We apologise for any inconvenience caused. Your IP address was automatically blocked from accessing the Project Gutenberg website, www.gutenberg.org. This is due to the fact that the geoIP database shows that your address is in Germany. Diagnostic information: Blocked at germany.shtml Your IP address: 176.9.137.118 Referee Url (available): Browser: Mozilla/5.0 (Windows NT 6.1) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/41.0.2228.0 Safari/537.36 Date: Monday, 19-October-2020 01:16:19 GMT Why did this block happen? A court in Germany ruled that access to some items from the Gutenberg Project collection was blocked from Germany. The Gutenberg Project believes that the Court does not have jurisdiction over this matter, but until the matter is resolved, it will comply. For more information about the German court case, and the reason for blocking the entire Germany rather than individual items, visit the PGLAF information page about the German lawsuit. For more information on the legal advice the project Gutenberg has received on international issues, visit the PGLAF International Copyright Guide for project Gutenberg This page in German automated translation (via Google Translate): translate.google.com how can I get unlocked? All IP addresses in Germany are blocked. This unit will remain in place until the legal guidance changes. If your IP address is incorrect, use the Maxmind GeoIP demo to verify the status of your IP address. Project Gutenberg updates its list of IP addresses about monthly. Sometimes a website incorrectly applies a block from a previous visitor. Since the blocks are applied for a moment, you should try again later to visit if Maxmind shows your address as being outside Germany.If your IP address is shown to Maxmind being outside Germany and you have been momentarily blocked, another problem is that some web browsers mistakenly cache the block. Trying another web browser can help. Or, clearing the history of your visits to the site. I have other questions or need to report the error Please email the diagnostic information above to help2020 and pglaf.org (removing the gaps around q) and we will try to help. The software we use sometimes will cause false positives, i.e. blocks that shouldn't have happened. Apologies if this happened because human users outside Germany who use e-books or other site features should almost never be blocked. Last updated: January 28, 2020. (Grateful recognition is given to Melanie Maksin of Yale University Library for permission to use the elements on this Font PreloadFont PreloadFont Preload 1 LEAGUE NATIONS 2 3 Whose idea? The League of Nations was the idea of Woodrow Wilson, president of the United States in 1919. At the Paris Peace Conference 4, Wilson's idea was to countries could never start a world war again He wanted to make sure that countries talked about their problems, not fight 5 It was decided that an organization called the League of Nations should be createdThis would be an organization that would try to promote peace in the world It was hoped that it would stop countries from adopting secret treaties or agreements 6 As the league worked if any countries had problems that they will try to talk out If this did not work and the country was attacked, other members would go to its aid The League would also want to help solve some of the problems of the world: for example, Poverty, Drugs etc. 7 Problem 1 The League did not involve the US its own army to put up any decisions. 10 Success of the Aland Islands L.o.N (1921) - Dispute between Sweden and Finland. Upper Silesia (1921) - Controversy about being part of Germany or Poland. Memel (1923) - Controversy over an area called Memel, which is mostly made up of Lithuanians. Turkey (1923) - The League failed to stop the bloody war in Turkey (see the failures of the League), but it responded to the humanitarian crisis caused by this war. Greece and Bulgaria (1925) - A dispute over the death of a Greek soldier and Greece invaded Bulgaria. 11 The League was too closely linked to the Treaty of Versailles, and many of those it mistreated were suspicious of the league. 12 Failures L.o.N Italy 1919First crisis the League was to face was in northern Italy In 1919 Italian nationalists, indignant that the big three, in their opinion, broke Italy's promises under the Treaty of Versailles, seized the small port of Fiume. The Treaty of Versailles gave this port to the Yugoslav Republic. For 15 months, an Italian nationalist named D'Annunzio ruled Fiume. The newly created League has done nothing. The situation was resolved by the Italian government, which could not agree that d'Annunzio was seemingly more popular than they were - so they shelled the port of Fiume and the violent surrender of the League of Nations did nothing. 13 In 1923, France occupied Ruhr (German land), but the League did not condemn the act. In 1931, Japan invaded Manchuria (part of China). The League failed to persuade Japan to withdraw, and Japan left the League in 1933. In 1935 Italy invaded Abyssinia (now Ethiopia) despite the economic sanctions of the League, but the League failed to act 14 These failures were often the result The League is a major institution of competing interests. Decisions often take too long to make decisions, and many countries, especially during the Depression, focus on their own problems and are unwilling to participate in other countries' problems. Moreover, the more powerful countries were indifferent to the institution and did not feel threatened by it. 231 Access 0 Altmetric metrics league of nations pdf download. league of nations game free download. ww league of nations theme song download
