Myra. Of these 3, as the name suggests, 2 of them must have a 5G connection. U.S. government. Gio Gio with Google Jio announced at its annual general meeting back in July that Google will invest ₹ 33,737 crores for a 7.73% stake in Jio Platforms. Thus, the total investment in Jio Platforms ₹ 1 52,056 kronor. This investment is actually part of the Google For India fund, where Google claims that it will invest 75,000 rubles in Google For India's digitization fund. At the time of the announcement, Jio also announced that it was working with Google to launch new devices that would run on Google Android Go OS, which is made and optimized for entry-level smartphones. These new smartphones will also have features that will be exclusive to India and optimized for Indian consumers. Jio Orbic Expected launch date for the new Jio Orbic does not currently have an official launch date, but the company is expected to announce new devices by December.
