WhatsApp Plus is the best modified app for Android devices that has more amazing features than the original messaging app. In this app, you can hide blue ticks, online status and the ability to download stories. You can also choose or customize your own theme from thousands of amazing themes in different colors. And the more features presented below, WhatsApp Plus Anti Ban Features Hide Online Status, Blue Tag and Profile Image Also Hide tick and second tick Hide the last option seen for each contact It can also hide the kind of status of contacts After recording the voice, hide the status of the group recording and contacts There are video and audio call in HD Can set various topics Send large files such as audio or video Increases video restriction in status Can you change the icon of the launcher Has the function of quick sharing Get a notification if there is a new Update Requirements Since you need to download and install it outside of the Google Play Store, you need to change your settings a bit. In the beginning, you need to include the unknown source option in the phone configuration. Then download WhatsApp Plus apk on your Android device above. When the download is complete, open the downloaded file in the notification bar. And press the installation button and wait until you complete the installation process. Once the installation process is complete, you can start it at the device's home bar. Is It Safe to Use WhatsApp Plus? Many people think it's not safe to use it. Because it's a modified version, the developer of this app can change the code and steal your personal data. But this WhatsApp Plus apk file is absolutely safe for everyone. Despite this, your personal information will be safe. What to do if banned? This latest version is completely anti-ban, which means you won't get a ban from the WhatsApp team. Unfortunately, if you are banned for any reason, see the guide below on what to do for it. Open your email and write a protected email letter in the sending option. Write down your problem when you access the message box and send it. What's new in this latest issue? All errors have been corrected. The anti-prohibition system has been improved. New additions to emoji, customization design, launcher icon, notification icon and change log. Added Hindi, Spanish, Italian, Indonesian translation, etc. Always try to use the latest version if you want to avoid the ban. Tech Info Download Similar Apps for WhatsApp Plus 8/10 Version The app has as differential features of privacy and interface settings. Pedro.CCM WhatsApp Plus is the APK version of a messaging app with the same features as the original version added to others that bring greater privacy to your conversations. Remarkably, it uses the source code of the original application without permission. Thus, installing this app can lead to an official WhatsApp ban, which cancels accounts that use modified versions. It offers, in addition to the functions of the original application, more options such as a password for conversations and hide status that may actually contain more characters. Another feature of this version is the ability to customize the messenger interface with different themes and colors and even make it transparent. One of the advantages of using a modified app is sending and files with more than 700MB (much more than a standard 100MB application). It also integrates a help guide to help the user understand how the app works and is compatible with Android 4.0.3 or above and Windows computers. You'll need to include unknown fonts in apps and apps that aren't Google certified on your phone. WhatsApp Plus is an unborn application may have bugs that will not be supported for the job. The site offers topics of help, although they do not open. The site can be aired without notice. Alternative Spelling: WhatsAppPlus_11-12.23.20.3.Release_(Gplus.Net).apk, WhatsAppPlus_11.20.3.Release_(Gplus.Net).apk Last updated: September 17, 2020 at 6:05 AM. Decargar Ultima version de WhatsApp Plus gratisPrimero, vamos introducirte brevemente lo ques WhatsApp Plus, pues no es otra cosa que una de las aplicaciones m's famosas de la plataforma Android, Android y pesar de tratarse de un MOD no oficial de la aplicacion original, la tambi'n conocida como WhatsApp - o WhatsApp Plus Holo, est' registrar sem hist'ricos de descargas, puesto que al ser un MOD no oficial de WhatsApp 2020 , no podemos descargarlo directly desde la Google Play Store y tenemos que recurrir a sitios de terceros. We imagine that si has llegado hasta it's why you're interested in downloading WhatsApp Plus on your Android device, but unfortunately you don't know how to do it. If so, we have some good news for you as we provide you with a complete guide to be able to download and install WhatsApp Plus the latest version on your device step by step. Do you want to know how? Read... WhatsApp Plus status in 2020 (WhatsApp Plus APK JIMODS) As you well know, WhatsApp Plus is the order of the day this year and is that after months with some compatibility issues, WhatsApp somie, security issues and other issues that you already know about, WhatsApp Plus is stronger than ever this year. In case you didn't know about it, a much more powerful, secure and reliable WhatsApp Plus has appeared on the scene this year than in previous cases. We talked about what may not be otherwise WhatsApp Plus JIMODS.WhatsApp Plus JIMODS is WhatsApp MOD for Android devices, allowing you to enjoy the thousands of additional benefits that the official WhatsApp app available on the Play Store does not provide you, so the benefits of installing WhatsApp jIMODS are really huge. To download APK WhatsApp Plus JIMODS in its latest version, you just have to click on the link below and download the MOD APK file on your Android devices. Once this is done, you will just need to search for the previously downloaded APK file and install it on your smartphone. It's so simple and simple. Download WhatsApp Plus JIMODS APK? Download (link above) How to download WhatsApp Plus on Android's latest version of the first version you have to do to be able to download APK WhatsApp Plus on your Android device is downloading a popular fashion file and for that we have several options. As we said above, WhatsApp is not available for download in the Google Play Store, so we will need to resort to third-party sites to achieve this. Fortunately, it's very simple and WhatsApp Plus will download to