground class students. They can be scaled in difficult situations, but cannot be carried out by groups. Keep in mind, however, scaling the difficulty of Fieldcraft Levequests needs to be done carefully. Collecting materials well above your level can lead to a lot of time and exp lost! (Failed fees, low chains). The great company Leves is similar to Battlecraft Levequests, they must be made using a combat class. However, EXP and Gil's rewards for them are much smaller. The main reward for this is the Seals of the Great Company that you will receive. It has to be done alone, be magnified in a difficult position. Levequest / Levemete LocationsYeah, I know how you feel. Need a little quick EXP, but you don't know where the nearest Levemete is? Here you go. (Below is a sorted table of levemete information. In the top right of the table is a search filter.) Grand Company Leves is considered one of the best ways to use them (as long as you need fillings). They are extremely useful when aligning the second class when you have exhausted quests throughout the area. Where are the CraftIng Places?
