Table of contents Do you love cats? Let's join The Battle Cats to join cute cats in the battle to protect the earth. Earth is experiencing economic crises, with terrorists being cats who have attacked the earth and set up a ruling regime. They occupy all nuclear power plants and transfer energy to provide time machines. This is not easy when it was prevented and attacked by many other animals. Simple gameplay Yes. The control mechanism in The Battle Cats is extremely simple. Often in most types of strategy games require you to calculate the strategy and plan carefully. This game is different, a fun cartoon style game that makes everything as simple and beautiful as ever. The Battle Cats is Tower Defense Game, where you have to defend your base through the cat army with so many eccentric shapes you've never seen before. Different cats have different powers, so you have to make the right choices. Your enemies are such formidable opponents that you have to laugh. They can be dogs, snakes, hippos, etc. When the animals seem to move to your base, over time you will accumulate a certain amount of money, then click on the icon of the cat you want to choose. Upon appearance, your cat will automatically engage in battles with any enemy they encounter along the way until they are defeated or killed. So all you have to do to win that is to look at the animals that attacked your base has some strength. Then you choose the right cat that has the power to counter the other animals. If your opponent is overcrowded and your money is not enough to choose the cat, then your special weapon is a very suitable choice. Special weapons you do a huge amount of damage to kill a large number of enemies on the map. Treasure is also very important that you need to collect as much as possible, it helps you create very strong items and increase the solidity for your base. Some notable points A thing that stands out from other games is the number of characters. In The Battle Cats, there are over 300 cats with funny looks for you to choose from when fighting. At each stage you can only carry 10 different types of cats. You make your cats stronger by leveling them up. When you reach level 10, the highest level at the moment your cat possesses tremendous power, much larger than the first level. However, the game lacks interaction between players. I think the game needs more PvP mode which allows players to challenge other players in 1v1 matches, which would be very interesting. terms of graphics, The Battle Cats has a simplicity in and nothing excellent, but it makes me really excited. The colors in the game are very bright, the animals are his by some basic strokes, but they look quite funny and strange. I think The Battle Cats is a good entertainment game not only about the game, but also the graphics. The game is also a great choice for you to play with kids to help them have a great view of the animal world. Currently, the game requires Android 4.0.3 and later and iOS 9.0 or later, so you can download completely for free. The Battle Cats APK is at its heart a tower defense game. You are instructed to break through the enemy defensive line while preventing them from breaking through yours. You'll meet them in the middle of the screen and fight with a diverse selection of cats. It's not the average tower defense game, admittedly. In fact, it is Weird. First of all you actually get control of the cats - although you don't have to check them all the time. Level them kitties up The more you play, the more XP you earn. You then spend this on leveling your cats. Once they have reached level 10, they will evolve into noticeably more badass badass The game isn't too focused on statistics, though - you'll just see that they beat opponents faster. Upgrade your penny generator The penny generator is your primary way to make money during fights. You have to earn in the heat of battle so you send in reinforcements if things get a little hairy. Upgrading your penny generator will allow you to earn money a lot faster, making you more likely to win every fight. Shoot your cat cannon... your cation... The cat cannon is the best weapon you have in the game. It's the one that turns the tide of battle over and over again, so make sure you use it properly. Of course, like all powerful weapons, it takes time to recharge. You'll need to upgrade your cat gun regularly to shorten load times, improve the damage it's doing, and extend its range. Put your cats to study The cat study allows you to earn more XP points at the end of each level, which goes a long way to helping you to achieve your goals in battle and beyond. Be sure to upgrade the cat study often to maximize the benefits of this. You time-lapse Time lapsing is a common thing in games. It's where you get out of the app and go into your phone's settings to change the time in the future. This allows you to earn a lot of energy, which you then use to invade more parts of the world. The thing is, most developers consider this cheat when they make their games, and they are no more than punishing players for doing so. If you really need some energy, use the time lapse, but don't overs. The Battle Cats mod APK - Unlimited money + cat food Ready to take your cat army to the farthest reaches and conquer the world? Want to play: Pet Rescue Saga Mod Apk Reviews Of Game Huiyin Tay: It's a very, very nice game. I have so much to say, but I don't know how to explain, but if I can choose I would recommend a lot because it's a very great game that I think everyone should support and ya it's very nice though. It's a game my friend recommended for me and I've been playing for at least 8 to 9 months and I appreciate how the creator had this game cats vs dogs and theres 3 stories and although im still on story 1 chapter 3 I hope the next update they will make more stories. Thanks Neko Koishi: This game is just amazing. I love strategy games and this is probably one of the best strategy game I've ever played. I have invested more time in this game than any other strategy games. This game is stupid, cute, and it's generally a fun game. Keep up the good work PONOS. Anios Arkhangelisk: I probably spent hundreds of dollars on this game, it's like an addiction, but in a good way, I've had a lot of things to type about and not enough space to do but I'll type this, I'll have so much fun, made memories and gotten ridiculous rewards and lost so much, there's some things I can even suggest that could make the game better, but that's just me, honestly this is a great game and I absolutely love the designs and I hope to get a lot more in the future, cheers PONOS you did it great.
