Whats New: Includes various fixes and improvements to improve your experience with Rosetta Stone. Mod Info: Premium Subscription Unlocked; Disabled / removed unwanted permissions + receivers and services; Analytics / Crashlytics disabled. Google Play Have you ever learned a new language on your own and have it been difficult for you? Do you feel like you spend a lot of time studying and practicing, but you don't notice any progress? There are many reasons to explain this: your learning is not organized scientifically, the lack of practice, the lessons are too long to remember, or your learning space is tight and makes you feel uncomfortable. Understanding the problems of learning language, Rosetta Stone has developed and released software for learning English online: Rosetta Stone: Learn Languages. If you are a person who wants to learn a new language and is in trouble due to some of the above issues, Rosetta Stone: Language learning will be an indispensable tool to support and help with progress. What can the Rosetta Stone: Learn Languages app help you? This app primarily helps its users develop the speech ability to communicate in the most natural and flexible way. The app uses advanced Voice Recognition Technology TruAccent, which won the Academics' Choice Smart Media Award in 2014 and Users' Choice at the Tabby Awards 2014, to help you practice your native English voice. Rosetta Stone said that the purpose of language communication and language learning requires good communication. In addition to pronunciation and communication skills for users, this app also provides grammar and vocabulary lessons to improve literacy. Currently, this app is developed in more than 20 different languages: Italian, French, Spanish, German, Chinese, Arabic and many other popular languages. Start a lesson Lessons at Rosetta Stone: Language learning is designed pretty briefly and you only need to spend 10 minutes a day completing them. Each lesson will include the knowledge of all four skills: listening, speaking, reading and writing. After school, you must also use all four skills to complete the assigned exercise. The exercise system will be thoroughly studied. If you are grammatical, the system will highlight your error and you must do it again. The system uses voice recognition technology to test your reading. If pronunciation/reading is not correct, you cannot perform the tutorial. Vocabulary, Rosetta Stone Grammar: Learn Languages has more than 3000 of the most popular vocabulary in the belt and in communication. During the learning study, the vocabulary will be designed in exercises and images/sound, which will help you develop a better 300% cache capability. Grammar is also a very important part when you learn the language. When you have good grammar, you will know how to ask questions and more politely answer questions. It also helps you to have more to communicate with. This app offers more than 160 of the most common grammatical structures, so you can easily process the information. You will also often use grammar to perform speech exercises and practice in this app. Developers who encourage learning need to practice. Many topics For good communication, not only do you have the opportunity to speak well, but you also need to create topics to make the conversation between the two more appealing. When you're talking to someone, you can talk about work, personal interests, the weather and more. The app has 220 themes that cover almost every aspect of life. It will give you structure and answers to a question in everyday life. You can rely on it to study or use these available topics to chat with a friend or AI in the app. After learning more topics you will always have something to talk about, and the ability to think in communication will also be important. Start a conversation To learn the language faster, you need to practice more. While studying lessons about Rosetta Stone: Learning languages, practice with the system: communicate, practice pronunciation and be in a state of listening, and listen a lot. After a while, you've prepared the necessary things so you can start simple conversations. You can communicate with friends or homesick people. Start from simple things like greeting, presentation, personal interests and listening to their conversations. Learning a new language isn't really hard when you have a scientific approach and you're always practicing. Rosetta Stone: Language learning will be an excellent support tool for you in the language learning process. The app is free to download, but the courses will be \$209. However, if you download Rosetta Stone: Learn the languages in this article, you will unlock all courses and use it for free. Free.
