Everything seemed great. His test results were good and he was in some advanced classes. We moved this year and found out that what he learned in the FT is drastically behind what is expected in his new school. This is most obvious in mathematics and science. He is now pulling a double duty catchup which is odd as he was advanced mathematics at ft. On the positive FT he was very friendly, albeit a little too PC and pandering to all the noise of his parents. My advice to Jackie is not to hold back the entire class for a few slow students, keep an eye on some of the tenures of the stand, and it would be nice to have some gender diversity in the ranks (99% of women in teaching and admin places). Posted on May 25th, 2014 Presented by other best school ever without a doubt! I loved every moment of Frenchtown. I would like to give special shoutouts to the principal and deputy director to do an excellent job of planning and planning events. I would also like to say that teachers are extremely caring and loving. Teachers are the highlight of the school. A 5th grade teacher, Ms. Demshak inspired and cared for the children and would certainly like to thank her. I will never forget this amazing school. This unique Posted January 19, 2014 Filed by a Parent School is spectacular, the teachers are great. After moving from CT two years ago, where my two children went to the French city, grief is the only thing I can say. Frenchtown is the largest school in history, and the movement was a terrible experience and a terrible downgrade that I will regret for the rest of my life. I keep my fingers crossed so that we can move away from this boring school soon and distance ourself from this bad experience. BTW are seriously retreating to move our children out of their current terrible school and put a smile back on their faces in the French city of El. Posted on August 21, 2012 Presented by others I am now in 6th grade at Hillcrest Middle School. I went to Frenchtown for 6 years. Let me tell you if you want a good school not to come here. This is an awesome school with only the best teachers and the best rule of Ms. Norcel. They teach Technology. They are also air-conditioned. \* School data provided by the National Center for Education Statistics, Pitney Bowes and GreatSchools. Intended for informational purposes only.
