Important chapters from Class 11 Syllabus to IIT JEE 2019 Embibe academic experts have divided the chapter based on the ratio of how much weight from how much contribution (efforts to learn and understand) they require. Light Chapters - High Weight, Low Effort This is the most important group of chapters. They are mandatory for each student to complete carefully. It is advisable to start with these chapters because they are high weight and also easy to study. Difficult Chapters - High weight, high efforts These chapters are tough, but cannot be ignored because of their high weight. After simple chapters, they should be next on the list for students. Efforts must be made to crack these chapters. Light Chapters - Low Weight, Low Effort These chapters that require low effort, but these chapters carry low weight. Students should prepare them when they have time left after the first and second. Difficult Chapters - Low weight, high effort is recommended to allow students to first focus on the above 3 sets of chapters before you start even thinking about these chapters. They are tough, but they carry a very low weight, and can even be ignored if there is a limited time. You can see the subject wise to break down important chapters according to their weight and input required in detail of the ED.
