If you don't want Google to have it or maybe you just don't exchange a phone number. You are probably looking for another way to create an eccount that will keep your phone number off the Google network. Set the age to 15 or set up in the Gmail app Read article for more information If you More Gmail tutorials, we have them available here. Luckily for you, there are several ways to get around this is create a Gmail account without checking. One of the easiest ways to do this is through the Gmail app, because no matter how you sign up you can refuse to provide your phone number to check. Another way is to enter your age as 15 as Gmail will assume that you don't have your own phone number. To avoid this, add another email. Add another email with the age of 15 - and you're good to go! When everything else fails, you can use the phone number of cheating software. So Gmail has a phone number that is not yours. Below are steps you can use to sign up for Gmail without a phone number. To do this you need: Step 1Go to Customize the app from the app menu. Step 2Find Menu Accounts (or Clouds and Accounts, and Accounts, and Accounts (or Clouds and Accounts). depending on the system version). Step 3Tap Accounts if you use an Android device. iPhone users can go to step 4. Step 4 Choose Add account at the bottom of the list. Step 5Choose Google's screen should open. Step 9Thut a new Gmail address, or make one of your own. Step 10Inve password. Step 11Google will ask if you want to add a phone numberStep 12Click or Skip to get around this step, or click More options, now you can choose to put in the phone numberStep 13Thethethe you will not have to add additional information. You can use the new email and you won't need to check any phone numbers. Set your age to 15This another useful trick to get around checking your phone. If you're 15 years or younger, Google will assume that you still don't have a mobile Yourself. You just have to create another year of birth assume that you still don't have a mobile Yourself or for business. Enter your account information and a new email address. Click for the Create another year of birth 2004. Leave the cell phone bar is empty. Agree with the terms. It works, but make sure you keep your age up to 18 or they can ask you for a phone number in the future. Also, if you want to add a security option such as another email, create another email where you won't be 15 years old and add it instead. NOTE: This option will only work if you can also use a different browser. Using the Dummy Number A dummy is an online service that you can use to verify your accounts using a mobile number. You can use one of the phone number to be your only recovery option, you may permanently lose your inbox. Can you use the same phone number for multiple Gmail accounts? Yes. If you are using one of the fake tactics we have listed above, you may not be able to use this phone number for multiple Gmail accounts.
