Piano Tiles 2 - a fascinating arcade game on Android, in which the player will have to click on the running tiles, playing music. It continued to deteriorate in the first part, which received a lot of positive feedback not only from the players, but also from well-known critics and reviewers. The development is managed by The Company Cheetah Games, which together with Frogmind implements a project called BADLAND 2. The gameplay is very dynamic and rich. After choosing the song begins the game, where simple touches on the screen should knock down running on black tiles. During the touch tile plays a melody, and as for the down of them very quickly, the output of the composition. The goal of each level is to play the song. Management in Piano Tiles 2 can be called the most basic, which was not foreseen by any additional training of developers. All you have to do is accurately click on the running black squares. It is the reaction and agility of the user that determines the end result. The completion level is divided into 3 stages, which differ in the speed of the tile. Each stage is marked with a special indicator in the middle of the screen. In addition to the standard passing melodies there is a wonderful mode in which you can evaluate your skills. Set one of the most complex compositions, the result of which is determined by the average number of keystrokes per second. This result is compared to the record, and the user is assigned a certain rank. In general, Piano Tiles 2 is not much different from its predecessor, because by and large the gameplay has not undergone major changes. However, this app is recommended to install anyone who is not yet in time to try this wonderful arcade. Pure Master of Android 4.1 - Version: 3.1.0.1132 \$0 Piano Tiles 2 (MOD, Unlimate Money) - an interesting and very exciting infusion game. Which will check the speed of your fingers. There is a song that makes us feel excited and sad. Music is still present in our lives in many forms, especially in games. Some of the music games you mentioned are Osu!... You can just enjoy the game by listening to a song that you like. Here, I would like to send you a mobile game that is very interesting in music that is Piano Tiles 2. SuperFirst, referring to Cheetah Games players are quite impressed with their products released a lot on Google Play. Most of them are casual games with easy gameplay, and the game's operating system is simple. In contrast, this was the biggest weakness of this publisher. They don't have significant breakthroughs like piano titles. So this is still their most successful product to date. Part 2 of it also should come naturally. But in general, they do everything in their power. Thus, this product still meets the maximum requirements that the player offers both in terms of play and graphics. They retain their identity and provide new improvements to make the gameplay process smoother. #1 in the musical game About the Game, after the success of Piano Tiles, they will come to this version of Piano Tiles 2. Like the older one, the rules of the game are simple. You choose your favorite tracks and then click on the black boxes constantly falling from the top of the screen. One screen will have 4 lanes; The black note will fall randomly there. Make sure you can't ignore any black boxes, so the game will require quite a bit of skill in the match. Because it mimics the Piano keyboard, some of you may have mistakenly pressed the white key during the gameplay. But this is wrong; The player should touch the black button and not for the white button because it makes you lose. Over 10,000 soundtrack It makes you focus on the object, so it's less to make mistakes during the gameplay (because of the black is a perfect contrast to the graphics of the game). In addition, the game has a big big songs (from ancient songs to famous singers today) so you can find some songs that you like and play it in this game. But you have to use money or diamond to unlock the song. And you should know that the more famous songs like Alan Walker, the more money they have, the more money they have to buy from a particular store game. So you should carefully consider before buying offline. And music is always on the go, so producers are always focused on bringing the best experience to the players by updating every song on the market today. For information about the game, it is designed to be very attractive and easy. The game doesn't require too much device configuration, and the memory is too wide to store leaks so any player can install and experience. Because the higher the speed, the faster and harder it is to play, so the game requires high accuracy, as well as attention from the player. In addition, in some high-end games, there will be more gold notes (which is also the currency of the game used to unlock the song). They will appear random and distract players greatly. If you are too greedy or your fingers are not fast enough, you will definitely lose the cause of this many times. Games can be played offline and don't need the internet so players can play games anywhere and at any time to kill time or relieve stress. The article showed you the pleasure of this game. This game will keep you entertained well after hours of hard work. What's more, just play games and listen to the music that you like. Set the game to experience exciting moments and score high scores. Now you're ready to download Piano Tiles 2 for free. Here are some notes: Please check out our guide to installation. To check the Android device processor and GPU, please use the CPU-I app