your mobile device. Once downloaded, you get a fabulous .apk extension file that you will have to save as if it were a diamond on the outside map of your mobile device. Now let's forget about the file for a moment and move on to one of the most important steps to make the procedure successful: permanently remove the original WhatsApp app from your smartphone. Removing the original WhatsApp app to be able to download APK WhatsApp Plus 2018, is one of the most important steps when installing unofficial fashion because we can't have both apps at the same time installed on the device. However, you don't have to worry about anything because WhatsApp Plus will work just like the app did Much better!! Remember! Get rid of your app before installingPues well to remove WhatsApp from your device, you must first go to android smartphone or tablet menu settings and click on Apps or App Manager (the name of this option may vary slightly depending on the model of the device you have and the Android version you were using at the time). Once inside, we'll see a list of all the apps and games we've installed on the device, so you only need to search the WhatsApp app, click on it and select the Delete option. Perfect!! Our Android smartphone is already free of WhatsApp, so we no longer have any obstacles to download WhatsApp Plus APK and install it on your device. To do this, we will first have to go to Settings and click on the Security tab. Once inside the security tab, you'll have to find an option called Unknown Sources and activate it, as this option will allow you to install the .apk file downloaded earlier. Now we just have to access the SD map of our Android and search .apk file that we downloaded earlier and click on it to install WhatsApp on our favorite smartphone or tablet with Google operating system.We wait a few seconds for the process to finish (don't be impatient, good end coming) and... Ready!! We already have WhatsApp Plus installed on our Android mobile phone!! Didn't it work properly for you?... Read... In the midst of so much explanatory text, you may have missed somewhere or mistakenly missed any of the steps above... Don't worry, here's a very clear plan for the most important points you need to follow if you want to download WhatsApp Plus, the best instant messaging app in the world, and install it on your Android smartphone or tablet successfully. Remove the official WhatsApp app from your device. Download WhatsApp Plus on your smartphone or tablet from a third-party store or a link we left to you earlier (WhatsApp Plus JIMODS). Save the downloaded file (format.apk) on your smartphone's SD card. Go to qqt; and include Unknown Sources. Get access to the SD card and click on the .apk file to install WhatsApp Plus Holo (or WhatsApp Plus, or WhatsApp). Wait a few seconds and you're done! With these simple steps we can now complete our complete guide to download WhatsApp Plus and install it on your Android device. Do you have any questions? Tell us your case and we will try to help you in everything that is for you WhatsApp Plus Reborn is the solution to all your problems as many of you already know, a new WhatsApp called Reborn was born, allowing us to continue to enjoy the benefits of the Plus version of WhatsApp on any compatible Android device. This one continues to be updated periodically and is now in version 1.80 in which free WhatsApp voice calls have been included, as well as a redesign with the material design of the latest versions. So, if you want to download WhatsApp Plus 5.90 you are in luck, because if you get access to the link that we left you a little higher, you will be able to correctly install WhatsApp on your Android smartphone and enjoy the benefits of having the most advanced WhatsApp MOD in the world. Do you want to know the different types of WhatsApp Plus in APK? Next, we're going to provide you with the different types of WhatsApp Plus that exist so far. And it's that in addition to WhatsApp Plus Reborn in its various versions (remember that 1.90 is the latest today), an app worldwide known as Wasap, but which actually writes WhatsApp, has a lot of MOD that mimic the original plus version from Rafalense. Here we leave you the most famous of them and that at the moment continue to work without any danger of being banned by the messaging app. We leave you direct links whatsapp Plus APK files for you to download directly to your mobile phone: There we go: APK WhatsApp Plus GB 3.8 (also known as GBWhatsApp Plus or GBWaplus) - this is a fabulous and unusual Android Whats MODApp that allows the user to access all the benefits of the plus version of the app, but with some modifications that make it just unique. No doubt it's a modern and current version that provides (and hopefully continues to do so for a long time) great joy for all users who have tried it. WhatsApp Plus Reborn 1.90 - as we said, this version is one of the most used by most Android users who want to enjoy real improvements and new features in their home WhatsApp app. So much so that this mod will allow you to hide WhatsApp that you are using it, so that your WhatsApp account is not in danger of being banned. In addition, it has all the features mentioned above, so no doubt it's one of the best options (but the best) that currently exists on the Google platform.Live a unique experience with the latest version of WhatsApp PlusAPK WAMOD - another alternative to WhatsApp Plus that will allow you to access a plethora of totally unique features and features that will make you feel like a real Plus Plus As mentioned, with WAMOD, you can send and receive full-resolution multimedia content (so that images and videos don't lose image quality when you send or receive), install and modify any theme you like for the WhatsApp app, access a host of new and unique EMOJI and emoji icons, and more... These are the three most famous MOD WhatsApp Plus for Android this year, however, we can not forget WhatsApp MOD, which is currently sweeping around the world. This is WhatsApp Plus JIMODS, as you might read at the beginning of this article. At the moment, in what we wore this year 2018 for Android, WhatsApp Plus JIMODS is the most stable and secure app in terms of WhatsApp Fashion for Android. Therefore, we recommend that all of you try this new and anticipated improved version of WhatsApp Plus JIMOD on your mobile devices and tell us in the comments below what your impressions were.
