In addition to the 65 channels you Hulu and Live TV comes with the original Hulu on-demand library! This is good news for cord cutters. Hulu's on-demand platform is similar to Netflix, allowing you to watch literally thousands of different TV shows, movies and exclusive Hulu Originals. This service is available as a standalone offer for \$5.99/month, but it is included for free to Hulu Live subscribers. How does the Hulu channel list compare? How does Hulu Live channels compare to competition? Currently, competition consists of competing streaming services such as ATT TV NOW, Sling TV and others, as well as traditional cable/satellite providers. So how does Hulu stack up? For fun: Hulu is pretty good. There are a lot of great entertainment networks like ABC, CBS and FX, but there's also a couple missing. For example, AMC, Hallmark and Comedy Central are large channels that remain outside the Hulu channel line. That being said, Hulu offers some premium add-ons like HBO and SHOWTIME that can kick your plan's entertainment offerings up a notch. For families with children: Hulu is good. As for children's channels, Hulu provides the best channels such as Cartoon Network, Disney, Disney Junior, Disney XD and Boomerang. Some channels that are noticeably missing are Nickelodeon, TeenNick and Discovery Kids. However, the ability to link Hulu and Live TV to Disney and ESPN means that families can access Disney's exclusive on-demand content for less. For sports fans: Hulu is a clear leader. All the most important national sports channels are included, but where Hulu really shines in local and regional sports coverage. Hulu covers more local channels (NBC/FOX/CBS/ABC) and more regional sports channels than any other service. For news: Hulu is very good. Hulu Live covers all the most popular news networks, and even includes some coverage of international

news. Priced: Hulu and Live TV are great. The \$54.99/mo rate is pretty standard in the streaming industry - although it's still way cheaper than cable! While Hulu's prices are in line with the competition, it adds significantly more value with Hulu's on-demand library. This on-demand library competes with Netflix's choice, and is free for Hulu subscribers. Our hot takeAll's, Hulu is one of the most comprehensive services. As for the bang for your buck, adding an extensive Hulu library of on-demand live TV subscriptions increases the cost of the service. While the Hulu channel list is average when it comes to entertainment, a variety of sports offerings, local channels and available add-on channels set Hulu apart. To really see how Hulu stacks up, check out our other channel list guide: Live Guide - which is currently Desktop-only - works like a traditional TV guide, displaying the time and duration of the shows available on Hulu's Live TV. Live TV Service users stream channels like ABC, Fox, NBC and CNN over the Internet as part of their Hulu package. To access the Live TV Guide while watching Hulu online, hover over the three-line icon in the bottom left corner of the player's bar. It will show live shows by channel and time, and can be filtered into categories like sports, movies, news or kids. It's soon on other devices. There's another Hulu feature rolling this week as well: 4K streaming is back on fifth generation or later Apple TVs and Chromecast Ultra devices. 4K streaming was previously available for a small selection of shows on Hulu, but it was removed last year. Now, 4K is back, but only for Hulu Originals programs (such as Handmaid's Tale, Harlots and Catch-22). The company said it intends to expand its ultra-high-definition content library in the future. Check out the new and improved Live Guide to let us know what you think!
