Agility used to be quite slow to train skills, especially at a lower level, but with the arrival of rooftop courses, this has changed a lot. This OSRS Agility GUIDE will mainly focus on using rooftop courses to reach 99, as this is the fastest way. However, we will cover alternatives as well. Use the navigation below to get to the current level! Update 2020: With the arrival of the hallowed tomb we now have an even faster method of learning agility from levels 72 to 99. Why you should train agility in the old school Runescape There is only one real passive ability in the old school Runescape and that is agility. Having a high level of flexibility is extremely useful for your account as your startup will recover much faster. If you've ever played on a score with a high level of agility and then created an ALT, you'll know how slow the energy of running is really recovering. Your running energy increases by 5-10% for every 7 levels of agility you get. Once you reach level 50 agility you will already restore energy twice as fast as when you are done at level 1. At 99, you're recovering 3x faster! In addition, by learning agility you will also unlock several shortcuts around Gielinor and once you have a graceful outfit your mileage will recover even faster. All this makes agility an extremely important skill that needs to be trained in an old school runescape as getting around quickly is very important. Recommended agility quests Before we start with the actual OSRS Agility Guide, here are some low-demand quests that give you a good boost of agility before you even get started, so you don't have to tinker with lower-level courses. Tourist Trap This is a relatively short quest with the only requirements of 10 fletching, 20 forge and the ability to kill level 47. This quest doesn't give the agility experience directly, but it does give you two lamps that can take your skill level altogether to 26. Great Tree If you complete the tourist trap, you can make a tree grant right after. This quest only requires you to have 25 agility and the ability to kill level 172 Black Demon (safespot possible) quest reward provides you with 7900 experience that will lead you to level 32. You can find more quests that promote your level of agility at the bottom of this guide to agility osrs. Marks Grace OSRS Each roof course rewards players with signs of grace that appear randomly as you complete the courses. These signs of grace can be exchanged for elegant pieces of attire or Analyse packages. The elegant costume is the first thing you want to get with these signs of grace is a graceful outfit. The full set will cost you 260 marks of grace in total and your weight is as low as -25kg. The full sleek set also provides you 30% quicker to restore the energy start-up. This makes the sleek lightweight outfit you can wear in osrs. Making a complete graceful perfect for hunting, quests, agriculture and many other activities around Gielinor that require a lot of running. The most effective way to hold your grace marks in the following order: the gloves of the hood of the hood of the boots of the cape of the qgt; the top of the legs. Amylase packs of Amylase packages are often used to make money with dexterity skill. For every 10 signs of grace you will receive 100 crystals of amilasa. Amilasa is an ingredient to endurance potions and thus costs quite a bit. You can sell them on a large exchange for 1300 coins each. This means that for every 10 marks of grace, you do 130k. Some rooftop agility courses such as Canifis and Ardougne give you up to 20 marks of grace per hour, so you'll make about 260k profit per hour while learning agility. To exchange the signs of grace for the graceful parts of the outfit or the packets of Amylase, you need to visit Grace in the lair of crooks in Berthorpe. Best food dexterity: Summer Pie Summer Pie is considered the best food for dexterity, as each pie gives you 2 bites, each of which heals you with 11 punch points, but you also get a temporary boost in agility and a 10% energy recovery. Summer pies can be bought on a large exchange and can be useful agility exp boosters, using them to access a higher level of agility courses. OSRS 1-99 Agility Guide This part of the guide will cover the fastest agility training methods in the old Runescape school with the usual rooftop agility courses. We also cover the sacred course of dexterity of the tomb below. Levels 1 - 20 Gnome Stronghold Agility Course for those who do not want to quest through the lower levels, you can get to 20 agility in the fortress gnome in about 30 minutes. Once you hit 10 agility you can switch to the roof of the village draynor, but I don't usually bother as it is the same amount of experience per hour. EXP Speed: 8K exp/hr Approximately time up to 20: 30 minutes Location Levels 20 - 30 Al Harid Roof Agility Course EXP Speed: 10k exp/hr Approximately time up to 30: 45 minutes Grace Signs per hour: 12 Levels 30 - 40 VarRock Agility Course EXP Rate: 14k/4 14k/hr Approximately time up to 40: 2 hours Signs of Grace per hour: 12 Levels 40 - 52 Canifis Rooftop Agility Course Requirements: Priest in Danger quest EXP Rate: 19k/hr Approximately time to 52: 4.5 hours Of Grace per hour: 19 Notes: stay here if you want to get a graceful outfit first. Levels 52 - 60 Wilderness Agility Course Although you don't get any signs of grace on this course, this is the best experience per hour at this level. Keep HP as low as possible here to avoid too much damage when you're not. This course does quite a lot of damage, so you have to bring food, summer cake is recommended. Since the course is located in the desert pkers may appear, but it is quite Of course, you don't have to risk anything as you should be as easy as possible. Exp Speed: 35-45K/hr Approximately time up to 60: 4 hours Wilderness Agility Course The wildlife course is located at level 53 wildlife. You can easily get here with a lever in Ardougne or Edgeville. Don't forget to bring a knife so you can cut the nets that block the path. Then just go southwest to the desert course, both by the photo. Levels 60 - 72 Seers Village Rooftop Agility Course On this course, if you want to have the optimal experience per hour, it is recommended to keep Teleport Camelot on you. Every time you finish the course, teleport to Camelot and you will be closer to the start point and thus get a higher exp bet. EXP Speed: 45k/hr Approximately time up to 72: 14 hours Signs of Grace per hour: 12 Seers Village Rooftop Course Location Seers Village roof course starts at the Village Seers Bank. You can easily get into the village of permeists, teleport to Camelot. Levels 70 - 80 Pollnivneach Rooftop Course Check out our Hallowed Sepulchre part below for a quick learning experience of agility in the game. EXP Speed: 53K/hr Approximately time to 80: 23.5 hours Signs of Grace per hour: 13 Pollnivneach Roof Course Location Pollnivneach roof course located in the town of Pollnivneach in the desert. You can get here using All Morrissean's carpet by paying her 200gp to take you. Or you can install your player-owned seat in Pollnivneach. Alternative: Levels 75 - 99 Priffdinias Agility Course Players who have access to the Priffdinias area can use the priffdinias agility rate from levels 75 in total to 99. Priffdinias is a great alternative to rooftop courses or even sacred tombs as you get a very good experience betting up to 66K exp per hour. Unique to the Priffdinias course are random portals that spawn, which, if used, can create a shortcut for you and save 5 to 10 seconds on your launch, thereby increasing the hourly rate of experience. You don't get signs of grace from the priffdinias agility of course, but you get crystal shards (about 15 per hour). You will stop failing this course of agility completely at level 91. If you have access to Priffdinias this agility course is definitely worth checking out, it's (in my opinion) a lot more fun than the usual rooftop courses plus the Priffdinias are just beautiful. Levels 80 - 90 Rellekka Rooftop Course EXP Rate: 55K/hr Approximately time to 90: 61 hours Grace Signs per hour: 16 Rellekka place on the roof course if you have completed the Fremennik tests you can use your enchanted lire teleport in Rellekka. In addition, you can set up your home owned by the player in Rellekka for an easy journey. The third option is to teleport to Camelot and go north from the village of Seers'. Levels 90 - 99 Ardougne Rooftop Course EXP Rate: 62K/hr Approximately time to 99: 124 hours Signs of grace per hour: 20 Ardougne roof course location Ardougne roof course over the Ardougne market. You can easily get here via the Ardougne teleport if you you completed the quest of the city of plague. You can take the boat from Port Sarim to Port Hazard and walk or you can start in Camelot and go all the way down. Update 2020: The fastest way to learn agility in OSRS at Hallowed Sepulchre With a recent darkmeyer update, we now have access to some brand new agility content: Hallowed Sepulchre agility course. The consecrated tomb takes a different approach to agility. On a regular agility course you usually just have to push around, the activity itself is rather thoughtless. It doesn't require much of your attention and can even be done while performing other activities. The consecrated tomb changes that. Here you have to actively work towards completing the course and it takes real skill and practice. It makes for a nice change of pace that we don't understand what we need for agility skill! The best part? You get higher performance experience than ever before in agility and you can make some serious money. Looting coffins will give you less dexterity exp/hr, but to greatly increase your profits. Requirement for the Consecrated Coffin: Sins of Father's quest Hallowed Sepulchre experience rates at level: Levels 52 - 62: 40K/hr Levels 62 - 72: 50K/hr Level 72 - 82: 60K/hr Level 82 - 92: 70K/hr Levels 92 - 99: 85K/hr Hallowed Sepulchre OSRS Videohyle Gnomonkey RS has made a complete in-depth guide to Hallowed Sepulchre agility training activities. If you are interested in exploring how the sacred tomb works, we 100% recommend you check out this video. So how can we get a graceful set quickly? To do this, we need to see which course gives you the greatest number of signs of grace. This, of course, depends on your level of agility. We have provided the number of grace marks you receive per hour for each roof course in this osrs dexterity guide. As you can see, the course of the ardougne roof gives the highest marks of grace in an hour 20, but it requires you to have a high level of agility of 90. Canifis however, only requires you to have 40 agility and gives you 19 marks of grace per hour. So, for a quick way to get a full sleek outfit, you should stick to the course of the roof canifis until you get the full set. How long will it take you to get a complete graceful set in Canifis? Assuming you follow this guide and have done Al-Harid and Varrock roof courses, you should already have about 30 signs of grace when you get access to the Canifis rooftop course at level 40. This means that you need another 230 signs of grace, which will take you a total of 12 hours to get. So you will need about 12-13 hours to get a complete graceful set using the canifis roof course. By the time you got the full graceful set, you had to get an extra 230,000 experiences, will put you at 59 agility. The quickest way to get pet agility is by training on penguin agility of course, this course has the highest drop rate and this is where most pet grinders come for their pet agility. Giving you -4kg weight loss and 3% faster start energy recovery. skillcape in the game, just after the running cloak. Summary: Osrs Agility Training Guide Hope this osrs agility guide was helpful and will help you in getting 1-99 agility as quickly as possible. Learning agility is not a very relaxed skill compared to others such as fishing and cooking. It is recommended to train agility gradually and not to try to get 99 agility from scratch. Use a lot of agility quests to your advantage and remember summer pies are the best food source for agility. Make sure to get your sleek outfit as fast as possible as a complete sleek set will give you a huge advantage when learning agility and make it a lot more Headache. The last piece of advice I would like to give you is to turn off the courses. Yes, the courses on the roof are excellent, but sometimes you need to change the pace. If you're feeling tired of a certain dexterity of course, perhaps stands overhead in a sacred tomb and try that out (if you don't have one) or even brimhaven agility course. I would also like to point out that getting 99 fishing through barbaric fishing will give you a 1.2M experience in agility and it's semi-afk so it might be worth training your fishing before you go for 99 agility. Let us know if any information is missing so we can keep this osrs agility guide as updated as possible. Tip: Use a agility calculator to calculate your experience on the left.
